WATCHES & JEWELRY

A BOAT three months ago all the watch-
makers in the city agreed and sub-
scribed to certain price for watches in their
line, for the purpose of obtaining uniform
and cheap rates. This agreement, how-
ever, has already been broken by several
watchmakers, who are underselling their
colleagues and thereby depriving them-
selves of their own business. In
consequence of which, the undersigned has
withdrawn his name from said agreement
and established his own price. Cheaper
than any other watchmaker in
Salt Lake City.

New York, 7.—The Times says:
There is a moral for New York to be
had from the conduct of the re-
publican campaign in Ohio, so
readily criticized by the Columbia
correspondent. With the advent
of the closing week of the struggle,
the republican leaders of Ohio find
they have been generating their
own chances of success as grossly
as they have been under rating the
strength of the democrats. The
republican estimates of the major-
ity on the State ticket have sud-
denly shrunk to one-third of the
figure lately claimed and the legisla-
ture is regarded as rather worse
than doubtful.

Washington special to the
World says: Senator Morgan, of
Alabama, returned to-day from
California. He thinks the Grant
ovation to be a spontaneous up-
rising of the people to welcome a
brave and successful man. That,
he thinks, is the spirit of the oc-
casion and whatever political
aspirations Grant may have they
will not be furthered by anything
that has happened in the West.

Nevertheless, the World again dis-
cusses Grant the inevitable candi-
date of the republican party in 1880.

Boston, 7.—John Quincy Adams
has been nominated for governor
by the democratic State conven-
tion.

The ticket was completed as fol-
lows: For lieutenant governor, W.
P. Plunkett; secretary of State,
Gen. M. T. Donohoe; treasurer and
receiver, Gen. David N. Skilling;
auditor, Wm. R. Field; attorney
general, Richard D. Webb.

The Herald says that reports
from manufacturing towns in Mas-
sachusetts where last fall the But-
ler movement fairly boomed among
the idle or half-employed work-
men, indicate that the republican
ticket will make heavy gains.

Senator Lamar made a long
speech at Oxford, Miss., last
evening. He has explained his op-
inion on the financial question, say-
ing he is a bi-metalist; but denounc-
ing the greenbackers. He said no-
thing about the Yazoo.

St. Louis, 7.—The Democrat-
ic State Convention has taken fur-
ther recess till this evening, at the
request of the committee on cre-
dentials. The indications are that
Wheeler will be nominated for gov-
ernor.

Mexican News.

New York, 7.—Recent Texas
advice represent the New Mexico
silver mines which Mexico appears
so anxious to guard against Kan-
sas invasion, as situated in the
Dewey Mountains, at a point where
the Chihuahuas and Durango meet
about 200 miles beyond the Rio
Grande.

A San Antonio paper says: In
one of the mines the average yield
of bullion, which is said to contain
gold also, is 320 ounces per cargo of
300 pounds. Many merchants from
the cities of Saltillo, Zacarahuas,
Monterrey and others have gone or
sent agents to the place. The two
republics of Mexico, of September
18th, says: The Indians who dis-
covered in the Mojada Mountains,
opens up a magnificent field for
remunerative enterprise. Al-
ready we hear of numbers of people
flocking from the adjoining States,
and from the north side of the Rio
Grande.

The Texas Express says: Floren-
ce Centro has received a letter from
a friend in Mexico, describing the
Sierra Mojada mines. The ore thus
far discovered yields from 10 to 100
ounces of silver per ton. Leadville
and Comstock are nowhere in com-
parison. A mine is eight ounces.

The Corrupt Senator Ring in
China.

The Sun's Washington special on
Mosby's alleged exposure of the
frauds of the Seward ring in China,
says: The formal charges against
Bailey had been made in the State
Department by Wells, ex-Consul
General at Shanghai before the
nomination of Bailey was sent to
the Senate. Wells also tendered
evidence to prove that Bailey was
nominated for the position at the
special request of Seward. He quotes
a letter from Mosby in which he
says: "The Seward ring wanted
Bailey at Shanghai to cover up
Seward's tracks, and Loring or
Lincoln here to cover up Bailey's.
They have for years dominated
China and crushed out everything
that was not subservient to their
interests." There is no doubt of
the fact that for many years there
existed a consular ring just as cor-
rupt as the railway ring that lived
and thrived by plundering the gov-
ernment.

I am in for the war and I
intend either to purge the service
of these scoundrels or go out of it
myself.

New Exchange.

