MR. BRYAN IS NOW TOURING OHIO

Mr. Bryan was accompanied by a brief reception at the mayor's residence. Mr. Bryan spoke for an hour in the city hall, leaving immediately afterwards on his day's tour of the State. Mr. Bryan was introduced by Mayor Jones and he said that he was proud to be presented by a man to whom duty was a higher consideration than was any party. Taking up the question of non-resistance, Mr. Bryan said that he was not a Republican, but a Democrat. He declared that the Republicans were not prepared to defend their foreign policy, and he gave the following as a resume of his views on the subject. We are sorry we have the Philippine Islands. They came to us by accident. We are sorry to have them, but we cannot let go of them. It looks as if God had sent us there; it looks as if we were following the leading of a Divine Hand; and besides there's money in it. That, he said, was the gist of all the Republican speeches on the question. He declared that he was not a Republican, but a Democrat. ROOSEVELT FEELS THE STRAIN.

Rochester, N. Y., Oct. 31.—Governor Roosevelt is feeling the strain of his continued talking much more today than at any time since he started the State tour. Y., Oct. 31.—The sun came out just after the Roosevelt special left Rochester, giving promise of a pleasant day. The first stop was made at Lockport. Here the governor said: "Mr. Bryan invokes the Declaration of Independence as applying to the Philippines. Nebraska was acquired by the Indians in 1803 and he ought to have known how to apply the Declaration of Independence to the Philippines. We cannot let go of them. It looks as if God had sent us there; it looks as if we were following the leading of a Divine Hand; and besides there's money in it."

SWEN ELIASON ENTOMBED ALIVE

Old Miner Shut Out from the World by Cave-in. RESCUED THIS MORNING. In the Presence of Death He Exhibits Rare Coolness—Sustains No Injury. Swen Eliason, a prominent old miner of Bingham, was delivered from the tomb at 1:30 this morning into which he had been locked since 2 o'clock yesterday afternoon. Eliason was at work in the Spirit tunnel in the Moan group of mines when a cave-in occurred and he was shut out in a tomb. That occurred as rare an exhibition of coolness and presence of mind as one seldom hears of. Eliason saw that the compartment into which he had been almost hermetically sealed was small and he at once blew out his light and remained absolutely quiet during the time of his entombment. He did this in order to husband the small amount of air that was in the cell, for he realized that the light would consume as much air as two men and also that if he moved about it would accelerate his death. For a man to act thus thoughtfully in the presence of death is indeed remarkable. Eager to save his own life, Eliason, like madmen to save the life of their friend, at last a pipe was reached and the sharp click of the pick striking it, was answered by a tap from behind the wall of fallen earth, which indicated that Eliason was alive. And from then on messages of encouragement passed back and forth along the pipe until with a great shout the men pulled the mine and he was grasped in the arms of his friends.

The force at work today numbered 60 men. About 4 o'clock a fresh outbreak of fire broke out in the Big Cottonwood. On four different occasions within the past month sticks and wires have been thrown across the road in the neighborhood of Nielson's store in Big Cottonwood, thus forming a sort of barrier and cutting off the power which should have been sent to the city. FIRE LOSS IS ABOUT \$5,500.

Flames Break Out at the Portland Cement Works Again. Big Plant Was Entirely Destroyed by Fire Three Years Ago—Will Close Down for Three Weeks. The north wing of the Portland Cement works, containing the cold grinding and drying machinery of the plant, on Fifth West and Eighth South, was destroyed by fire at 1:45 this morning. Departments 1 and 2 were kept busy for several hours fighting the flames, and men have been at work all day. The fire is supposed to have started from cinders falling into some slack coal. An alarm was sent in as soon as the blaze was discovered, and the firemen hastened to the scene as soon as possible. Much difficulty was encountered in obtaining water with which to fight the flames. The engine was run near the old canal and water was pumped from it. The main buildings were not at all damaged and the machinery in the part which remained was not damaged to the amount of about \$5,500. The loss is covered by insurance, policies being carried in several different companies. Up to a late hour this morning the plant was closed. It will now close down entirely for three weeks. In the meantime all orders will be filled as heretofore from the manufactured article which is in no way damaged.

AMUSEMENTS.

The Neill company is evidently encountering the dull season that always immediately precedes the national election. Last night's audience was still small in spite of the enthusiastic reception the company was given on Monday evening and the favorable verdict awarded its work. The play last evening was "An American Citizen," last rendered here by Nat Goodwin and Maxine Elliott. It was mounted by the Neill company with all the taste and care for which the organization is noted, beautifully acted, exquisitely gowned and well staged. The same remark that applied to Mr. Neill's role in "A Bachelor's Romance," fits his delineation in the "American Citizen." The part of "Cruger" was written for Nat Goodwin just as that of the bachelor was written for Mr. Neill, and the two actors are as well matched as any two actors in the city. The play was excellent throughout. Miss Dean, though she had only a small part, filled it charmingly. Chapman wore some beautiful gowns and danced with intelligence, though occasionally with haste. All the other parts were in capable hands. This evening Bronson Howard's "Aristocracy" forms the bill.
