ASSOCIATION GAME ON VERGE OF BOOM Much Local Interest in This Kind Of Football-It is a Great Game. SALT LAKER WRITES OF IT.

Says it is Something New to Salt Lakers and Should be Liberally Supported by Press and Public

The following interesting article on association football was received by the sporting editor of the "News" this morn-

association football seems to be on the verge of a boom in Salt Lake City, and the immediate vicinity. This game thoroughly deserves all the support it can get, not only by the prominence given in the local papers, but also by the in general. Last fall we read in papers wholesale condomnation of cotball as a sport owing to its brutality, 10 the shocking number of fatalities i the shocking number of fatalities i accidents to players, as a result of game. But association football will a fotally new game for this inter-untain region, and berore indulgang in at the regular annual condemi.at.on football, the hostile critics, the facui-of the various colleges, and parents, and turn out and view this great game. CLEANNESS OF THE GAME.
Tale's football coach "condemied the game. Football should be a heafthy and present agency of attahling comparative physical development, and to reach that mean no better means could be employed than ansociation football. It is apecartize to the spectrator and the oug, it is a pecartize to the spectrator and the oug, it is a pecartize to the spectrator and the oug, it is apecartize to the spectrator and the oug is an element of the players. Some professional players in baging there such the seasons running and that or the elements. What gaenter praise for the elements of this game, out be given. At the same time don't want, the cheffer and develop side by side. Association for and evelop side by side. Association of the out of the sease of the sease of eye, and movements, ability to run well, and keep it up, and many other manly attributes. The average player is likely to be played out through want of stamina and wind as man and the ball in a good game are constantly on the move from start to finds. For those who wish to average into long distance runners and wind as man and the ball in a good game are constantly on the move firm start to finds. For those who wish to average into long distance runners better means could be employed that ioning and engaging in association football.

SAYS AMERICANS ARE OUTCLASSED.

SAYS AMERICANS ARE OUTCLASSED: All athletes know that in long distance running at anything from 3% to 10 mdes the American athletes are hopelessly out-classed by the Britishers and no dout the universal playing of "Secker" football on the other side has a lot to do with it, as when in England a "Socker" club goes into special training that training in-cludes a hare-hounds' chase (cross-coun-try running) with long walks up and down dale sandwiched in between. In Liv-erpool fully 10 per cent of the junior foot-ball players are memoers of the scores of wardous heavier clubs of the city. We hope a good crowd with nave been pres-ent at the Eureka match and fluat a large turn out will be present at the exhibition match on Arbor day between the two lo-cal teams. In the near incure we hops to have a football league in Utah with a membership of at least eight clubs; als; a junior league for the youngstens if the same develops. In widdition to a league contest a cup contest would ad addition-al interest to the game, the rival.sts from whatever part of the state they hall from, to decide the final round in Salt Lake City. For a person to get a true picture of the wonderful spectacular possibilities of this game, he would, of course, have to visit Britain and watch a league match or up the among the various profession-al teams in England and Sectiand, where attendances of 3000 and up occur weekly at one place or another. NO SUBSTITUTES ALLOWED.

NO SUBSTITUTES ALLOWED. No SUBSTITUTES ALLOWED. Professionalism in Britain has no doubt tended to make the game cleaner, less fuils and less rough play than before its advent, because if a player is caught engaged in dirty, though tricky foul pay-ing, he is instantly ordered off the iteld No substitutes are allowed once the game is started in "Socker" football or for the matter of that in Rugby either, on the other side of the pond. The team the condermed player, belongs to is then haa-dicapped by the loss of a man. If the condermed player, belongs to is then han-dicapped by the loss of a man. He has been working for a couple of weeks and is now in pretty fine that and will require but a few days' stren-uous work to get himself in condition f r the hatle of his life. He is full of confi-dence that he will beat Gardner when they clash at the Salt Lake Theater on the night of the 17th. Gardner is still keeping up his hard lieks, and sends word to the "News" today that he will be fit to battle for a kingdom, and will surely beat Schreck.

