FRAGMENTS.

"PATIENCE" will be repeated to-
 night.
 JUDGE EMERSON held court at Provo
 yesterday.

E. H. ANDERSON, Esq., of the Ogden
 Herald, is in town to-day.
 We have not had a full day of sun-
 shine thus far this month.

McCORMICK & Co. received to-day
 one lot of Crescent ore, value \$1,300.

JOHN T. CAVE, JR., of the Logan
 branch of Z. C. M. I. is in our city
 on business.

SILVER quotations corrected daily by
 Wells, Fargo & Co., New York, 1885.
 London, 48 1/2-49.

The frost is entirely out of the
 ground in most parts of Salt Lake Val-
 ley, and many farmers are already busy
 plowing.

WELLS, FARGO & Co. received to-day
 240 tons of Ontario bullion, value
 \$1,200,000; one bar of Christian bullion,
 value \$1,000.

RAILS are being piled up near the
 D. & R. G. track crossing at Eighth
 South Street, for use on the Salt Lake
 and Fort Douglas Railway.

The Mapleton Opera Company are
 to arrive at Ogden about 12 o'clock on
 Wednesday night. The Utah Union
 will bring them down on a special
 train.

A GENTLEMAN down from Logan
 informs us that several buildings
 will be erected in the business part of
 that town as soon as the weather will
 permit.

A LARGE part of the corner of a two-
 story adobe house, No. 250, on West
 Temple Street, fell the other day, the
 water dripping from the roof causing the
 wall to settle.

GOS. MYRAN has issued commis-
 sions to the following: O'Brien (Ct.),
 Mayor, D. H. Perry, Alderman, David
 Ebbett, Angus T. Wright, Road, Mc-
 Guire, Thomas D. Doe.

The first bicycles introduced here
 were 48-inch machines. For sometime
 past 54-inch machines have been in use,
 and quite recently Mr. T. O. Angell,
 Jr., ordered a 56-inch "diamond"
 "sport," which he expects to be the
 latest bicycle in the Territory. But
 yesterday Mr. Walter Jennings tele-
 graphed for one with a 58-inch driving
 wheel. Next.

STAYNER & SIMMONS, land agents and
 attorneys of this city, by advertise-
 ment in another column, inform the
 public that they will accept in pay-
 ment for their professional services
 good wheat, and allow their clients
 per bushel. This offer is made because
 of the present scarcity of money, and
 to enable those farmers who have land
 office business to transact to pay the
 expenses thereof with their own pro-
 ducts.

LOCAL NEWS.

Police Court.—Joe McCarthy, for
 trespass, was fined \$5.

John Russell, drunk, left \$5 for his
 appearance, but failed to return.

Fred Sell and James Abbott, charged
 with grand larceny, were each bound
 over in \$500 bonds to await the action
 of the grand jury. The trial was not
 furnished.

Robert Smith, for drunkenness and
 profanity, was fined \$5.

Joseph Ashton, for the same, paid
 \$10.

From Idaho.—This morning we
 were pleased to receive a visit from
 Mr. McKerr, a member of the
 Idaho Legislative Assembly of that
 Territory. He was one of the few
 members of that body who took a firm
 stand in favor of right, being opposed
 to the partisan and oppressive ap-
 propriations that were made. The ex-
 ecutive on a brief visit to our city, and
 we trust he will have a pleasant so-
 journ among us.

Hat Making.—Brother Geo. Good-
 dard, whose enterprise in establishing
 home manufactures has been mani-
 fested in various directions in the past,
 has now invested in a new industry.
 He and some others have formed a
 partnership under the title of George
 Gooddard & Co., for the manufacture of
 hats, and are operating a factory in the
 Twentieth Ward, of this city, in which
 seven men and boys and a number
 of women and girls are employed. They
 have scarcely not under fair headway
 yet, but are turning out a great deal
 of work. They expect in a short
 time to have increased facilities, and to
 be able to make a much greater show-
 ing. They hope to successfully com-
 pete in point of price and quality with
 imports in that line, and if they can
 do this they certainly ought to suc-
 ceed.

Nearly if not quite all the material
 required in the business can be ob-
 tained or made here at home, and it is
 a shame that it should be otherwise. To
 be sure, and that persons who could
 work at manufacturing should be
 forced to remain idle, while so many
 thousands of dollars are being sent out
 of the Territory annually for the pur-
 chase of hats. Every person having
 the interests of the community at heart
 will not doubt be ready to say with us:
 Success to the new enterprise!

