

MINING, BUSINESS AND STOCKS

DULL TRADING ON THE EXCHANGE

While Some Stocks Were Inclined To Weaken, Beck Tunnel Remained Strong.

ALSO COLORADO MINING.

Carisa in Little Demand—Closing quotations of Forenoon Cuts.

Business on the mining exchange opened sluggishly and continued in that condition throughout the day. Daly was the first seller of the day, a small lot going at \$2, while Daly Judge, in spite of the fact that the company is about to pay its initial dividend, was inclined to be sluggish. Nevada Hills opened strong, but closed on the sale of 100 shares at \$3.20. Beck Tunnel Consolidated, which recorded a signal advance on Saturday, was also in good form and sales were recorded up to \$1.87 1/2. Colorado Mining, also displayed improvement over last week's quotations. There was considerable offering of Scottish Chief on the regular call, the stock weakened to 5 1/2 cents. Black Jack did business at 51 and 52.

Carisa appeared to be in little demand. However, the stock going at 95 cents.

The closing quotations and sales were:

MR. NEWHOUSE IN POCHE.

Has Become Interested in the Ohio-Kentucky Mine.

The announcement was made late Saturday afternoon to the effect that Samuel Newhouse had decided to enter

Today's Metal Quotations.

Local settling prices as reported by the American Smelting and Refining company:

SILVER	- 69 1/4
COPPER, Casting	- 21 1/4
COPPER, Cathodes	- 22 1/4
LEAD	- 85 7/8

NEW YORK QUOTATIONS.

COPPER, Firm	- 22.72 @ 23.00
LEAD, Steady	- 5.75 @ 6.05

the Ploche, Nevada, district, and has acquired a large interest in the stock of the Ohio-Kentucky Mining company. The directors have also elected Mr. Newhouse president of the corporation. J. L. Hackett of Louisville, Kentucky, having resigned to make place in the official family for the big Utah operator.

The Ohio Kentucky company owns valuable property in Ploche and is now conducting a very vigorous campaign. Among the company's assets is an undivided one-half interest in the Curran, Greenback, Silver and Independent mines, situated on and taking in the very heart of the big porphyry dyke, as it is called, the mother lode of the district, and on which is situated a rich sheet of ore, including the Black Lead discovered in 1874, which created great excitement in mining circles at that time.

The great porphyry dyke has been developed along its strike by a number of shafts, some of which are said to be to a depth of 1,500 feet. The country above exposes a virgin ore-bearing territory on the surface, while the bottom levels are all struck in ore, which experts say give every indication of extending to still further depths.

This company also owns one-half of the Floral springs, the only water supply in the country, and a town system of water main pipes and the like through which Ploche is supplied with water. The company also owns all of the Alberta, Alberta No. 2 and the Susan Duster mining claims. The latter has a big ledge of silver lead ore 25 feet wide, the footwall yet to be found. It was tapped by a tunnel 220 feet below the surface. A shaft is being sunk down to the ore body. The ledge is almost encouraging for a great silver-lead producing mine. The developments on this and other of the mines belonging to the company indicate the strength and permanency of the ore veins.

RHYOLITE CELEBRATION.

One Scheduled for Next Saturday Has Been Postponed Indefinitely.

Advices from Rhyolite, Nevada, are to the effect that the railroad celebration advertised to have taken place next Saturday has been indefinitely postponed. J. Ross Clark, president of the Las Vegas & Tonopah railroad wired the chamber of commerce of Rhyolite urging that some other date for the festivities be selected, pointing out that the California papers had published report to the effect that Nevada weather in and about Rhyolite had been severe and also that being so close to Christmas, when everybody is busy, and that a worse time for an excursion could not be selected. Acting on Mr. Clark's suggestion, the date selected was cancelled. The citizens of Rhyolite, at least a majority of them, are inclined to favor the idea of waiting until some time next spring by which time other railroads will be completed into camp and then have one rousing "blowout" for them all.

BACK FROM BINGHAM.

Sidney Bamberger Finds Conditions Satisfactory at Mary Property.

Sidney M. Bamberger has returned from a trip of inspection to the Bingham Mary mine in Bingham and reports that the body of ore which has been followed east from the shaft on the 300-foot level of the shaft for some time shows decided improvement in both size and values. The vein is now about five feet in width and the ore of a character which caused the manager to speak very encouragingly of the future of that interesting property.

Conditions at the Fortuna mine are also in splendid shape. The new air compressor is running smoothly and is supplying power for four drills.

