I BIG DIVIDEND OF DALY-WEST.

Sales Made as High as 23 on the Directors Order Payment of \$52,-500 on the 15th Inst.

THE YANKEE CON. ANNUAL

Was Held Today-Ben Butler Starts Up-Visited the Comstock-Inquiry for Carisa.

The directors of the Daly West Mining company met this morning and declared the regular monthly dividend of 35 cents a share, or \$52,500 payable on the 15th inst., the books to close August 10. This is the 25th dividend distributed by the company since October, 1899, when the company paid opening to \$1.55 at the close, Daly-West its first dividend of \$30,000. In that period the company has paid to its stockholders the magnificent sum of \$982,500.

Those who have lately visited the mine report it in excellent condition. A surprising amount of ore is continbeing opened up which more than offsets the extraction going on. Ir spite of this fact, the stock has dropped between \$3 and \$4 per share in the last few weeks. This is said to be due to the fact that buyers of this class of securities are out of town. The re-cent investments in Uncle Sam, Con. and Carissa have also withdrawn money from the banks which might have been put into Daly West. The decline is not due to any change in the mine, which is said to look better than ever. The payment of this large sum will be followed by one of \$100,000 on the 10th inst., from the Silver King, of

YANKEE CON. MEETING.

Report Shows the Condition of the

The annual meeting of the Yankee Consolidate Mining company was this afternoon, at which the following directors were eleviz: Dr. P. A. H. Franklin, E. were elected. Genter, of this city, J. M. Gamble of Roanoke, Va., J. W. Merrill of Eureka and GGeorge F. Goodwin, of the firm of Goodwin and Van Pelt, attorneys. Dr. Franklin is president of the com pany, E. W. Genter, vice president, and L. A. Amsden, secretary and treas

The financial report showed that the company has an overdraft of about \$15,000, incurred through equipping the mine for the extraction of ore. About \$6,000 of this sum was spent in straightwork done the company now a 1,500-foot tunnel which is said to be second to none in the State. The superintendent's report shows that there is ore enough broken down to pay off the indebtedness. With the mine equipment finished, the company now owns a fine assay office, a 300-ton ore bin, a gasoline engine for power if the electric current is cut off from any cause. In addition the company is building an eleven-room dwelling house for the superintendent and other offi cials. The tunnel is lighted through out by electricity, and the company is using electric drills. The drills have now been started to work and the big tunnel is being pushed ahead to the Humbug ore body. At the same time ore is being extracted for market. The company has five places where men can work on ore and the superintendent states that the company will shortly be prepared to market from 75 to 100 tons of ore per day. At the same time the management is upraising in the Humoug ore body, where assays running 136 ounces silver and 49 per cent lead. are not uncommon. The outlook for the Yankee Con. is certainly very

INDIGNATION MEETING. Miners of La Sals Condemn Methods of Gid R. Propper.

The "News" is in receipt of the folt prints without comment;

rights of communities to protect their interests even at the discomfort of ar ndividual in cases where it is impossi ble through process of law to obtain the ends of justice. Our attention has repeatedly been called to fraudulent transactions where Gid. R. Propper has transferred property by deed where no location has ever been placed on rec-ord. Also where property has been placed on record but no work done to hold said claims. Therefore be it re-solved, that we the miners of Miners' Basin do hereby show our disapprova and condemnation of all said transac-

tions. We hope the world will not judge the camp by the fraudulent actions of this one individual. Committee:

the meeting: John M. Mahon, W. E. Price, G. W. A committee was appointed at the same meeting to inform Mr. Propper

that he must leave the camp at once

Senator Clark Refuses United Verde

Miners Request for Eight-hour Day. Phoenix, Ariz., Aug. 5.-A dispatch from Jerome says Senator W. A. Clark has sent an ultimatum to the striking miners at the United Verde copper mine latly refusing to grant their request for an eight-hour day. Nearly 1,600 nen are out. The miners declare that there will be no violence. Only about 10

TO SINK IN THE TIERNAN.

Very Flattering Showing in the Drift Below the Tunnel.

Superintendent Newt Dunyon of the Vulcan property in Esmeralda county, Nevada, spent yesterday in looking through the old Tiernan group in north Tintic, where development work is being steadily pursued. A force of 14 men has been engaged for some time past in drifting in a big lead chute at a point 90 feet below the tunnel, or about 300 feet below the tunnel of tunnel of the tunnel of tunnel

in lead ore of good grade, running from 25 to 50 per cent. The face and sides of the drift is in ore of this quality for almost 200 feet. At one place a cross-cut of 10 feet was run to one of the walls, but further than this nothing is known of its size. It is now the inten-tion to sink 100 feet deeper. The work will begin at once and Mr. Dunyon will put 6 more men to work.

THE WALL WAS AND THE PROPERTY OF THE PROPERTY

COAL MINE FIRE.

One that Has Been Burning for

Months Closes Workings. New York, Aug. 5 .- The Delaware, Lackawanna and Western Coal company will probably have to abandon its Jersey mine at Plymouth to the fierce fire which has raged in it for months says the Wilkesbarre, Pa., correspondent of the World. The loss will be several hundred thousand dollars. Although skillful fire fighters have en-deavored to stop the spread of the fire. they have been driven back. They are now compelled to work from the out-side, and are doing little good.

It is practically impossible to flood the mine, because it is on a high leve on the mountain side, while connected with it, and on the lower levels of the valley below, are: the Nottingham, Avondale and No. Six collieries, all of which would have to be filled with water before the fire in the mountain levels of the Jersey could be reached. This would involve a loss as great as the value of the Jersey mine. The fire will be allowed to burn it self out. This will probably take 50

Location Notices Filed.

