YESTERDAY a young lady was standing on a bridge spanning a water act crossing on Main street, near Eighth. She held a little child in her hands who was looking into the water. Presently the child made a leap and landed in the ditch. Instead of jumping in after it, the young lady began to scream and call for help. The mother of the child ran out, with expressions far from complimentary to the girl who had lost her presence of mind, and jumped into the water, where she found the child under the bridge on its knees, in water to its chin.—*Opinion Standard, August 1.*

THERE was a large audience at the opera house last evening, and they were kept in a perfect frenzy of merriment by the representations of the Two Johns, by Messrs. J. G. Stewart and Paul Dresser. The entertainment is a very large provoking one. The Two Johns, "Philip" and "Peter," are represented by two good actors, weighing together about 1,000 pounds, make a warm night even in winter. The play is made a vehicle for a good deal of wit and humor. There are a great many amusing incidents, in which the Two Johns get themselves and they are continually getting mixed up with each other, being mistaken for each other and having the woe of one man heaped with brimstone measure upon the devoted head of the wrong fellow.—*Portland Democrat.* The "Two Johns" will be presented at the Salt Lake Theatre on Friday and Saturday evenings.

**Officers Meeting.** The regular monthly meeting of the officers of the Y. L. M. I. A. will be held next Saturday, August 4, at 11 a. m., in the Relief Society Hall, Fourteenth Ward. All interested are cordially invited to attend.

**Cut His Throat.** Last night Nels Brown, an inmate of the County Infirmary, obtained a razor and cut a horrible gash in his throat, in an attempt to commit suicide. He did not succeed, however, and a surgeon was summoned, who dressed his wounds. He will probably recover.

**For Grand Larceny.** John Boyle was arrested by the police last night, on a charge of grand larceny. He is accused of having stolen \$10 worth of watches, etc. He was before Justice Pyper this forenoon and his bail fixed at \$1,000. In default of that amount of security he was taken back to jail.

Parley's Creek will be Brought to the City at Once.

## **A NEW CANAL TO CARRY DRAIN WATER TO BE CONSTRUCTED THIS SEASON.**

The City Council met in regular session last evening at 7 o'clock, Mayor Armstrong presiding. The following were absent: Alderman Pyper, Councilors Young and Smith.

The resolution authorizing the Mayor to sign the agreement for the exchange of canal water for the waters of Parley's Canon Creek, being the special order for the session, was taken up for consideration and read.

Alderman Sharp moved the adoption of the resolution, seconded by Alderman Ritter.

Alderman SHARP said he trusted that the motion would prevail. The city is far short of adequate supply of water. Even in an ordinary season the supply is insufficient. The city has had some damages to pay because of Parley's Canon Creek, being the special order for the session, was taken up for consideration and read.

It looks as though nature had provided it for a reservoir. I am in favor of the resolution.

ALDERMAN MC'CORNICKE said, in substance: I have been satisfied for a long time that the Utah Lake scheme is all bosh. It is easy for papers to say what they ought to do, but we must have money to do anything with. I think the city ought to come to the reservoir system. I think water can be safely stored in City Creek Canon, and an artificial dam will yet be done. I like Alderman Ritter's suggestion about that reservoir.

With reference to the resolution, I think that these mill sites are worth anything. I believe in the value of selling some of the land we don't need to pay for them, and let taxes come in from that which is now laying waste. I think it is necessary to have this resolution passed at once, and I will vote for it.

COUNCILOR ROBERTS said, in substance: I am a little bit muddled on this problem. There is another side to this question. We are not the Mayor, or authorized to sign this agreement. I claim you will give away three times as much water as you get, so you don't get anything new. We can't get any water without a new canal from the city. There is no force in the present canal to bring the water to the city. I am not fighting the proposition to get water; but I protest against giving \$100,000 for water which we can get for nothing. The Nineteenth Ward is now without water, even with the canal, and when it is laid out, we will have cholera infantum, diphtheria, convulsions (infantile), and Cerebro Spinal Meningitis. Drow (general), Fever (typhoid), Heart disease, Rheumatism, Inflammation of bowels, Lung disease (acute), Measles, Old age, and Peritonitis. Sunstroke. Not reported.

COUNCILOR ROBERTS-I do not know. I am told that the rights we have called secondary are really primary. Alderman Ritter is a mistake. They are secondary.

COUNCILOR ROBERTS-I am in favor of the pumping scheme. I don't believe there is water in Parley's Canon, outside of the Council. Alderman Ritter-Councilor Dooley said we got a box of hats on the same proposition.

COUNCILOR ROBERTS-Let us dig this water out of the city. We will get water, and not put those now below the canal. I will not vote for this proposition. It will give us a great deal of water.