The Butte Miner says: They have a habit of geting enthusi-astic down in Salt Lake over almost any old kind of sport that brings a blush of shame to the checks of the few real simon pure sporting men in this city when they think of it, and the iat-est spasm in the Mormon town is over bowling. Spokane and Seattle. The Spokane Chro-nicle says: "A bowling match with Seattle, another with Butte, and still a third with Salt. Lake, with the results of every ball rolled in Seattle or at any of the other places flashed on the score board here as the score is made, is the latest thing in bowl-ing for Spokane. "Manager Haupt started arrangements with the Postal people today to have is wire put in the Pfister alleys so as to prepare for the matches. This is some-thing entirely new and it will be a peou-liar sensation for the bowler here to look up at the score sheet and see how his man is doing over in Seattle, or Butte of Salt Lake, as the case may be. "Manager Haupt has opened negotia-tions with the teams above mentioned and there is no question about the matches being pulled off as contemplated. The plan-takes of a genuine contest." Manager Heilbronner of the Thornton aleys wants a seven team match and yesterday wrote to Salt Lake, Spokane, Seattle, Portland, San Francisco and Denver in regard to a telegraphic tourna-ment. From all this scheming, something good should result in the near future.

The Grade Schools Baseball league is now fully organized. Phil Barter was chosen president of the league.

Reilly's bunch was out again this morn-ing and afternoon, and each day s prac-tise shows great improvement. Some of the boys have sore arms, but a lattle more work will overcome the sorchess.

Large crowds of Ogden light fans daily watch George Gardner go through his training stunts at the Oguen fire station. The big fellow is rapidly rounding into perfect form, and he is confident of tak-ing Schreik's measure when they meet at the Theater here on the lith.

Jabez White is willing to square off against Jimmy Britt in the squared cir-cle. He also wants a square deal. But the question naturally arises, will the match be on the square? Some coast fight fans doubt it.

Manager Cummings of the Salt Lake Auto company is a busy man these days getting machines in shape for the culfer-ence rush. He says he is expecting sev-eral new ears in from the east in the near future, among them being the hand-some new McMornick automobile. The hig Bransford machine is being over-hauled and repaired.

Here are a few quotations which the portaman should pay attention to just it the present time: Golf Balls-Scaring high teeing off at \$9 with presents of a pice vise

Here is a good one the eastern press is telling on Salt Lake's new second base

tening on sait Lake's new second case-man: "Darby" O'Brien, who plays in the Three I league, tells this story on him-self: There is a time in the life of every ball player when he wishes he could dis-appear from the sight and hearing of the crowds and not reappear until s me time next week. Such a time came to me in a game between Rackford and Decatur last June. The Decatur pitcher was af-fected with some peculiar affection of the eyes and you couldn't tell whether he was looking at your o some man in the next precinct. I never new such a pair of eyes before-if you could call his eyes a pair.

the Buffaio and Balumore curs to but and entered another city, prebably Wash-ington. George Tebeau was said to be in this scheme, and he was to provide four clubs in the American assolcation to make up the western cities of the circuit. Then they were to fight the American by grab-bing players. Of course, the details of this thing had not been studied out, but that was the plan in embryo. "Activity along these lines was soon blocked. President Ebbets of the Brook-lyn club evidently became suspicious. He arranged for a transfer of stock held by Harry Vonderhorst to himself and Hen-ry W. Medicus. Hanlon held stock as security for \$5,000, which Vonderhorst owed him. With the money secured for Vonderhorst's stock this obligation was wiped out, and Hanlon new hes little or no stock in the club. Then Ebbets pro-ceeded to cut a big gash in 'Poxy Ned's salary, partly as a measure of retala-tion. By this deal Griffiths was left out salary, partly as a measure of reta-tion. By this deal Griffiths was left in the cold, and his visions of becon a Brooklyn stockholder faded away.

The Woodmen of the World netted good sized sum for their Los Angeles display at the Saltair grand ball last evening. The big dancing floor was well filled with the gallant knights of the green tree, their ladies, and friends of the Real Estate association. A feature was the exercises performed by the drill team which were highly applauded. This team is depended up-on to make a good showing at Los An-geles where it will compete for first geles where it will compete for first honors, and probably be a factor in developing votes for the headquarters building which it is proposed to erect. The last train left the lake in time to connect with the midnight city cars.

with the goods on, ho wakk ever did. Behind the attempt to oust Pat Powers from the presidency of the eastern league -a movement which died suddenly yesterday-is unfolded a far-reach-in plan of ambituous schemers, who sought to change the face of the baseball map by launching a third big league in opposition to the American and National leagues. Those who are in a position to know declare that this scheme was a product of the fortile brain of Howard C Guif-fiths, who has just been removed from voting power by the Jarsey City club.
