**GOVERNMENT WILL BUY MORE LAND**

To Make Room for \$120,000 Addition to Federal Building.

HEARING IN DISTRICT COURT.

Ogden, Sept. 5.—The government has decided to purchase 30 feet of land to the north of the new postoffice building for an additional \$120,000.

The appeal suit of Ralph Wilcox against the Oregon Short Line Railroad company was taken up before the court and a jury. The plaintiff brought the suit against the railroad company to recover damages because of the failure of the company to have its passenger train stopped at the Hot Springs, which place and return it had sold plaintiff a ticket, and he was compelled to walk to Ogden. A jury in the lower court gave him judgment for damages in the sum of \$200, from which verdict the railroad company appealed. The principal point on which the case rests is as to whether it is the duty of the railroad company's officials to have a train flagged at a small station or the purchaser of the ticket. The further hearing of the case will be continued Monday.

HOME OF THE RAISIN GRAPE.

Farmers Grow Two Crops of Grain Each Season.

Special Correspondence.

Littlefield, Arizona, Sept. 4.—This place, formerly known as Beaver Dam, is about 35 miles southwest of St. George, and is about 6 miles south of the Utah line. The community is small, and the land is quite limited, but it is now growing where was harvested a crop of barley this season, and an excellent crop of cane follows a crop of wheat a season on the same ground.

Most of the irrigation water comes from springs, so the users are not troubled by the frequent changes in the river. The fruit crop has been exceptionally good this year, the showing in the raisin grapes being most excellent. The yield is large and there are vines three and four years old that will yield 40 and 50 pounds of grapes to the vine. The grapes of every variety are doing splendidly, and greater attention is being paid to their culture. Henry Frenner alone has 25,000 seedless cuttings rooted for next year's planting.

What is wanted here is a systematic method of packing and marketing of the excellent products, which this region is adapted for growing.

The climate here is unexcelled in winter, of course it is hot in summer, but it is this heat of summer that gives to the fruits their unexcelled flavor. The season is at least two weeks earlier in the spring than St. George, and usually that much later in the fall in getting frost.

Raisin drying is now in full swing and the rows of trays extend through the vineyards loaded with the grapes in all the degrees of dryness from the fresh fruits to the finished product.

Nothing Helped Until Patient Tried Dr. Williams' Pink Pills.

They Brought Relief and Cure When Ordinary Medicines Seemed Only to Make Her Worse.

Dr. Williams' Pink Pills, a remedy which has been before the American people for a generation, is still accomplishing wonderful results as is evidenced by the following interview with Mrs. Rachael Gardner, of Wilsey, Kan.

"It was very strange," she says, "I never could tell what caused it and neither could anybody else. For a long time I had had spells with my stomach. The pain would commence about my heart and was so deadly agonizing that I would have to scream aloud. Sometimes it would last several hours and I would have to take laudanum to stop it. Besides this I had a headache almost constantly, day and night, that nearly crazed me, so you see I suffered a great deal. And when I think of the agony I endured it still makes me shudder."

"Doctors," she says, "I couldn't take it and I kept growing worse until a friend advised me to take Dr. Williams' Pink Pills and I did. I began to feel more good than I had ever hoped for. I kept on with the pills and now I recommend them to all who suffer."

More information regarding the treatment of stomach troubles will be found in the booklet "What to Eat and How to Eat," sent free on request.

Dr. Williams' Pink Pills have cured severe cases of indigestion, bloodlessness, influenza, headache, backache, lameness, neuralgia, nervousness and spinal weakness.
