GEO. L. GREATHOUSE, Agt.

THE attention of book buyers in general, and especially those in the country, and of Sunday School committees, &c., is directed to the advertisement, in another column of the News, of Mr. James Dwyer, bookseller of this city. He has in stock the largest assortment of books in the Territory, including standard works on education, in science, art, history, and a large collection of the works of the best authors of America and Europe, in fiction, poetry, &c. Also a handsome variety of bibles, dictionaries, Sunday school reward books, works on agriculture, guides for the speaker and parliamentarian, songbooks, plays, dialogues, recitations, newspapers and periodicals in English, French, German, Danish, &c. Also pocket cutlery, a.bums, children's toys and fancy gewgaws, and everything kept at a first-class house in this line in any part of the country, all of which are offered at the cheapest rates. An excellent opportunity is now offered to parties desiring to purchase collections of books for public libraries, as Mr. Dwyer is shortly going east, when he will give special attention to orders of this kind, his long experience enables him to make such purchases to a greater advantage than perhaps any other man in Utah. For further particulars read his advertisement, and if you want to purchase books—the best and cheapest and of every variety, do not forget the address of James Dwyer, bookseller, East Temple St., Salt Lake City.

APPRECIATED.—Milwaukee Sentinel says: "Dr. Price's Cream Baking Powder and Special Flavorings are the best, without exception, that are made. They are growing daily in popular favor, and in every case where they are used give decided satisfaction. We are using them in our household, and speak from a knowledge of the case. These articles are not put into the market to compete in price with those of a low grade and inferior quality—they claim purity and healthfulness. Let those who read give them but a single trial and be satisfied."

## ESTEY ORGANS!

What Prof. CHARLES J. THOMAS says:

S. L. CITY, U. T., April 5, '73.  
Mr. C. W. Stayner:—Having an experience of 31 years as a musician, a great share of which time I have been leader of Orchestras and Choirs in Europe and America, and being solicited by you to pass my judgment on the "Estey Organs" for which you are agent, and having tried and examined them thoroughly, I confidently recommend them to the citizens of this Territory for their superior tone, the Vox Jubilate being a fine imitation of the pipe organ—their nice smooth action and delicate touch, excellence of workmanship in their construction and their general reliability, making them all that can be desired in organs either for church or parlor.

Yours respectfully,  
C. J. THOMAS,  
Conductor of Theatrical Orchestra.

## VICTORY! VICTORY!!

THE

## WILSON

Sewing

## MACHINE

TAKES

## Five Medals

AT THE

WORLD'S FAIR at VIENNA!

Three separate dispatches from Vienna combine to dispel all doubt as to what sewing machine has won the first honors of the great Exposition. The first was a special to the New York press on Monday, and was as follows:

VIENNA, August 15, 1873.

The Wilson shuttle sewing machine was awarded the grand prize at the Vienna Exposition for being the best sewing machine.

RAYNOR.

The second was the regular Associated Press report, compiled from a long special to the New York Herald, in which the "Wilson Sewing Machine of Cleveland, Ohio," was named as among the exhibitors which received "gold medals for merit," the highest class of premiums awarded at the Exposition.

The third was a private cable telegram received yesterday from Vienna by Mr Wilson himself, which was as follows:

VIENNA, August 19.

You have received five medals—two for merit and three co-operative.

The meaning of this is then explained to be that the Wilson Machine has received the gold medal as the best sewing machine, and a second gold medal as the machine best manufactured—that is, embodying the best mechanical workmanship. Besides these, a special medal was given for excellence of workmanship on the machine, another for the best sewing on leather, done by the Wilson, and the other medal for best samples of family sewing and embroidery, done on the Wilson machine.

This sweeps the entire board. Not only has the Wilson Sewing Machine been pronounced the most capable and efficient sewing machine in the world, but its work, on both dry goods and leather, is pronounced superior to that of all other machines. This verdict at a World's Fair, where all the leading sewing machines of both continents have competed before a thoroughly competent committee for more than three months, is the most complete triumph ever won by a sewing machine.

The above is taken from the Cleveland Leader, of August 23.