An Exchange, to be known as
the Open Board of Brokers, is to be
organized in this city. Several
meetings of friends of the enter-
prise have been held and commit-
tees have been appointed to com-
plete the plan. The object of the ex-
change will be to deal in railroad
securities, mining stocks, government
bonds and foreign exchange.

A British American Railroad.

An Ottawa, Ontario, special says:
The government to-day advertised
for tenders for the construction of
127 miles of railway from Yale to
Kalamo, British Columbia, to be
received up to the 17th of Novem-
ber. This settles the question as
to the terminus of the Canada Pa-
cific Railway, and the route so far
as British Columbia is concerned.
The section for which tenders are
called is in part a part of the
Canadian Pacific Railway. It was
ready for tenders a month ago,
but pending the results of
further explorations in the Peace
and Pine river region to the north,
nothing was done. This new line
will be expensive, but it will open
up a very fine region.

Sandwich Island Sugar.

Washington, 7.—Several weeks
ago reference was made in the
dispatches to the fact that the Treas-
ury officers had determined to in-
vestigate the importation of sugar from
the Sandwich Islands, with a view
to ascertaining whether any of the
sugar admitted free of duty at San
Francisco, under the provisions of
the reciprocity treaty, was the pro-
duct of those islands, was in reality
the product of other countries
brought by the way of the islands
in order to evade the payment of
duty.

Assistant Secretary, French
stated to-day that in investigating
the matter he was convinced that
all sugar purporting to come from
the Sandwich Islands is the pro-
duct of that country, and accord-

ing to the treaty stipulations, is
admitted free of duty. He ex-
pressed himself as decidedly in favor
of an abrogation of the treaty which
exempted Sandwich Island sugar from
duties imposed on sugar manufac-
tured in the islands, and said, that although
he could not state officially that
Secretary Sherman was recom-
mending such abrogation, he is cer-
tain that such would be the case.
The reason for this was, he said,
that as the treaty now operates, it is
entirely one-sided, and of no
benefit whatever to this country.
It is probable this subject will oc-
cupy the attention of Congress
early in the coming session.

An Angry Captain.

Monterrey, 7.—A Spanish brig Di-
ego was wrecked to-day while
coming over the lower bar in charge
of a pilot. The disaster seems to
have been the result of an attempt
to go about with a strong head-
wind. The pilot asked the captain
if his ship worked easy, and re-
ceiving in affirmative answer,
made the necessary manœuvres.
But when the vessel was about to
ashore, the captain and two other
sailors were thrown overboard
followed by the rest of the crew.
The vessel was lost.

St. Louis, 7.—Jay Gould arrived
here to-day from Colorado and left
for the east on the Wabash road
to-night. In a consultation be-
tween himself and Benjamin W.
Lewis, president of the St. Louis
Kansas City and Northern, and A.
C. Hopkins, of the Wabash, it was
finally determined that the two
roads should be incorporated under
one management, and that the
headquarters should be in St. Louis.
Mr. Gould was questioned regard-
ing the situation of his affairs in
Colorado; but he was evasive, say-
ing except that he will not part
with either the Colorado Central,
the South Park, or the Denver and
Rio Grande roads, and that he
means to stand by himself.

Failures.

St. Louis, 7.—Thomas
Borden, treasurer of the American
Print Works, and Richard B. Bor-
den, treasurer of the Troy Works,
and Richard Borden, treasurer of
a manufacturing company, it is re-
ported, propose making assign-
ments. The personal liabilities of
Thomas J. Borden are about \$300,
000. His endorsements are about
\$1,700,000 and his unpaid debts
about \$400,000. Richard Bor-
den's personal liabilities are about
\$200,000, his endorsements about
\$1,000,000, and unpaid assets are
about \$300,000.

Crime.

NEWARK, 7.—The body of Mrs.
Wm. B. Riddle was disinterred to-
day and portions of the internal
organs taken for chemical analysis.
Mr. Riddle was brought before the
court this afternoon, charged with
the murder of his wife by poisoning;
he pleaded not guilty, and was re-
manded for trial without bail.

New Haven, 7.—The trial of the
Rev. Amos A. Ayden, for the
murder of Mary Stuart, at Mad-
ison, in this State, Sept. 7th, began
to-day.

THE INDIAN WAR

Dispatches Sent to and Received
From the Front.

