

RADICAL CHANGES IN NAVY DEPARTMENT

Secy. Meyer Would Put it on Business Basis Beyond Dream Of His Predecessors.

WOULD MAKE FOUR GROUPS

At Head of Each Would Put a Responsible Adviser—No Board of Construction.

Washington, Nov. 29.—Hearing the cry for reform in naval affairs, Secy. Meyer on Wednesday will inaugurate the most sweeping changes in the navy department since the establishment of the bureau system in 1842. Himself a former director of banks and manufacturing companies, he hopes to put the department on a business basis beyond the dream of his predecessors. The keynote of his reforms is the subordination of the bureau chief.

Summarized, essential changes in the Meyer plan are:

The selection of four responsible advisers on subjects within the four groups into which duties of the department fall, to be known as the aide for material, the aide for personnel, the aide for operations of the fleet and the aide for inspections.

WILL GROUP BUREAUS.

The grouping of the bureaus into two divisions of material and personnel, according to the nature of their duties.

The establishment of a division of operations for the fleet.

The establishment of a modern efficient cost keeping system in the navy department and at navy yards.

The separation of navy-yard work into two divisions of hulls and machinery.

The abolition of the bureau of construction.

The abolition of the bureau of equipment.

Heretofore officers who fight the

Nature makes the cures after all. Now and then she gets into a tight place and needs helping out. Things get started in the wrong direction. Something is needed to check disease and start the system in the right direction toward health. Scott's Emulsion of Cod Liver Oil with hypophosphites can do just this. It strengthens the nerves, feeds famished tissues, and makes rich blood.

ships are to have more influence in the navy department than they have had. The secretary will retain his administrative and executive power for his own exercise and that of the assistant secretary of the navy. All reforms go into effect Dec. 1, except the abolition of the bureau of equipment, which Congress alone can do.

The aide for operations for the fleet will be Rear Admiral Richard Wainwright, commander of the third division of the Atlantic fleet.

The aide for personnel will be Rear Admiral W. P. Potter, now chief of the bureau of navigation.

The aide for material will be Rear Admiral William Swift, commander of the Boston navy-yard.

The aide for inspection will be Capt. Aaron Ward, recently supervisor of the navy harbor, who will become a rear admiral on Jan. 2.

Capt. Reginald of the Nicholson, a member of the board of inspection and survey, will be made chief of the bureau of investigation, vice Potter.

When Mr. Meyer assumed office he found some confusion in the department and in the navy-yard, due to changes instituted by Secy. Newberry a few weeks before the close of his administration. Steps were taken to ascertain how far it was desirable to follow reforms outlined by Secy. Newberry.

REFORM OF BOARDS

The reform board was created to re-

port how the various conflicting orders and regulations could best be reconciled. Then came the Lutes, which was asked to make recommendations concerning the consolidation of the bureau of steam engineering with other bureaus, a step undertaken by Secy. Newberry.

Finally Secy. Meyer appointed the Swift board to consider reports of the other boards and to make recommendations for the improvement of business methods of the department. With these reports as a basis, Secy. Meyer has evolved his plan of reform.

The secretary found that the bureau of equipment was independent of one another, and that he must decide all difficulties between them. The aides are to advise him on these points.

"If the secretaries make advice from individual officers in whom he has confidence, but who have no definite relation to the organization of the navy department," said Meyer today, in explaining his reforms, "he gets advice that may be good but that is not responsible. Such recourse to individuals, moreover, gives no assurance of continuity of policy, nor of responsibility."

According to the Meyer plan, the board of construction becomes useless and, therefore, will be abolished. This board was created principally to supervise ship designing and to decide questions in dispute between the bureaus when their duties overlapped, or when one wished to obtain more space or weight for its purposes in a ship design.

Under the new plan the operating branch, which deals directly with the military use of the fleet, will originate military features of a new construction in consultation with the general board of which the new aide will be a member. Other officers also will be called in for advice and criticism, both before and after the sketch plans have been prepared by the technical bureaus.

