DRUMMING UP SENSATIONS.

An "important meeting" is said to have been held at Beaver, Aug. 24, D. P. Whedon, chairman, Chas. I. Swift, secretary.

"Mr. Hawley briefly and eloquently stated the object of the meeting, producing a letter from A. S. Patterson, official reporter in the late trial of John D. Lee, soliciting aid from the loyal citizens of Southern Utah, to enable him to insure the publication of the trial of Lee. The book, containing all of the testimony and speeches of most of the counsel, will fill about 200 pages in print; also that the attention of the President, Senate and House of Representatives of the United States be directed to the deplorable condition of the social religious and political affairs in Utah; the impossibility of getting justice in the course under the present the collicus for the course of the New York, and nothing serious followed.

The publication of this pamphlet has two objects in view-first the making of money directly by the sale of the book; second, the making of money indirectly by using the book to create political capital. Pelf is at the bottom of it all, and to obtain this any promising measures are acceptable to the members of that ring. Nothing

comes amiss to them. The "deplorable condition of affairs in Utah," is mere clap trapcheap stock phrases.

The present jury law (Poland Bill) divides the choice of names for jurymen between federal officials and local officials, the choice of the federal officials being supposed to be in favor of the ring, and the choice of the local officials being supposed to be adverse to the ring. Last Night's Dispatches. EASTERN

The New Mint Confroversy-U. S. Vessels at Panama—The Mexican Border Troubles—Revenue Frances

CHICAGO, 29. — A Washington special says that Dr. Linderman, the director of the mint, will return to this city about the 15th of September. There is a good deal finterest felt in his return, as he of interest felt in his return, as he has been gathering most interesting statistics regarding our mineral wealth in the west, and has also been carefully canvassing the various locations for the location of the new mint that is to be built in the west. From present indications it appears that this western mint controversy will take a complicated form, and that its location will not be secured through the representatives of any one delegation, but by combinations made between the west and east. It is therefore of importance to know the plan that is at present agitated in the east, which may serve the western which may serve the western delegations as a means to the end of gaining the new mint. Elijah Ward, a member of the 44th Cengress, from New York, is at present making a great demand upon the mint bureau for mint statistics, in order to back up a demand that the next congress shall permit New York to have a coining office in connection with its assay office, rather than be obliged to send bullion to Philadelphia to be coined. It is shown at the mint bureau that New York has furnished full three-fourths of the material for all the gold coin at the Philadelphia mint, and the New Yorkers claim that the coining office should be nearer the base of supplies, so as to save the cost of expressing, which now amounts to something in the neighborhood of

Both the North Atlantic and favorable for several South Pacific squadrons will rendezvous at Panama and Aspinwall, during the rebellion on the Isthmus. Our government has been fully advised of the progress of political troubles there, and weeks ago, at the suggestion of the State Department, Rear Admiral Mulaney was ment, Rear Admiral Mulaney was ordered to keep several vessels of his squadron at Aspinwall. The Richmond and Omaha are at Panama, and the Shawmut at Aspin-

at present stationed along the Rio Grande are too few in number to be able to protect the interest of peaceable settlers. This fact is confirmed in a letter received this afternoon by a prominent official of the government, to the effect that cattle stealing and the murder of peaceful American citizens on the Rio Grande still continue. The writer expresses the opinion that this state of affairs will continue in spite of the military and naval forces sent to that locality, unless some arrangement can be made by which American troops will be allowed to pursue the thieves and murderers to their haunts in the territory of Mexico.