Accidental Poisoning.—Yesterday,
 Mrs. Lizzy F. Young, of the 15th
 Ward, intending to give some medicine
 to her three-year-old son, Frank F.,
 sent her little daughter to bring the
 it. It happened that on an an-
 other shelf was a bottle very similar
 to the one wanted, and which con-
 tained kerosene. Mrs. Young, not
 noticing any difference, gave the
 child a very large dose of the pow-
 erful drug. The medicine, which the
 boy was accustomed to taking, was
 very mild, and on swallowing the kid-
 den he said, "Oh, my, it burns my
 throat." The little girl noticed the
 remark, exclaimed that she must have
 brought the wrong bottle. Mrs. Young,
 discovering what had been adminis-
 tered, sent at once for Dr. Benedict, who
 soon reached the place. Antidotes were
 given, and for about four hours the
 doctor and family worked with the boy,
 and succeeded in bringing him through
 safely. It was most fortunate indeed
 that the little girl complained of the
 burning sensation, at the doctor states
 that ten minutes' delay would have
 been fatal. The ladman was given
 at about noon yesterday, and to-day
 the child is feeling pretty well, con-
 sidering the experience he has passed
 through.

SEVERELY BURNED.

THE COOLNESS AND COURAGE OF TWO
 YOUNG LADIES RESCUE A HOME FROM
 THE FIRE PERIL.

On Saturday evening, at about 1/2
 past 9 o'clock, at the house of Mrs.
 Pardo, in the Sixth Ward, Misses
 Minnie Pardo and Alice Leham were
 engaged in household duties, when
 what she supposed was a cupful of
 water, and emptied it into a kettle on
 the stove. The contents, instead of
 being water, proved to be turpentine,
 which one of the family had placed on
 the shelf, supposedly out of harm's
 way. The boiling water threw some
 of the turpentine over on the stove and
 the floor, and in an instant the whole
 was in flames. Miss Pardo, seeing
 what had happened, seized the kettle
 handle, carried the burning mass to
 and opened the door, threw
 the kettle outside. Her clothing had
 taken fire, and she took up a piece
 of carpet from the floor and wrapped
 around her, smothering the flames. In
 carrying the kettle she had spilled a
 part of the boiling water, scalding her
 foot badly. Her body was slightly and
 her right hand severely burned. Miss
 Leham, in the meantime, had caught
 up a piece of carpet and smothered the
 fire on the floor, and then that on the
 kettle and the stove. The presence of
 the young ladies, who are about
 fifteen years of age, and the heroic
 conduct of Miss Pardo, in holding to
 and carrying out the fiery mass while
 burning her flesh, prevented more serious
 damage.

Patience.—The performers in this
 opera ought to feel encouraged by the
 large and enthusiastic reception ac-
 corded them at the matinee and even-
 ing performances yesterday. It is a
 long time since so many persons at-
 tended a matinee in the Theatre as did
 yesterday, and the attendance last
 evening was also unusually large, and
 made up generally of intelligent, dis-
 criminating people, who knew how to
 recognize and appreciate merit in a
 performance of that kind. While the
 rapturous applause which greeted the
 performers was highly complimentary,
 coming as it did from such an
 audience, it was not in the nature
 of adulation by any means, for it was
 deserved. The parts were well sus-
 tained throughout, and the ability dis-
 played by a number of the amateurs
 would do credit to professionals. A
 number of pertinent local "hits" were
 made, which partly "brought down the
 house."

Young Men's Conference.—A confer-
 ence of the Young Men's Mutual
 Improvement Association of the
 western part of Utah county was held
 on Sunday in the Lehi school house,
 which was most enjoyable. Three
 general meetings and one meeting of
 officers were held, at which timely and
 spirited instructions were given, and
 reports made showing commendable
 improvement in the various associa-
 tions. Excellent progress has been
 made in Lehi, where there are about
 sixty members enrolled, who have a
 library and reading room open three
 evenings in the week and well patron-
 ized. All the public social gatherings
 and entertainments are conducted un-
 der the auspices of this association,
 and the exercises are generally of a
 more elevating nature than formerly.
 The progress made by the Lehi choir of
 late was especially noticeable at the
 recent conference.