These officers will be selected because of pronounced success in ordnance, engineering or torpedo work. The bureaus will be called upon finally to prepare the actual plans and will be responsible for their execution.

With the growth of the business of the department Secy. Meyer found that duties similar to those of the equipment bureaus were performed by the bureau of supplies and accounts, construction and repair, and by steam engineering. In this connection it is to be noted that Rear Admiral W. S. Cowie, another member of former President Roosevelt, is now the head of the bureau.

CHANGES AT NAVY YARDS

At the navy-yard Mr. Meyer has decided to divide the single manufacturing department established by Mr. Newberry into two divisions—one of machinery and the other of hulls—according to the general practice in ship building establishments in this country, and with the naval dock yards of other nations, and Germany's. The hulls and the other of hulls, according to the general practice in ship building establishments in this country, and with the naval dock yards of other nations, and Germany's. The hulls and the other of hulls, according to the general practice in ship building establishments in this country, and with the naval dock yards of other nations, and Germany's.

The Newberry plan gave the senior naval constructor at the yards power that Secy. Meyer lodges with the commandant.

Inefficient work, or performance, or irregularities under the different bureaus, Secy. Meyer found, has been inspected usually by officers of those bureaus reporting directly to them. No machinery has existed by which independent inspection of ships, shore stations and technical matters could be had.

This Mr. Meyer will provide by his new division of inspection.

Extinguishing bureau of yards and docks, the marine corps and certain other branches of the department, not logically included in any one of the four divisions of duties, will be placed under the assistant secretary.

GERMAN STEAMER BREWSTER STRANDED

Beaufort, N. C., Nov. 22.—The German steamer Brewster is stranded on Diamond Shoals. The crew was taken off by a government lightship.

New York, Nov. 23.—The steamer Brewster, in cargo from Jamaica and Cuban ports for New York, is today hard aground, and in a dangerous position off Diamond Shoals, 12 miles just south of Cape Hatteras. The steamer is sending out calls for immediate assistance.

The call for help was received by wireless telegraph in this city in a message picked up by the United Wireless company and originating with the government station on the lightship. The message said the Brewster was aground about six miles inside the light ship, in a precarious position. The sea was reported smooth.

The Brewster of 81 tons register and owned by H. H. Schmitt of Hamburg, sailed from Kingston Nov. 12 for New York.

A wrecking outfit was ordered from Norfolk to the aid of the stranded steamer.

Washington, Nov. 23.—In addition to the German cutter Condado, a Norfolk cutter Seminoe at Wilmington has been dispatched to the assistance of the stranded steamer Brewster.

LITTLE CHILDREN OVERCAME BURGLAR

Chicago, Nov. 23.—Two children sleeping in unconsciousness of danger today proved more effective in disposing of a robber than all the bolts and bars on the entrance to the home of Adolph Huber. The influence of the sleeping children, daughters of Huber, caused a burglar to repent his crime and returned to the children's parents money which he had just taken at the point of a revolver.

Huber, according to the police, was awakened by some one walking in his room just before daylight and his question "who is there?" brought a threat to kill him if he did not give up his money. The burglar then searched the garments of the father and also took all the money in Mrs. Huber's purse.

He then went into the room where the children were sleeping and, tiptoeing out, gave back to the astonished parents the money which he had taken a small sum, and added a silver coin saying: "These are great kids. I haven't got much cold, but you give them this from me."

The police are looking for the kind hearted burglar.

CONSUMPTION STATISTICS

Prove that a neglected cold or cough puts the lungs in so bad a condition that consumption germs find a fertile field for causing a fatal disease. CONGESTION OF POPULATION.

New York, Nov. 23.—Owners of unwholesome tenements and manufacturing plants who pay their employees pitifully are arraigned in a United States court today by the committee on congestion of population in New York as

DOCTOR'S BEST COLD FORMULA

Any druggist has these ingredients or will get them from his wholesale house, and you can mix them.

"Mix half pint of good whiskey, two ounces of glycerine, half ounce of Concentrated pine compound. Shake the bottle well each time and use in doses of a teaspoonful to a tablespoonful four times a day." This prescription is said to work wonders, frequently curing the worst cold in a day. It was published here last winter and cured hundreds.