CHICAGO, 7.—A special from Den-
ver says: It is a curious fact that
throughout the State, no trouble is
reported. The thoroughness of
Governor Pitkin's appeals, appeal-
ing to General Pope for aid, says he
needs 50,000 rounds of ammunition,
that dispatches from Leadville say
the Indians are mining miners from
camp within 30 miles of there. He
had ordered 30,000 rounds sent to
defend the settlers and to hold the
country until the Indians are de-
feated. The Governor says there are
no Government troops at Denver,
and he receives appeals for arms
and troops which he cannot supply.
Gen. Pope telegraphs he will cover
the country with troops in 24 hours.
Nobody knows at present what the
Indians are doing. It is believed,
however, that the Indians are in
New York, 7.—Geo. E. Chittenden,
formerly in charge of one of
Hayden's surveying parties, who
was for several seasons in the
neighborhood of the White River
Utah, says: They were in the main
well disposed and gave much less
trouble to the surveying parties than
other Indians with whom the
parties came in contact. He be-
lieved their southern relatives were
cheated in the San Juan pur-
chase, and that the same fate awaited
them, and he had been asked
when it would be paid. He be-
lieves they looked upon the ap-
proaching troops as part of the plan
for their removal. He describes
their reservation as being in a
desolate manner that troops
will find it almost impossible to
penetrate, though there are hidden
springs known to the Indians only.
Chittenden, ex-Oregonian officer
Capt. Davis, to-day received an or-
der to issue to Governor Pitkin, of Col-
orado, 1,000 stand of arms and 50,
000 rounds of ammunition. No
order has reached Rawlins yet.
It is believed that one must surely
come to-night.

Denver, Col., 7.—The following
dispatches received and sent by
Governor Pitkin, show the Indian
situation in the south. So far there
has been no authentic report of an
actual outbreak or depredation.

PORT LEAVENWORTH, Oct. 7.

Gov. F. W. Pitkin, Denver.

The Secretary of War is here and
the arms and ammunition in your
possession will be sent from Fort
Leavenworth. As soon as we have
the arms, I will go to Denver
and see you.

JOHN POPE,
Brevet Major, Gen. Commanding.

KOKOMO, Col., Oct. 6

Gov. Pitkin:

Indians are within 15 miles of
Kokomo. Have plenty of men
and arms. Can you send us 150
stand of arms and ammunition
immediately? The mayor of the
town will be responsible for them.
Please indicate how the arms will
be sent. Answer immediately.

JOHN W. JONES,
Acting Mayor.

CARDONVILLE, Col., Oct. 6.

His Excellency, Gov. Pitkin:

Our citizens are organizing to re-
pel an attack from Indians, but we
are without arms or ammunition.
We respectfully request 100 stand
of arms with ammunition and will
be responsible to the State for the
return of all the arms furnished.

(Signed)
CHAS. D. MOORE,
L. R. HARRISON,
JOHN W. JENKINS,
D. J. CHADWICK,
G. R. CREME.

Lake City, 7.—At a citizens'
meeting last night a committee of
safety was appointed, consisting of
Ferry, Simons, Finley, Henry, and
McDougal. A citizens' volunteer
company is also organized. We
have plenty of men but are with-
out arms and ammunition. We
want 100 stand of arms, and the
Utah and San Juan will take care
of both.

(Signed)
M. B. GERRY,
Chairman of the Committee.

Leadville, Col., 7.—Information
is relayed from Leadville to-day
which leads me to believe that there
are no Indians within fifty miles of
this place in any direction. I do
not hear of any unusual excitement
anywhere on the frontier. If I get
any different information I will
promptly advise you.

(Signed) GEN. J. C. WILSON,
ALAMOSA, Colo., Oct. 7.

Governor Pitkin, Denver.

I have arrived at Alamosa and
am now moving troops to the
southern Utah country. I am in-
structed by the Department Com-
mander to communicate with you.
My first effort is to secure the set-
tlements. If you have any infor-
mation from Uncompahgre, please
send it to me.

(Signed) HATCH, Commander.
DENVER, Oct. 7.

Gen. Hatch, Alamosa:

The latest news from San Juan is
contained in the papers yesterday
morning except that citizens are
organized with such arms as they
could get without military knowl-
edge. I think some cavalry should
be sent immediately from Alamosa
to Lake City and thence to Ouray
or Silverton or other points as ne-
cessities may require to protect the
citizens. They would be in a cen-
tral point for the defense of the
settlements, and State troops and
miners would co-operate. Dis-
patches this morning from the
citizens were by special train in-
dicating that Indians are not in that vicin-
ity.
