Columbus, O., Sept. 23 .- "If I charged Gov. Charles N. Haskell wrongfully, it was because Charles B. Squire gave mo his name.'

Frank S. Monnett, former attorneygeneral of Ohlo, today made this statement on the private car of William J. Bryan, en route from Prospect, O., to Columbus. Mr. Monett declared, however, that he could not exonerate Gov. Haskell from the charges that had been made that he was a party to the \$500,000 bribe fund of the Standard Oll company, nor could he condemn him. "All that I have against Gov. Has-kell," he said, "is hearsay evidence, and I have suggested that if the case were presented to a grand jury it would be shown whether Gov. Haskell has been wrongfully accurd."

Haskell, Mr. Mon-nett stated that the governor had renert stated that the governor had re-peatedly asked an opportunity to dis-prove the charge, and had been sub-poenaed to, appear before the exam-iner who was taking testimony in the Standard Oll hearing, but that he did not so appear because the court had ordered the quashing of the testimony. SHERIFF ORDERS RAID.

SHERIFF ORDERS RAID. Last night, acting under orders from Sheriff Emery, Deputies Sharp, Emery, Corliss, Smith, Sperry and Burbidge began rounding up the women. Four-teen were arrested and locked in the county jail in default of heavy bonds. Fallen women were found on nearly all the principal streets plying their voca-tion. The deputies placed them un-der arrest as fast as they saw them stop persons and solicit. More would have been gathered in but for the fact there was not room in the county jail there was not room in the county jail

there was not room in the county jail for them. The round up made by the deputies was a great shock to the women. Feel-ing secure from police interference, they did not dream that the sheriff would molest them. Their votes count and the "American" party administra-tion has been decidedly easy on them. Six of the women arrested last night are street walkers. Two of them are colored. The others are women occu-pying "cribs."

HIGH BAIL FIXED. When the women were landed at the county jall, Justice of the Peace Lund-

berg was called and fixed the ball of the street walkers in the sum of \$300 and the other women in the sum of \$500. Of course, they were unable to give ball in such a large amount—begive ball in such a large amount-be-ing used to paying the city only \$10-they remained in jall. The raid made by the sheriff will undoubtedly have the effect of driving a large number of this class of people from the city. Some of those arrested last night stated they would pack up and leave just as soon as possible. Sheriff Emery says he means business and proposes to do all in his power to clean up the city.

Bishop F. S. Spalding of the Epts-copal church, returned last night from his attendance on the Pan-Anglian con-gress in London, where were convened representatives from the English, American and colonial Episcopal churches all over the world. And af-ter a three weeks' session, Bishop Spalding attended a conference of bishops from the entire Episcopal church also in London. He left Salt Lake June 1 last, and returned via Naples. The bishop, while in London, was appointed by Governor Cutler a delegate to represent Utah in the In-terantional Peace conference, in com-pany with Hon, C. W. Penrose, presipany with Hon. C. W. Penrose, presi-dent of the European Latter-day Saints mission. He says that at the Pan-Anglican congress, there were speeches, discussions and questions brought up of special interest to the church, involving the duty of the church to society. The conference was church to society. The conference was of a more technical nature with its deliberations of a private nature, the conclusions being published in an encyclical letter to English speaking Christianity. Among the questions discussed were the attitude of the church toward intellectual doubt, the duty of the church to governments, and economical questions, the question of Christian society, what the Epis-copal church is doing to promote unity among the churches, and the matter of forms in Christian worship. Mar-riage and divorce were of course made specially prominent resolutions being rlage and divorce were of course made specially prominent, resolutions being adopted decrying the evil of divorce, and calling on the church to check it in every way possible, both corporate-ly and individually. Bishop Spalding emphatically said that something would have to be done without delay along this line. The congress meets every 10 years, and is to the Episcopal church what the Ecumenical council is to the non-ritualistic evangelical churches, which also meet every once in 10 years. a meeting but today's sentiment is to take no action, and leave the matter open, hoping for some development of a favorable nature in the future.