The Concentrated pine is a special pine product and comes only in half ounce bottles, each enclosed in an airtight case, but be sure it is labeled "Concentrated" in order to get the genuine article.

DECISION CONCERNING SECOND COPYRIGHT

Washington, Nov. 23.—In an opinion by Justice Day, the supreme court of the United States today affirmed the decision of the United States circuit court of appeals for the Seventh circuit in the case of Isaac H. Caliga vs. the Chicago Inter-Ocean. In which Caliga brought suit to recover damages because of the paper's alleged violation of the copyright of a painting by Caliga, known as the "Guardian Angel."

The copyright under which the suit was brought was obtained in November, 1901, and it being shown that a previous copyright had been granted in October of the same year, the court of appeals presented the second copyright to be invalid and decided in favor of the newspaper.

Justice Day said a second copyright could not be permitted under the law any more than a second patent could be.

Mrs. Louis Hite, 428 Ogden St., Danville, Ill., writes, October 1st: "Foley's Kidney Pills cured me on the road to health. I was troubled by four doctors and took other kidney remedies but grew worse, and was unable to do my housework, and the doctor told me only could live ten to six months. I am now so much better that I do all of my own work, and I shall be very glad to tell a my one afflicted with kidney or bladder trouble the good results I received from taking Foley's Kidney Pills. Commence today and be well. Do not risk having Bright's Disease or Diabetes. Schramm-Johnson Drugs, Salt Lake City."

TRIPLE MURDERER MAY NEVER BE APPREHENDED

Frontenac, Kan., Nov. 23.—It is not believed by the authorities here that the slayer of William Bork, his wife and 2-year-old son who were murdered on a lonely road five miles north of here last Friday night, will ever be apprehended. Not the slightest clue of the other branches of the department, not logically included in any one of the four divisions of duties, will be placed under the assistant secretary.

SAN FRANCISCO GRAFT CASES POSTPONED

San Francisco, Nov. 23.—An order was made today in the superior court postponing all of the cases growing out of the graft disclosures made during the administration of former Mayor E. F. Schmidt until Jan. 19, 1910. This means that the present district attorney will not have anything more to do with the prosecution of the cases and that their continuance will be left to the decision of the district attorney-elect, Charles M. Fickler.

A SCALDED BOY'S SHRIEK

horrified his grandmother, Mrs. Maria Taylor of Nebo, Ky., who writes that, when all thought he would die Bucklen's Arnica Salve wholly cured him. IMPROVED DREADNOUGHTS.

Keel Plates of the Orion and the Lion Are Laid Down.

London, Nov. 23.—The keel plates of two monster warships, the Orion, the improved Dreadnought battleship, and the Lion, the cruiser battleship, were laid today, the former at Portsmouth and the latter at Devonport. The bulk of the material for both vessels is ready and all arrangements have been made for their completion within two years.

The construction of the Lion will mark a notable stage of evolution of the cruising battleship. She will have 7,000 horsepower, while her immediate predecessor had 4,000. She will displace 21,000 tons and her length will be 700 feet, making her the longest man-of-war ever laid down.

What is especially noteworthy as her "run of deck" indicates an intention to equip the cruiser battleship with 12-inch guns, thus placing her as regards armament on an equality with the latest battleships. She probably will have a nominal speed of 27 knots an hour.

JEWISH WOMEN MEET.

Pittsburg, July 23.—The annual meeting of the national executive committee of the council of Jewish women opened here today. Religion, immigration and philanthropy are among the important subjects to be considered. Adjournment will be on Dec. 2.

THOMAS MEAGHER DEAD.

Magna, Nov. 23.—Thomas Meagher, son of the Irish patriot, died today of pneumonia following an attempt at suicide. He was a graduate of West Point and had lived many years in Montana and California. For several years he had occupied high posts in the government here.

CONGESTION OF POPULATION.

New York, Nov. 23.—Owners of unwholesome tenements and manufacturing plants who pay their employees pitifully are arraigned in a United States court today by the committee on congestion of population in New York as

greatly adding to the burden of taxpayers.