NEVADA DOUGLAS.

Rich Sulphides Found in the Ess Ess Shaft.

Manager Walter C. Orem of the Nevada Douglas Copper Company is in receipt of more interesting news from Nevada Douglas Copper company's mines at Yerrington, Nevada. A letter from Eugene S. Arentz, contains the information that two feet of yellow sulphides assaying 11.25 per cent, had been encountered in the workings from the Ess Ess shaft, and that it appears to be the north wall of a vein striking in at an east and west direction and may be the vein exposed in the lower Ess Ess open cut.

In every other portion of the property where development work is progressing, Mr. Arentz states, splendid progress is being made with most satisfactory results.

For some weeks past Mr. Arentz has been conducting a series of experiments with the low grade carbonate ore to determine upon an economical method of treatment and relative to results.

"I have no hesitancy in saying that I can treat successfully the low grade ore in the garnet of which there is so much in this property," while the management has never entertained the slightest doubt about being able to handle the low grade carbonate ore profitably, the importance of Mr. Arentz's statement lies in the fact that he has demonstrated it.

NELSON-QUEEN ORE.

Shipment of Ore From Park City Property Made Last Week.

A shipment of ore from the Nelson-Queen property in the Elkhorn district, says the Record of Park City, was completed the first of the week and according to assays, returns of about \$45 per ton will be netted. The shipments are made over the Rio Grande Western via Heber. The new plant recently installed at this property is now in operating form and work on a large scale will now be prosecuted. More or less work has been done on this ground ever since the excitement caused there three years ago by the discovery of some high-class rock, and though until recently, the management has been somewhat handicapped by the lack of proper equipment, etc., the mine is now well opened up and operations on a big scale are under way. Other shipments will be made before the heavy snows block the roads and with the opening of spring it is probable that shipments will be made regularly.

CONCENTRATES.

The Yankee Consolidated will distribute its December dividend on the 20th inst.

General Manager Charles W. Whitney of the American Smelting & Refining

company is expected to return from the east this afternoon.

Cashier George Ames of the Utah Consolidated Mining company is in Bingham today paying off the miners employed there.

Work upon the new shaft for the Mammoth mine will not be started until early in the new year, possibly about the first of February.—Eureka Reporter.

J. R. Vance left today with a force of men to do the assessment work upon the Orient property in West Tintic, in which he is interested along with Judge O. W. Powers and others.—Eureka Reporter.

A message addressed to the members of the Salt Lake Stock & Mining exchange was received this morning informing them that wire connections with the new copper camp of Greenwater, California, had been established.

While the officials of the Mammoth company are very reticent upon the subject it is generally understood that a deal has almost been closed for the purchase of the claims of George Whitaker, which adjoin the company's holdings upon the east. The Mammoth company is not overlooking an opportunity to extend its boundary lines and the Reporter expects to be in a position to give its readers some definite news regarding these purchases in a very short time.—Eureka Reporter.

The old Buckeye mine at Diamond is to be reopened according to Judge B. Moody of Los Angeles who was in Tintic last Sunday. Acting for Senator J. H. Pringle, principal owner of the mine, Mr. Moody has placed George F. Monahan, a well known Cripple Creek miner, in charge of the property, and as soon as possible work will once more be started. This will be good news to those who are interested in the south end of Tintic.—Eureka Reporter.

JEW IN RUSSIA.

They Are Living in Constant Fear of Death.

New York, Dec. 10.—Dr. Schimayahu Lewin, member of the lately dissolved house of the Russian parliament, addressed an audience of several thousand Jews at the Yiddish academy last night on the situation of the Jews in Russia. He declared that his mission in this country was to arouse public sentiment for the freedom of members of his race in Russia.

Dr. Lewin said that the Jews in Russia were living in constant dread of being killed and that there were many there who were starving. He declared that if a Jew made money in Russia he was sent to prison.

At the conclusion of the meeting many pushed forward to the platform of congratulating the principal speaker. A part of the platform upon which Dr. Lewin and Mr. Schiff stood gave way and precipitated them and a number of others the depth of the platform. A distance of several feet. No one sustained injuries beyond slight bruises and scratches.

CANCER CURE.

Trypsin Said to Have Some Remarkable Curative Effects.

New York, Dec. 10.—Prof. William H. Diefenbach, of Flower hospital, has made a study of over 100 cases of cancer. The X-rays he says, frequently produce cancer. He suggests that the remarkable increase in cancer of the stomach may be due to the abandonment of the old-fashioned copper or iron cooking vessels and the substitution of the modern enameled ware, on the theory that minute particles of this gritty enamel frequently caused irritation.

