# LOGAN.

LOGAN, UTAH, - DEC. 11, 1893.

### The College Special Lecture Course.

The faculty of the Agricultural College is making preparations for the course of special lectures for the benefit of such as are unable to take the regular course. The Corner did a splendid work in this direction last winter. The College has been established long enough, and the field covered by scientific research at the experiment station has been wide enough, to give the faculty a thorough knowledge of the climatic conditions, soil, requirements, etc., that prevail here. The subscription drive made considerable progress in the town, but the extensive territory to be covered by the immediate precinct by encouraging progressive farmers to experiment and communicate the results before suggestions would be made. The result is, that more brains are being used on the farm, which is now being made more productive.

### Surprised.

Last Wednesday evening, Thos. X. Smith, Bishop of the Fourth ward, Logan, was made the recipient of a very pleasant surprise, the occasion being the anniversary of the gentleman's birthday. He was brought to the ward meeting house on some pretext, and found the hall packed with people, and several long tables laden with edibles that only awaited his arrival to be disposed of by the company. After supper the Bishop was presented with a handsome and valuable gold watch. Brother Smith has presided over that ward for twenty years to the entire satisfaction of the members of the ward.

On Thursday evening a somewhat similar surprise was given Peter Lochtenberg, who left Logan this morning to fill a mission to the Scandinavian states. In this case the surprise took the form of a ball. As the ball and music were free, the gross proceeds of a collection made for the benefit of the young man amounted to a nice little sum, and were handed to him with the best wishes of the donors.

### General Notes.

Adelaide Moore, the actress, and her company, performed Rip Van Winkle to small and unappreciative audience in the Thatcher Opera house.

A highly interesting lecture on English literature has been delivered by Prof. McEwan before the literary society of the Agricultural College.

An indictment has been found against M. A. Moffat of this city, for an infraction of the postal regulations.

The afternoon services at the Tabernacle have been discontinued, the meetings being held in the various ward meeting houses during the continuance of cold weather.

Mr. Enoch Aumsden, of this city, has returned home from China. While he has been studying the Jewish religion.

The singing of the Logan glee club will be one of the attractions at the meeting of the Students' society on next Friday evening.

The long continued wet weather is having a depressing effect upon business.

There is a superfluity of drummers here at present. Any other town requiring a dozen or two commercial men can be supplied gratis.

### PROVO NOTES.

Webb Greene, secretary, L. J. Jordan, treasurer, and M. O. Ralph, director, of the Savings Investment company, of Mt. Pleasant, Sanpete county, were arraigned Saturday night charged with lottery. They pleaded not guilty. It is expected that J. H. Erickson, president, and A. A. Clinton, vice president, will be arraigned today.

The regular monthly session of the Insane Asylum board was held Saturday, and routine business transacted. An adjournment was taken for two weeks, when a special session will be held to prepare a report for the legislature.

A meeting of the farmers owning land on the shores of Utah lake was held Saturday, and routine business transacted. An adjournment was taken for two weeks, when a special session will be held to prepare a report for the legislature.

W. H. King lectured Friday night before the B. Y. A. Polysophical society on the subject, "Colonial History."

Highest Award

For Supreme Excellence, to the

PUTNAM

HOT FORGED AND HAMMER POINTED HORSE

NAILS.

At the World's Columbian Exposition at Chicago. A medal and diploma awarded: "Supreme excellence in material, method in manufacture, and quality of finished product; elastic, tough and serviceable; combined with holding power in clinch. It allows the use of very small nails."

There is nothing beyond common excellence and no claim anything completed in a better way except "the material from which it is made," "the method of manufacture," and "quality of finished product." Certain facts in these "specialties" give eligibility to the exposition and confirmation of the award. The "material" is known by these "specialties" to be soft enough to bend the head in the hottest service with ease.

By the "method of manufacture" it is forged, pointed and heavy metal to the head.

By the "quality of finished product" it will be seen that the Putnam Nail Company's exhibit is what confirms an award by a good horse nail and that only. They "Supreme Excellence."
