Last Night's Dispatches.

CONGRESSIONAL.

SENATE.

Miscellaneous.

WASHINGTON, D. C., 4.—Wright, from the judiciary committee, reported unfavorably on the bill for the better organization of U. S. District Courts in Louisiana; the report and the bill were placed on the calendar.

Stewart introduced a bill to resume legislative control of the district of Columbia and to provide for the government thereof; he explained that the bill was very similar to the one introduced by Morrill, of Me., several years ago, with an additional section for the appointment of five commissioners, at a salary of eight thousand each, whose duty shall be to report the condition of affairs in the district to Congress, and recommend the necessary legislation; referred to the joint committee for the investigation of the affairs of the District of Columbia.

A resolution was adopted instructing the finance committee to inquire into the propriety of repealing the law forbidding a producer of tobacco to sell the same to persons not licensed dealers.

The Senate bill, reviving and continuing certain land grants in the State of Minnesota, to the St. Paul and Pacific Railway, was passed.

Sargent introduced a bill providing for the abolition of all distinction in the army, between blacks and whites, as to organization, term of service, promotion, etc., referred.

The House having returned the bill appropriating $90,000 for the relief of the sufferers by the southern inundations, the vote passing it was reconsidered, and Pease moved an amendment making an appropriation of two hundred and fifty thousand; referred to the committee on appropriations.

At the expiration of the morning hour the consideration of the civil rights bill was resumed, and Norwood finished his argument against the constitutionality of the bill.

Fenton moved to lay the bill aside, that he might move to discharge the committee of commerce from the farther consideration of the bill to regulate the service in the collection of customs, &c.

Edmunds objected, and Fenton proceeded to speak, ostensibly on the pending bill, but really in advocacy of the bill previously introduced by him, to regulate the customs service.

Boutwell offered an amendment to the civil rights bill, applying its provisions to schools, colleges, &c., authorized by law, and endowed by the U. S., or that should be hereafter endowed by any State, or the U. S. Adjourned.

HOUSE.

Bill to Admit New Mexico, etc.

WASHINGTON, D. C., 4.—Maginnis introduced a bill to establish an assay office at Helena, Montana; passed.

Foster, from the committee of ways and means, submitted a report on the Sanborn contracts; ordered printed and re-committed, with leave to report at any time.

Kasson, from the committee of ways and means, reported back the Senate amendments to the bill in relation to the duty on fruits, with an amendment providing that the duties provided for shall not be levied or collected on fruits entered for consumption at any port prior to July 1st, 1874. The Senate amendment and the amendment reported by the committee were agreed to.

McKee, from the committee on territories, obtained leave to report, for action on the 21st of May, a bill for the admission of New Mexico as a State.

Forest, of R. I., introduced a bill extending to Indians the penalties to provide against the liquor traffic among Indians; passed.

EASTERN.

Wars and Rumors of Wars.

LITTLE ROCK, 4.—The capture of the Supreme Court judges last night, by a band of armed men is charged by the Brooks men to Baxter's adherents, and by the latter to Brooks' satellites; the whereabouts of the judges is still unknown. There are unconfirmed reports of another battle between King White's force and a party of Brooksites. The city is full of war-like rumors that Brooks is about to attack Baxter, and *vice versa.* The U. S. troops occupy their old position between the belligerents.

Report in the Sanborn Case.

WASHINGTON, D. C., 4.—The committee of ways and means, today, submitted a report in the Sanborn contract case. They recite the origin of the law, and give a history of the first contracts given under it, especially Sanborn's. They say that paid government officers furnished Sanborn information by means of which he obtained a contract for collecting unpaid taxes, &c.; that when he obtained a list of delinquent railroads he was instructed by the Treasury officials to add the names of nearly all the railroads in the United States, and his contract was made to include 592 roads, instead of 150 as originally contemplated; and while the law provides three persons to assist the proper persons in collecting, this contract provides that paid government officials shall assist the contractor. It appears that the Commissioner of Internal Revenue wrote the Secretary of the Treasury a remonstrance against this method of collection, which was never answered, and in no case does the committee find the contractor assisting the government officers, but the whole government machinery was at the disposal of Sanborn.

