Snow Storm.-There has been

day, commencing about 8 o'clock

and continuing nearly the whole of

That Everlasting Case. - That

the after part of the day.

"HOUSEKEEPER" OF HEALTH .--The liver being the great depurating or blood cleansing organ of the

system-set this great "housekeeper foul corruptions which gender in the blood, and rot out, as it were, the machinery of life, are gradually expelled, from the system. For this purpose Dr. Pierce's Golden Medical Discovery with very small daily doses of Dr. Pierce's Pleasant Purgative Pellets are pre-eminently the articles needed. They cure every kind of humor from the worst the day.' In the forenoon the feascrofula to the common pimple, thery flakes were unusually large, blotch or eruption. Great eating ulcers kindly heal under their but the storm tapered off towards mighty curative influence. Virulent blood poisons that lurk in the system are by them robbed of their terrors, and by their persevering and somewat protracted use the

most tainted systems may be completely renovated and built up anew, who are charged with assault with before the justice of the peace. The Enlarged glands, tumors and swellings dwindle away and disappear under the influence of these great resolvents.

ances, been at last thrown out of ery. She has a sister at Shenan-

the Justice's Court, and will be re- doah, Beaver County, who was im-

ferred to the grand jury for consid- mediately telegraphed for, at the

like of it was perhaps never seen or heard of before. And there is no romance about it, the automatic talker can, we chelieve, do all that is claimed for it.

It is the invention of Mr. Faber, \$25 for being intoxicated and dis-German, who, it is said, first exturbing the peace. The fine was hibited it in several of the Eurolarger than usual, but the Justice pean capitals some thirty years thought probably it was as well to creating an immense sensamake the sum sufficient to obviate ago, tion thereby. The proprietor of the talking machine which will be ex-John's being tried again for the next twenty-five days. His affechibited at the Theatre to-morrow tion for the calaboose seems so great night is, we believe, the sen of the that he seldom keeps away from it original inventor, and he claims longer than twenty-four hours at a that his machine is so much improved as to be an entirely new in-

> vention. Be that as it may, there is no doubt that it is one of the most extraordinary pieces of mechanism ever constructed.

The inventor of the machine seems to have taken the speaking apparatus of the human body for his model, for the automatic talker bibition, and judging from a glance "consists of the mouth and larynx, at the programme, it can scarcely the bellows supplying the current of air to the lafter, the treadle afternoon of the 13th there will be which works the bellows, and fina free party for all the little tolks of

ally, the various levers which move the mechanism producing the different sounds."

The machine is composed of the following materials: Wood, ivery, india rubber, gutta percha, leather and metal, distributed as follows:

"The larynx is made of india-rubber, and the part corresponding to the glottis in the human throat is I hand on a mission, states that he is now in Hatfield, Bedfordshire, where he was born and reared. At date of his writing he had rented a shop and was about to fit it up in good style and commence the bar-bering business there. By this made flexible, and is so arranged as to press against the back of the throat or against the hard palate.

The powers of the machine are thus described in an eastern conpleasure in prosecuting his mission- temporary:

"The vowels a, e, i, o, u, and the consonants g, b, d, f, j, sh, w, land r, with their various combina-tions, are all that are used, and with these it is said the sounds of any That Fatal Accident.-The following account of a coroner's inquest, held at Pangultch, has been language can be uttered by this machine. It pronounces German more easily than English or French, but sounds the English th very sent to us for publication. It will be remembered, however, that we published the leading facts relating much like d, and cannot give that to the accident at the time it oc-

sound properly. "The bellows of the machine supplies the place of lungs, and is worked with the foot of the opera-PANGUITCH, Jan. 31st, 1874.