Eye Poisoning.—On Saturday last
 fourteen months' old daughter of
 Brother Thomas C. Griggs had her
 mouth burned with lye. Sister Griggs
 has not been in the habit of using to
 clean the bath tub and sink. While
 engaged in doing this, she placed the
 can on the sink, supposing that the
 child was playing in the other room,
 where she had left it in charge of a
 girl. The girl, however, had come into
 the room and crossed over the
 carpet without being heard, and the
 mother turned just in time to see the
 child place the lye to her mouth. Oil
 was given to the little sufferer, and it
 was followed by a drink of sugar,
 which caused vomiting. Dr. Anderson
 was sent for, who expressed the opinion
 that the lye had not reached the child's
 throat, and up to to-day no further
 damage appears to have been done
 than a severe blistering of the lips and
 tongue, and the prospect is good for a
 speedy recovery.

From the Exposition.—Dr. A. B.
 DuPont, of this city, returned from
 his visit to the Exposition at St. Louis,
 and attended the national ex-
 position at New Orleans. He enjoyed
 the trip very much, but the exhibition
 did not come up to his expectations.
 It seems to have fallen far short of
 being a financial success, there being
 a deficit when it was there, as he was
 informed, of \$20,000, which will prob-
 ably cause the exhibition to be closed
 at an earlier date than was intended.
 Unless Congress should come to the
 relief of the managers by making an
 appropriation to cover their liabilities.
 Quite a number of our citizens were
 in New Orleans when Brother DuPont
 was there, but we believe he is the
 first to return.

A Painful Accident.—While at
 work this morning in removing the
 iron of the derrick on the northeast
 corner of the Temple, Brother Edward
 Blair fell a distance of about eleven
 feet. He was descending along the iron,
 which was in a horizontal position, and
 measuring it with a pocket rule. On
 reaching a point near the middle, he
 lost his balance and fell, alighting
 near the edge of a temporary scaffold
 below. He fell a distance of about
 ten feet and landed on his back, his
 head near and crashed him, he would
 doubtless, have rolled off the scaffold
 and fallen to the bottom of the build-
 ing, a distance of nearly one hundred
 feet.

An examination proved that no bones
 were broken, and no symptoms of in-
 ternal injury were manifested. In
 falling he struck on his right hip, which
 is badly bruised and very painful.

The Italian Opera.—Verdi's mas-
 terpiece "Il Trovatore," will be per-
 formed at the Theatre on Thursday,
 Feb. 26th. The cast embraces artists
 who rank among the world's greatest.
 Furach-Madi, the great dramatic
 soprano; Scatchi, the foremost con-
 solo, who is pronounced by critics
 to be the best Maricco on the stage;
 Signor DeAnna, the baritone who has
 few equals; M. Cavallazzi, the re-
 nowned premier tenor and the full
 means test, the powerful chorus and
 the orchestra under the leadership of
 Signor Ardit—an array of talent and
 attraction seldom seen within the walls
 of our Theatre. The box office is now
 open for the sale of reserved seats.

Most of the time of the court to-day
 was occupied in hearing the case of the
 burning sensation, at the doctor states
 that ten minutes' delay would have
 been fatal. The ladman was given
 at about noon yesterday, and to-day
 the child is feeling pretty well, con-
 sidering the experience he has passed
 through.

Court Proceedings.—In the case of
 the People vs. Wm. C. Hall, for as-
 sault, the defendant was found guilty
 and sentenced to a fine of \$50 and
 costs, and to be committed until paid.
 The examination of witnesses in the
 case of the People vs. Mary A. Mor-
 ton, for abduction, which is in progress
 when we went to press.

Jersey Cattle.—The Jersey cattle
 men held a preliminary meeting at Au-
 dley's office on Monday at 4 p.m.,
 and received a report from the com-
 mittee appointed last week, after which
 they adjourned till the 9th of March at
 7 p.m.

Much interest is being taken in this
 organization throughout the Territory.
 The reports that continue to come in
 from all parts of the globe of the great
 doings of the Jersey cow con-
 vince the people of this Territory
 that she is not only the rich man's
 cow, but the poor man's as well;
 and the time has come for all
 parties to raise stock intelligently. The
 progress of the Jersey cow in this Ter-
 ritory has not been what it should be
 according to her merits, owing to the
 fact that her stock has been
 brought here years ago, and but
 few men valued her on account of her
 diminutive size, a prejudice that is fast
 losing ground.

The Sixth Ward Sunday School.—
 The annual party given to the children
 of the Sixth Ward Sunday School was
 held in the West Assembly Rooms yes-
 terday, commencing at 12 m. Nearly
 three hundred children were present.
 The school officers provided a first
 class picnic for the little ones, who en-
 joyed themselves heartily. Songs, rec-
 itations, dancing and games were
 made up to make up the programme,
 and at about 5 o'clock the children
 dispersed, and went home in the best
 of spirits. In the evening the teachers
 and larger pupils assembled, and the
 dancing, interspersed with songs and
 recitations, continued until 11:30 p.m.

