

MINING, BUSINESS AND STOCKS

GOLD CIRCLE IS
A GROWING CAMP

New Mill Soon to be Installed for
Riley & Riddell and Other
Leasers.

SALT LAKERS PUSHING WORK.

Leslie Savage Soon to Let Contract for
Tunnel on the Elk Prince
Property.

Conditions at Gold Circle are growing better each day and a number of Salt Lakers have interested themselves in this rising camp. A 50-ton mill is soon to be erected to care for some of the high grade ore that has been found there. The proximity of the railroad to this camp will tend to increase the value of the holdings. A recent dispatch by J. W. Matthews from that district says:

The Burns and Charter lease on the Esmeralda recently took out about one ton of ore that is estimated at \$4,000. They have eight inches that is very rich and as they get nearer to the adjoining lease owned by Schenck and Yaden, their ore shoot grows larger.

The Schenck and Yaden lease No. 4 on the Esmeralda No. 1 at a depth of 100 feet has three feet of ore that will mill 75 and expect to have a mill for their use only, the ore from the 75 feet to the 100 showing a good average value and they have 80 feet to drift to their end line, making a big tonnage.

The Riley & Riddell and the Boyle & Weston have consolidated with Manley Brothers and will put in the 50-ton mill as fast as they can get it in the ground. They have now on the dumps over 1,000 tons of ore that will average \$40, and the Boyle lease has crossed at the depth of 130 feet and is in ore. Samples give the ore on the dump at \$17 and the core at \$20. The width of the crosscut is 13 feet, and they will sink 100 feet at the intersection immediately. The work from now on will be pushed for they have but nine months' time on the lease.

FIND HIGH GRADE.

The Matthews-Warren lease on the Queen Hill remains good and they have about four inches of high grade which will run \$5,000 and the seven feet will average between \$80 and \$90.

The Queen, owned by Reeves, Hager and Storey, have on their original contract 12 tons sacked that will average \$200 per ton.

The Breckinridge lease on the Great Western has opened up in the last week some six feet of ore that runs good and they say will run \$50. This lease is directly east of the Queen strike, some few hundred feet, and it looks to be permanent and has the good wall.

We are encouraged with the north-west end of the camp for the McNett, Adams and Kettlevell people have 18 inches of ore on their lease and are preparing to sack it. It is of shipping value and the gold seems to be higher value than the gold in the eastern end of the camp.

Black Avers has a good thing in the Poor Man claim, just in the Simpson Beauty group, having in sight plenty of milling ore and eight inches that will assay \$200.

SALT LAKERS AT WORK

We are informed that Louis D. Gordon will resume operation on the St. Paul. Also Leslie Savage will give a contract on the Elk Prince to sink a tunnel some 400 feet to intersect their present workings. Both of the above properties have demonstrated that all they need is further development.

The Eastern Star, the property that caused so much comment on account of the very rich ore in the croppings, where assays ran as high as \$47,000, has encountered the ledge and with occasional high grade strata the whole of the ledge will mill \$18 of nearly 16 feet. They are now in over 100 feet, and without doubt this is a wonderful property.

STOCK MARKET IS STRONGER.

Volume of Business Increases—Ohio Copper Goes Higher.

Conditions on the local mining exchange were today better than a fair volume of business was transacted. There was not the sign of depression that has existed for several days. Several of the stocks showed considerable advance in price.

Ohio Copper, which has been going up for several months past, opened at \$7, reached as high as \$7.25, and closed strong at \$7.20. On the regular market 3,500 shares of stock changed hands. Recent developments in this property have created confidence. Reports made in the east by men who recently visited the property have tended to give the stock a better tone.

Crown Point was slightly higher, and the same was true of East Tintic Development, Colorado and Beck Tunnel. Speculating in Iron Blossom still continues.

The Central enjoyed a fair volume of business. On the regular board 12,700 shares were sold at a slightly lower price than has prevailed. On the open board 12,000 shares of stock changed hands. The total number of stocks disposed of this morning was 93,404, while the amount represented in the deals was \$66,947.37.

The curb market was lower today than usual. Standard Copper sold for 16 1/2 cents. American Mining went for 8 cents. Copper glance received a bid of 9 cents. Bingham Central-Standard was offered at 8 1/2 cents and a bid