Further announcements of the remarkable curative effect on cancer of trypsin, the new extract of the pancreas of the duodenum, are made in the current issue of the Medical Record by Dr. William J. Norton, professor of diseases of the mind and nervous system at the Post Graduate Medical school and hospital, and by Dr. Margaret Abigail Cleaves, Prof. Norton experimented with trypsin on 29 cancer victims. Prof. Norton says:

"The cancerous tumor itself exhibits very frequently a definite reaction to trypsin treatment. In some instances this reaction is accompanied by great amelioration of the disease.

"Two cases of quite extensive face cancer are cured to date. In many of the cases, the progress of the disease has come to a standstill."

Prof. Norton urges on the surgical profession extensive trials of trypsin at hospitals and in the hands of specialists. Dr. Margaret A. Cleaves cites two positive cures with trypsin. Both were far advanced and inoperable.

NO USE FOR GORKY.

Italian Government Does Not Want Him in Italy.

New York, Dec. 10.—A Rome cable dispatch, published here today, says the socialist and radical papers wildly attack the government because, according to their view, it has decided to compel Maxim Gorky, the Russian writer, by a kind of interdiction to leave Italy.

Gorky has been living quietly at Capri. He was to have gone to Naples for the first performance of his drama "Children of the Sun," which has been played over a hundred times in St. Petersburg.

To be just, the dispatch adds, it must be said, that the government is embarrassed, as the Neapolitan population is very excitable. A repetition of the disorders of some weeks ago, when Gorky spoke at a meeting, would certainly have displeased Russia, and Russia is now negotiating a commercial treaty with Italy.

COAL TOWBOATS.

Pittsburg, Dec. 10.—Towboats carrying 2,500,000 bushels of coal left the harbor last night for southern points, while about six million bushels sent south in two days. It is estimated that within the next month over 25,000,000 bushels were shipped south.

If You Buy Real Estate.

You at least have a chance to see what you are buying. Some people believe that some real estate values will double in the next few months. Everybody thinks the prospects for real estate are good; and there are those who say prospects are extra good. What do you think about it?

If You Desire to Buy.

You should look over the situation; inform yourself on prices and values and take your choice. We know the whole of Salt Lake City and County and have some properties for sale that are the best of their kind to be had.

If you have property for sale and if your price is not above the market we can find purchasers for you. Call and see us. No trouble to answer questions or to show properties to those who mean business.

George M. Cannon Company.
Rooms 312-313 Templeton Building.
Phone Bell 67.

CALL MONEY RULES HIGH

At First Prices Went Down, Supporting Orders Came in a Rally Followed.

COMPLETE RECOVERIES MADE

While Americans Were Higher in London Not Much Response in New York.

New York, Dec. 10.—American Securities were higher in London today, but there was a doubt of the response to this influence in the opening trading here. Prices moved irregularly and western railroad stocks were under pressure. Northern Pacific fell 1 1/2, Union Pacific and Smelter a point, and St. Paul, Atchafson and Reading 1/2. Mexican Central rose 5/8.

Futur fluctuations were succeeded by a general sagging of prices, but the losses in the active stocks were not large except in special cases. St. Paul, Reading and Kansas & Texas fell off. Union Pacific 1 1/2 and Great Northern preferred 2.

Prices were lower than in the first hour but support was forthcoming and a rally followed in spite of a rate of 25 per cent for call money. Great Northern preferred fell 3/4, Northern Pacific 3/4, Great Northern Ore certificates 1 1/2 to 3/4, Atchafson, Missouri Pacific, Wisconsin Central, Hocking Valley and North American 1. Reading scored a full recovery, U. S. Rubber and American Cable rose 1.

Bonds were heavy.

Complete recoveries were made in several instances before the rally stopped, including St. Paul and Northern Pacific. The market became exceedingly quiet and fell off gradually. Union Pacific and preferred broke 5 and New York, Chicago and St. Louis and American Ice Securities 1. U. S. Rubber got up 1 1/2 and Knickerbocker 1 1/2.

LIVESTOCK.

KANSAS CITY.

Kansas City, Dec. 10.—Cattle—Receipts, 12,000; market steady to 10 cents higher. Native steers, 4.00 to 5.00; cows and heifers, 2.00 to 3.00; stockers and feeders, 2.00 to 3.00; calves, 2.00 to 3.00; pigs, 2.00 to 3.00; sheep, 2.00 to 3.00; hogs, 2.00 to 3.00.