The Sunday School is in a flourishing
 condition, nearly all the children in
 the Ward of sufficient age, being
 members. During the year, the
 total enrollment was 24 teachers and
 25 pupils. The school is divided into 11
 classes, five male, five female,
 and one primary. The two rooms of
 the lower story of the building in
 which the school is held are occupied
 by the classes of larger pupils, while
 the room upstairs is used by the pri-
 mary class, numbering nearly 100 mem-
 bers. There is also a library of 150
 volumes, which is made good use of by
 the young people.

Not The Jenson.—Brother James
 Jenson, of Draper, writes to call our
 attention to an item that appeared in
 Friday evening's News, announcing
 that a man bearing the same name as
 himself had paid \$100 into the city treas-
 ury for being drunk and profane, and
 to ask if we can not give the residence
 of culprits (when mention is made of
 them, that innocent persons may not be
 blamed for their acts).

In reply to this we may say that the
 police court records do not contain
 many details as to the antecedents,
 residence, etc., of the various criminals
 who figure therein, and if such char-
 acters were revealed in regard to
 these matters their names would not
 always do credit to us.

It is one of the unfortunate things
 in life that a man with a common name
 is liable to find his patronymic
 occasionally recurring in connection
 with unsavory records. John Smith
 has been charged with
 no less a misdemeanor than any other
 person; but then, to offset these, he gets credit
 for a great share of the good things
 that are accomplished in various parts
 of the world.

From a Missionary in Austria.—
 We have been shown a private letter
 received from Elder James E. Jennings,
 dated Vienna, Austria, January 26th,
 1885, from which we make the following
 extracts:
 "Things in this part of the world are
 taking such a eccentric shape that it is
 difficult to find a man who is not
 more or less a hypocrite. Still there is
 one consolation, and that is, we have
 seen the face of the Lord in the
 European nations is a relief yet to be
 desired."

As far as "Mormonism" is concerned,
 I think it is met with more opposition
 now-a-days than in former times. Near-
 ly all of the leaders who have succeeded
 Brother Smith and myself in the
 Mormon Conference have been Ex-
 pelled, and the little Republic
 Switzerland seems also to have
 been awakened. The people in
 Vienna are so full of courage that
 it is almost impossible for them to see
 the light of the Gospel. They could
 not find it in their hearts to believe
 in a man who would not suit them bet-
 ter than the light of God. And some
 of the leaders who have been Ex-
 pelled, and have again hidden their
 faces from the light of the Gospel.
 I would rather by far be imprisoned
 and persecuted than to be a hypocrite
 and to be a part of the world. I would
 rather be a part of the world than to be
 a hypocrite and to be a part of the world.
 It seems to have fallen far short of
 being a financial success, there being
 a deficit when it was there, as he was
 informed, of \$20,000, which will prob-
 ably cause the exhibition to be closed
 at an earlier date than was intended.
 Unless Congress should come to the
 relief of the managers by making an
 appropriation to cover their liabilities.
 Quite a number of our citizens were
 in New Orleans when Brother DuPont
 was there, but we believe he is the
 first to return.

A Narrow Escape.—In a recent is-
 sue we mentioned the fact that a mi-
 nority of men had been snowed in at Mt.
 "Big Cottonwood Canon," and
 being out of provisions, they all started
 down the cañon, except one Thomas
 Elsey, who remained to cook some food
 and then to follow the rest. He did
 not, however, overtake his companions
 as expected, and many feared that
 he had been caught in a snow slide,
 which came down across the road
 about the time that Elsey would have
 been on his way, but others thought he
 remained at the mill, as there were suf-
 ficient provisions for him there.
 A news reporter learned late Satur-
 day evening that Mr. Elsey, as
 agreed, had followed the others on
 snow shoes, carrying with him some
 provisions, etc., and had been caught
 in the slide. Luckily he was struck
 and buried by a portion of it that found
 its way to the creek, and the water gra-
 dually washed away the snow, until his
 arms were liberated, when he soon ex-
 tricated himself and walked to Arden
 a party who had been sent back
 in search of him discovered his snow-
 shoes and the sack of provisions on top
 of the slide, but did not think at the
 time that the object of their search was
 a prisoner in the closely packed snow.
 He was not far from the slide, and
 short distance below them. He may
 well congratulate himself upon his for-
 tune escape.
