DALY ACTIVE AND HIGHER.

The Market Disylayed Firmness, but Prices in Many Instances Tobogganed-Outside Business Increases.

The mining exchange was the scene of much activity this morning. The market was comparatively broad and lively and a good business was recorded. The morning's transactions involved 40,995 shares and \$31,601.

Many stocks participated in the trading, which centered in Con. Mercur, Daly, Grand Central and Ingot during the regular call and Daly-Judge and New York on the open board. Con. Mercur under heavy selling or-ders tobogganed several cents, while

Daly, in strong demand, closed with 2.08 bid, after trading between 1.95 and Grand Central sold at figures around 5.30 and Daly-Judge was stronger at 10.00. Ingot advanced and May Day was steady at prices only slightly lower than those yesterday. Utah traded at 59 and California at 35½, while New York advanced from 63 to 65½ and Ma-

Jestic was purchased at 3.10 with one other sale at 3.05, the seller taking a 80 day delivery option.

The improved condition of the market was widely commented upon and a well informed broker says that if outside orders will only continue to increase, and he sees no reason why they should not, the local market will very speedily take on an air of life and hustle.

The morning session closed on the following market.

GOLD MOUNTAIN RICHES. Manager Eader of the Annie Laurie

Believes the District Immense. Before departing for Chicago to meet

the other owners of the great Annie Laurie mine in annual session, Manager Rader was interviewed on the Gold Mountain district. He stated that the mine of which he is manager is producing over \$80,000 a month, and paying a \$20,000 monthly dividend. It is the only property that has energetically been developed to a

producing state, but continuing he said there are no fewer than Gold Mounta | strict that with the same amount of money and energy spent in systematic development will prove quite as great as the Annie Laurie. In the whole district gold ore abounds and almost any well located property in the district with proper development can be made a mine

MAMMOTH AFFAIRS. Boarding House Trouble is Variously Commented Upon.

Special Correspondence.

Eureka, Oct. 6 .- The boarding house trouble is again on between the Mammoth Mining company and its employes. Last week 30 men were given their time, and the men declare that were discharged because they would not board at the company boarding house. The men quit boarding at the "beauery" and went to one of the hotels of the camp to board, which act evidently displeased the company and they were given their time. Some of the employes say that they can get all the work they want at the mine pro-vided they board at the company boarding house, this they will not do. The men say the single men are expected to patronize the "hash house," and the married men must trade at \$40 per month at the company If this is the case it is an inleast \$40 store. fraction of the mining law passed at the last legislature, against compelling employes of a mining company to board at the company's boarding house. The attention of the county attorney has been called to the fact that the Mammoth company has violated the law repeatedly, and he will now probably take some action in the case.

In behalf of the company, Foreman Trauter is quoted as saying that the men were not given their time because they would not board at the "beanery but because he wanted to make a cleanup of the mine, and when this was completed he would again put a large force of men to work.

Mercantile Associations Union.

Chicago, Oct. 7.—A union of all the nercantile associations of Chicago in a federation to be controlled by a presi-dent and an executive board made up of representatives of the several organ-izations was proposed by Prest, James A. Lawrence and the members of the Shoe and Leather association at a neeting of the association held last right. The plan, Mr. Lawrence says, has been considered by the various as-ociations and so kindly has been the feeling towards the project that a mass meeting will be called by the shoe and ther men within a month a modern building as a home for the general association and headquarters for the several minor associations

which will retain their own identity. To Fight Cholera in Philippines.

YIELDED ON LIGHT SALES

New York, Oct. 7 .- Opening quotalons for stocks showed a rebound from yesterday's depression owing to the hopes of relief for the money market by purchase of government bonds by the treasury department and a favorable interpretation of developments in th coal strike situation. Stocks that were most depressed yesterday showed mou strength. A good deal of long stock which had been awalting a market was sold on the advance, which checked an further improvement and caused reactions. The market yielded steadily or light sales until the opening advances were about wiped out, and St. Paul, Mo. Pacific, Louisville, Southern Pacilic and a few of the coalers and specalties sold under yesterday's final pric-

Sloss-Sheffield steel broke 61/2. little money was offered at less than 13 per cent. Towards noon prices had pardened a small fraction and the mar ket was intensely dull.

Bonds were irregular at noon. After a dull period in which prices hardened slowly, the apathy of the market gave way to active liquidation and prices crumbled away rapidly on heavy selling. Stop loss orders were met in all the leading stocks and the xecution of these carried prices modrately lower. Earlier advances of from to 2 points were turned into losses of equal extent and more than that in some cases. Sugar, Southern Pacific and Delaware & Hudson ruled 2 under yesterday's close; St. Paul ex. div., 3% and Consolidated Cas, 3½. Northwest-ern pfd. lost 4½; Canada Southern and New ork, Chicago & St. Louis 5 and Great Northern, pfd., 8.