It is the opinion of the committee that a large percentage of the amount collected under the contract would have been easily collected through the regular channels, and was not the proper subject for the contract. When the committee, feeling alarmed at the looseness with which the treasury department was conducted, attempted to elicit from its three highest officers where the responsibility rested, each one professed ignorance of the matter, and attempted to shift the responsibility. The incongruity of the testimony given by these gentlemen is deplorable, and the fact cannot be ignored by the committee that they deserve severe condemnation for the looseness which permitted this law to be administered. The committee find nothing impeaching the integrity of Secretary Boutwell or Richardson, and the testimony proves no corrupt motive in their action. In justice to Secretary Boutwell it must be said that contracts for the collection of taxes have been given since Secretary Guthrie's time of office in extraordinary cases, and when the present secretary came into office he found a number of such contracts in existence, but upon examination he found no law authorizing them, and had them annulled.

In the light of the evidence elicited during the examination the committee believe the contract law of May 8, 1872, should be repealed, and the contracts thereunder revoked and annulled, and all the demands of the contractors against the treasury silenced by the passage of a bill embodying these conclusions, which the committee herewith report.

FOREIGN.

GREAT BRITAIN.

Inquiries in the House of Lords.

LONDON, 4.—In the Lords, to-day, Lord Russell, in view of the embittered feelings between France and Germany, moved that copies of the correspondence with those powers be called for, and he asked what the course of the British government would be in the event of a rupture between them?

Derby believed that peace, in the immediate future, was safe, and he trusted the influence of England would be used, and that she would do everything to maintain peace, short of embroiling herself in the struggle, during which she would regard absolute treaties as open questions, and would faithfully adhere to her engagements of late years.

Russell withdrew the motion calling for the papers. In the Oregon boundary and Fenian raid questions he said that the British people felt that the honor of England had been touched in the Washington Treaty negotiations, and that the national character had been lowered and the national interests jeopardized. An opinion generally exists in favor of compensation to the Canadian sufferers by the Fenian raids. He did not apprehend a repetition of these errors, but he trusted that Britain would never seem afraid to do anything in the assertion of her just rights.

SPAIN.

The Carlists—Bilboa without Bread.

MADRID, 4.—The main body of Carlists is at Ripall, under Prince Alphonzo. Don Carlos is at Durango. Serrano is expected at Madrid on Saturday.

The inhabitants of Bilboa were without bread the last week of the siege.

ROME, 4.—The Pope held a consistory yesterday, for the appointment of Bishops: among the appointments were several to Austrian dioceses, and Bishop Crinnon to the diocese of Hamilton, Canada.

PRUSSIA.

Visit the Czar—Royal Betrothal.

BERLIN, 4.—The Czar, received visits from Generals Von Moltke and Manteuffel. Gortschakoff held a conference with Bismarck.

The betrothal of the Russian Grand Duke Vladimir and the Duchess Marie of Mecklenburg, was promulgated yesterday.

CHINA.

A Riot.

SHANGHAE.—A serious riot occurred in the French quarters of Shanghae: a mob of Chinese attacked the residents of that quarter, and sacked and burned several houses; the police fired on the mob, killing several. The Chinese assign, as a reason for the attack, that the French were building a road through their cemetery.

A TRAGEDY. — Yesterday we learned that quite a tragedy had occurred at El Dorado Canyon, in this county. It appears that some difficulty occurred between two men named Jones and Pyatt. After some hard words passed, weapons were drawn, and several shots interchanged. Both men were wounded, but Jones it is supposed thought that Pyatt was injured more severely than actually was the case; at any rate, he retreated, and entrenched himself among some rocks, and defied all attempts to subdue him. Finding that Pyatt was not hurt as much as was first believed, a man named King went to Jones' retreat to tell him so, and to ask him to come out. The result of the attempt was that King was killed. The citizens then rose, surrounded Jones and killed him. — *Pioche Record.*

GOLD.—Some of the Pioche ore seems to be strongly impregnated with gold. While on the street yesterday a piece of ore was shown us, which we were told came off the hill, in which free gold was plainly visible.—*Pioche Record, April 28.*