Special Correspondence.

Provo, Aug. 5,-W. T. Vincent et al have filed notice of location of "Start-er" and "Starter No. 1" mining claims, situated in the Peepstone mining dis-

J. J. Craner et al have filed notice of location of the Star claim (petroleum), part of section 11, township 11 south,

range 8 east. Mr. S. N. King, of Dewey, Grand county, was in Provo Saturday. He reports a strike of a five-foot vein of rich copper and silver ore in the ground of the International Copper company in which Sam A. King and other Provo people are interested. The company has a large quantity of rich ore ready for shipment and expect before long to have a branch of the R. G. Western to the Beaver Basin, where the mine is located. Capitalists from Cripple Creek have recently been in the camp and secured water rights and a location for a mill.

Ben Butler Resumes.

Manager A. L. Jacobs ordered the Ben Butler forces to start up today in ull force. He says that offers have full force. He says that offers have been made by certain parties to com-promise the suit which was started against the company for trespass. Jacobs says the company will not pay a cent towards settling the suit unless the court awards it. The company may have trespassed slightly, Mr. Jacobs says, but no damage has been done, and no ore has been taken from other property. He is therefore determined to see the thing through to the end, and in this he is joined by all the directors.

Returns form the Comstock.

Manager Dusseldorf returned last vening from the Comstock of Park City, to which property he was accom-panied by Joseph Oberndorfer and Mr. McNally. Mr. Dusseldorf says he und a very encouraging showing. The drift on the ledge nearest the shaft has been driven about 120 feet. The drift on the second ledge is about 30 feet from the crosscut. Conditions are simllar in both drifts. Patches of galena are found in quartz but the shipping ore has not yet been reached. It is expected to be tapped shortly, however. The 1,000-gallon pump is said to work noiselessly and perfectly by Mr. Oberndorfer, who also returned last evening.

Great Demand for Carisa.

Inquiries for stock in the new Carisa ompany are coming in from a number company are counting in from a humber of unexpected places and as a consequence the price has stiffened to somewhere around \$1.70. Several conservative business men, who seldem if ever deal in mining stocks, placed orders this morning. The stock will be issued during the next few days. It was expected that the property would be for-mally transferred to the new owners

MINING NOTES.

The Carisa of Tintic reached the market today with four cars of ore. Agent H. F. Poland, of the Highland Boy, is back from his trip to the coast. Seven cars of ore were on the market today from the Grand Central of Tin-

Manager Williams of the Utah said in a letter received today that the water is increasing in the shaft, which is down 841 feet. A force of 23 men is em-ployed. The condition of the mine is un-changed.

W. H. Grant was in town today se curing the smokestack to the dryers of the new Midas mill in Deep Creek. It will be taken out by a six-mule team from American Fork. Upon its arrival Mr. Grant says the mill will be put

A DECLINING TENDENCY.

Stock Market Felt Effects of Bank Statement and Industrial Situation.

Quiet and Ease Reigned Among the Railroad Bonds-Prices were Barely Kept Steady.

New York, Aug. 5.-The week opened on the stock exchange with prices showing a declining tendency under the influence of Saturday's unfavorable bank statement and on the failure of an amicable settlement of the steel strike. Losses in the railroad list ran from one to two points. Fifteen thousand shares of United States Steel were unloaded at from 41 to 401/2 compared with 431/2 Saturday. Six thousand shares of the preferred brought from 901/2 to 90, an extreme loss of 2%. Op-ening prices were the lowest for the more important stocks, as buying by the short interest and insiders caused rallies of about a point in St. Paul, Atchison and Southern Pacific. These gains, however, were largely offset by steady liquidation at other points. The bank holiday at London helped to keep down the volume of business here. An effort to mark up the United States Steel stocks brought out large indi-vidual blocks and they yielded below the opening figures. The room tradrs offered large amounts of other leading properties. Pressure was most severe against Union Pacific, Atchison, sugar and St. Paul, and they quickly sold off from 2 to 3 points below Saturday's close. Northwest dropped 5% on one transaction, and the entire market ruled at the lowest prices of the morn-

Railroad bonds were quiet and easier. Pressure relapsed after midday, but there was no attempt to advance prices and the small demand barely kept the market steady. Pacific Mail dropped 3 points on three transactions with a spread of a point between each.

Liquidation was resumed with increased violence and prices crumbled away rapidly as the professionals scaled down their bids for stocks. The selling was very general but the more acute losses were made by the leaders of the various active groups, for in-stance, Union Pacific St. Paul and su-gar. These properties fell from 3 to 4%, the last mentioned leading. Losses of from 2 to 21/2 were very general elsewhere and Illinois Central broke 4½. The steel stocks, which had been held above 40 and 50 respectively all day, finally broke under the tremendous offerings and the preferred reacted to 89%. Prices were slightly above the lowest at 2 o'clock, but trading was very nervous.

BADGES OF HONOR!

Next time you go East via Denver and the Burlington Route, pay particular attention to the sleeping car porters. You will find that on the coat sleeves of most of them are one, two, three or four bars of silver lace. Each bar stands for five years of service.

The badge is reassuring. It means that its wearer is honest, civil, and obliging. If he were not, do you suppose he could have held his position as long as he has? Thro' sleepers for Omaha and Chica-

go via the Burlington leave the R. G. W. depot daily at 3:15 p. m. Tourist Cars, Wednesdays and Fridays. Drop in and let us quote rates and give you full information about our ser-

Tickets at offices of Connecting Salt Lake Office, 79 West, 2nd South St.