WESTERN MARKET LETTER

Kansas City, Mo., Oct. 3 .- The railoads have been taxed so heavily the past month in hauling stock to market that it seems they are unable to get the stuff in here in time to sell the same day it arrives. Every day for the past two weeks almost one-third of the stock has been delivered at the yards after noon. By the time it is sorted and fed and watered, it is too late to go on the market that day, and so is held over swelling the next days offerings and thus contributing that much to the injury of the market. It was a tough oposition to cause a general lowering of the market this season, but the unprecedented heavy supplies of the last two months have gradually worked values down, until prices have probably reached the low point of the season this

The run shows no signs of abatement. but this week will equal if not exceed the banner week of the season, exceed-ing 90,000 head, eincluding 7,500 calves. The supply for the month of September reached a total of 372,000 head, including 40,000 calves. This is 46,000 more than were ever received here in any month before. Other western markets had bis supplies, and the fact that trade has been at all times healthy, and has shown no signs of a panicky feeling, is ause for congratulation to every man vho has cattle to sell. The rain which proved so troublesome o the market last week extended over

to Monday of this week, with its bad influence. Corn cattle had a very bad day Monday, recovered some Tuesday, but have been slipping down hill since then, and are 25 cents lower than a week ago. Western beef steers have not been as plentiful as expected, so have not suffered so much, but are 10 cents lower than a week ago. Thirteen hundred and twenty-five pound Westerns sold Monday at \$6.00. Ten hundred and 50 to 1,100 pound Panhandle steers sold this week at \$4.00 to \$4.30. eviously been selling relatively high, but have lost ground this week and are 15 cents lower. Bulk of native cows sell at \$2.85 to \$3.75. Some X I T cows sold at \$3.20 Monday and at \$3.05 today indicating a loss of 15 cents. Veal calves sell from \$6.35 down, and are 25 cents higher this week.
Last week 1,098 cars of feeders and

stockers went to the country from here, or 35,035 head. Trade this week has been dull in that division, and country buyers not so plentiful as usual until today, when the largest attendance of buyers of the week are present, thinking they can buy at the low point. Certainly some bargains will be picked up, but there are enough buyers in sight to insure a good clearance for the week. The best feeders are now selling at \$4.50 or less. Bulk of western feeders sell from \$3.65 to \$3.90. An accumulation of undesirable yearlings is being picked up today at \$2.25 to \$2.50. Stock cows, \$2.20 to \$2.80, stock calves \$3.35 o \$4.00. The total movement of feeders and stockers to the country from his market during the Month of Sep-ember was 145,752 head. Sheep have been coming in large numbers, the total for this week being ear 50,000, probably the heaviest ever had here. During September 168.

Rogers, Peet

Clothing.

and Company's

314 head were received, more than eve before in any month. Of this number 49,399 head went back to the country as feeders, which shows that the country is paying considerable attention to the sheep business. Of this supply for the month of September, Utah furnished more than one-half, or 94,787 head, against 35,564 head from that state the same month last year. The market on killing stuff the past week has remained steady, while feeding stock is 25 cents lower. Idaho lambs sold as high as \$4.90, and Utah wethers sold every day at \$3.65. Lambs sold from \$4.60 to \$4.90, Colorado feeders sold at \$3.00 weighing 75 pounds. Western fat ewes sold at \$3.00 to \$3.25. Monday a few Southdown bucks were on sale and sold at \$10.00 per head. Very few feeders sold at more than \$3.00. Some New Mexico feeding lambs sold at \$3.75.

BIGELOW CARPETS

The Carpets made by this Company have received the highest award wherever exhibited, including Gold Medals at the Paris Exposition, 1878, and at the Centennial, 1876.

Their deserved reputation for excellence of fabric, richness and durability of color, novelty and beauty of design, has led to frequent infringements, and inferior goods have often been palmed off in their stead. For the protection of the public the Company has adopted as a trade-mark the word "BIGELOW." which will be woven (at every repeat of the pattern) in white capitals into the back of the fabric. Customers will therefore have merely to examine the back of a carpet to be certain that they are getting the genuine Bigelow Car-

pets.
These Goods can be obtained from all first-class dealers.

A Thousand Miles of Comfort

There's not a piece of track in all America that is better built, safer, or easier to ride over than the Burlington Route from Denver to Chicago.

A trip over it is the most notable experience in the trans-continental journey. For more than a thousand miles you are transported at flying speed. Noise and dust are noticeably absent. If it were not for the landscape that rushes past at 60 miles an hour

you would hardly believe you were moving.
Through sleeping-cars for Chicago leave Salt Lake at 3:15 p. m. dally. Through tourist-cars Wednesdays and Fridays. Glad to give you more infor-

mation. TICKET OFFICE: 79 W. SECOND SOUTH ST.