Hogs—Receipts, 8,000; market strong to 5 cents higher. Bulk, 6.00 to 7.00; pigs and lights, 5.00 to 6.00; sows, 4.00 to 5.00; muttons, 4.00 to 5.00; lambs, 4.00 to 5.00.

Sheep—Receipts, 8,000; market 50 to 100 cents lower. Muttons, 4.00 to 5.00; lambs, 4.00 to 5.00.

6.00 to 7.00; range wethers, 4.00 to 5.00; fed ewes, 4.00 to 5.00.

OMAHA.

Omaha, Dec. 10.—Cattle—Receipts, 5,000; market strong to shade higher. Native steers, 2.00 to 3.00; cows and heifers, 2.00 to 3.00; stockers and feeders, 2.00 to 3.00; calves, 2.00 to 3.00; pigs, 2.00 to 3.00; sheep, 2.00 to 3.00; hogs, 2.00 to 3.00.

Hogs—Receipts, 4,000; market 30 to 40 cents higher. Heavy, 6.00 to 7.00; mixed, 5.00 to 6.00; light, 4.00 to 5.00; pigs, 3.00 to 4.00; bulk, 6.00 to 7.00.

Sheep—Receipts, 1,000; market slow to 10 cents lower. Wethers, 4.00 to 5.00; ewes, 3.00 to 4.00; lambs, 4.00 to 5.00.

CHICAGO.

Chicago, Dec. 10.—Cattle—Receipts, 21,000; market 10 to 15 cents higher. Beef steers, 6.00 to 7.00; cows and heifers, 5.00 to 6.00; stockers and feeders, 4.00 to 5.00; calves, 3.00 to 4.00; pigs, 2.00 to 3.00; sheep, 2.00 to 3.00; hogs, 2.00 to 3.00.

Hogs—Receipts, 25,000; market strong. Mixed and butchers, 6.00 to 7.00; good heavy, 6.00 to 7.00; rough heavy, 5.00 to 6.00; lights, 4.00 to 5.00; pigs, 3.00 to 4.00; bulk, 6.00 to 7.00.

Sheep—Receipts, 15,000; market 10 to 15 cents lower. Sheep, 4.00 to 5.00; lambs, 4.00 to 5.00.

WOOL.

ST. LOUIS.

St. Louis, Dec. 10.—Wool, steady. Territory, 1.00 to 1.50; medium, 1.00 to 1.50; fine, 1.00 to 1.50.

PRODUCE.

CHICAGO.

Chicago, Dec. 10.—The wheat market opened quiet today on selling by commission houses and pit traders. The chief depressing influences were larger world shipments, especially from ports on the Atlantic river, lower cables and lower euro prices at Minneapolis. May wheat opened 1/2 lower at 44 1/2.

May oats opened a shade to 1/2 higher at 35 to 35 1/2, and sold at 35 1/2.

The previous market was firm, the trading being especially active in May wheat. This option opened to 25 cents higher at 45 to 45 1/2, sold at 45 1/2, and then declined to 45. The strength of the market was due to the continued strength of live hogs in the west. January pork opened 25 cents up at 15.00, and sold at 15.00; lard was up 5 cents at 8.75, and after touching 8.50, and sold at 8.50. Ribs opened 5 to 10 cents higher at 8.50, and sold at 8.50.

Covering of shorts based upon large clearance of wheat and flour caused a firm market in the last half of the session. The high point for the May option was 75 1/2. The close was firm with May 1 1/2 up at 75 1/2.

Corn—The market was quiet and steady. The close was unchanged and steady at 41 1/2.

Cash: Wheat—No. 2 red, 75 1/2; No. 3 red, 75 1/2; No. 2 hard, 75 1/2; No. 3 hard, 75 1/2; No. 1 northern, 80 1/2; No. 2 northern, 80 1/2; No. 3 northern, 80 1/2; No. 2 white, 75 1/2; No. 3 white, 75 1/2; No. 2 yellow, 75 1/2; No. 3 yellow, 75 1/2; No. 2 white, 75 1/2; No. 3 white, 75 1/2; No. 2 yellow, 75 1/2; No. 3 yellow, 75 1/2.

Corn—No. 2, nothing doing; No. 3, 41 1/2.

Oats—No. 2, 34 1/2; No. 3, 34.

Close: Wheat—Dec., 74 1/2; May, 75 1/2.

Corn—Dec., 41 1/2; May, 41 1/2.