Robert W. Hubbard, commissioner of public charities, is quoted as having pointed out that congestion of population is contributing largely to the \$10,000,000 yearly which New York spends on her departments for the prevention and cure of disease and the committee shows by tables appearing in the bulletin that the expenditures by the city for the care of victims of congestion are increasing more rapidly proportionately than the population and the city budget. The committee then asks whether the city should pay these bills and thereby put a premium upon the exploitation carried on by those who profit by the congestion of population.

A young lady called one day this week to ask at what price we could sell a fob like one she had purchased at "wholesale" through a falsifying catalogue.

We showed her a beautiful stock and she acknowledged that our one price plain figure \$12 fobs were equal to the one she had bought for \$12.

Our price included a monogram worth \$1, and no express charges, both for which she had to pay extra and besides, her fob was in a nameless common flabby white paper box while the purchase from us would have been in a fine Leyson box which in itself adds value and satisfaction to a Christmas gift.

The same old story. The goat fancied the grass was better just over the fence and put his head through the pickets to prove it and choked to death for his pains.

The local merchant does not ask you to pay more but does ask that as he helps to educate your children and pave your streets and beautify your city that you pay him the compliment of at least ascertaining if his wares and prices are right before sending Utah money earned in Utah to enrich another commonwealth.

HOW SHE CURED HER RHEUMATISM

I wish every rheumatic sufferer to know what S. S. S. did for me. I had been afflicted with Rheumatism for twenty years, sometimes being entirely laid up by it, and always lame in some part of my body. It grew worse until it was misery to attempt to walk at all; my right knee was nearly twice its natural size and was drawn up considerably shorter than the other one. A friend advised me to take S. S. S., which I commenced. I had tried so many things that I must say I had very little faith that it would do me any good, but was willing to try anything that promised relief. Before I had been using it long I was greatly encouraged, and continuing the medicine I soon found I was entirely cured. The lameness and soreness all left, and I can straighten, move or bend my leg as well as anyone. I am sixty-five years old, but have had no symptoms of Rheumatism since S. S. S. cured me.

MRS. IDA M. PALMER. No. 195 Fulton St., Brooklyn, N. Y.

The sincere and truthful tone of Mrs. Palmer's letter must impress every one who reads it. She had suffered with the agonies of Rheumatism for twenty years, and when she found a medicine that proved its worth by curing her, a humane interest in others who were suffering from the disease prompted her to recommend it.

Rheumatism is due to a diseased condition of the blood cells and corpuscles, brought about by an excess of uric acid in the circulation. This uric impurity gets into the blood usually because of systemic irregularities, such as constipation, imperfect kidney action, indigestion, and other minor stomach disturbances. These common ailments prevent the proper working of the eliminative members, and thus a certain percentage of the refuse matter which should pass off is left in the system to sour and form uric acid, which is absorbed into the blood. Then the corpuscles of the circulation which ordinarily furnish nourishment to the body, are saturated with the uric impurity, which they deposit into the muscles, nerves, bones and joints. This causes inflammation and the pains, aches, and stiffness of Rheumatism.

External applications, such as plasters, liniments, hot applications, etc., cannot have any permanent effect on Rheumatism. Temporary relief from its pains is sometimes afforded by such measures, but the old cause is always at work in the blood, and as soon as the local treatment is left off every symptom will return.

There is but one way to cure Rheumatism, and that is to purify the blood—cleanse the circulation of the uric acid impurity. S. S. S. goes into the blood and attacks the disease at its head, and by removing every particle of the inflammatory uric matter, and building up the blood to a healthful condition, this medicine destroys the cause and cures Rheumatism. When S. S. S. has cleansed the blood of the acid impurity, enriched and thickened the circulation, then the nerves are quieted, the muscles become elastic, the blood tissues are cooled, and the hot, feverish flesh is soothed and made comfortable. Nothing equals S. S. S. as a blood purifier, and for this reason nothing equals it as a cure for Rheumatism. Book on Rheumatism and any medical advice free.
