suit has been filed by Samuel Blackham against the Union Pacific Railroad company to secure damages in the sum of \$20,500 and costs of action. The complaint sets forth that the plaintiff was in the employ of the defendant company during 1900 as engineer on one of their engines, that while in the discharge of his duty he was moving a passenger train between Ogden City, Utah, and Evanston, Wyoming, while Utah, and Evanston, wyoming, while so traveling he looked out of the cab window of said engine, when without warning a bolt head which holds the cylindder saidle on the engine broke and struck him in the face, injuring to be ver to the excent that he lost t eye to the extent that he lost his sight, and otherwise lacerated and bruised his face. That previous to this time he was an able bodied man and ble to earn a salary of \$140 per month, ut that since the losing of his eye has been very much disabled Wherefore plaintiff prays for damages to the amount of \$20,000 for personal injuries and for \$300 damages for medical treatment and costs of suit. W. A. Lund has entered suit against

John Lewis to quiet title to certain real property situated in Weber coun-ty. United States department of agricul-ture, Idaho section, climate and crop bulletin for week ending May 13:

Boise, Idaho, May 14.-During the past week the weather has been con-

trolled by areas of high pressure drift-ing inland from the Pacific coast, conse-quently the tendency has been toward fair weather. Practically no precipita-

the weather. Fractically no precipita-tion occurred in the southern and cen-tral sections, but in the northern coun-ties a moderate fall of rain occurred during the night of the Sth and morn-ing of the 9th. In all parts of the state the temperature rose decidedly. The

daily average temperature of the state for the week, 58 degrees, is four de-

CROPS.

Northern Sections: In consequence of a heavy rain during the night of the 8th and morning of the 9th and the warm weather that immediately

followed, the past was the most fa-vorable week of the season for ad-

vancing all vegetation. General blooming of fruit trees is in progress

and some berry bushes have begun to bloom. Spring grain came up with a good stand and has grown suf-ficiently to cover the ground. Stock

is in good condition in consequence of an abundance of range grass.

Southwestern Sections: No rain fell during the week, but the high

temperature assisted by an abundance of water through irrigation, caused

of water through irrigation, caused rapid growth of grass crops and fruit. The acreage of corn and potatoes has been increased. Rye has begun to head, fall wheat is fourteen inches in height, and clover and timothy crops give promise of heavy yields. Central Sections: The weather has been warm and devoid of precipitation. Fruit trees resonand to the increased

Skin Diseases SALLOW COMPLEXION, ROUGH, PIMPLY SKIN, SURE SIGNS OF IMPURE BLOOD

No matter how perfect the features, a face cannot be beautiful when marred with blackheads, pimples and splotches. These disfiguring blemishes are produced by some humor in the blood, and, while causing little or no pain, are extremely embarrassing. Mere local remedies cannot bring permanent relief. The sluggish, impure blood must be invigorated and the circulation relieved of impurities before one can hope for a flawless skin and perfect complexion.

S. S. S., nature's remedy, contains no minerals, is a safe blood purifier and tonic for even the most delicate constitutions. It builds up your general health, purifies the blood and carries healing and relief to the diseased skin. The more violent and stubborn diseases, like Eczema, Tetter, Acne, Psoriasis, etc., cause the most indescribable torture, particularly at this season of the year, being at times almost maddening. The matter that exudes from the little blisters or pustules dries upon the body and falls off in brown or silvery scales, leaving the surface inflamed and raw. In some forms the skin becomes hard, dry and fissured, having the appearance in extreme cases of leather or parchment. Unsightly crusts and disfiguring sores are not uncommon symp. toms where the skin disease has become chronic. A large per cent of human diseases are located upon the skin. This wonderfully constructed, delicate and sensitive piece of mechanism, receiving as it does the impurities thrown off by the

#### SUFFERED TWENTY YEARS.

Mrs. Sarah Pike, 3 Prescott Place, Dor-hestor, Mass., says: "I had Eczema on my foot or twenty years, and notwithstanding constant treatment it continued spreading and growing worse. I used salves and lotions innumerable, and also used several blood remedies, but none and also used several blood remedies, but none had any effect. The disease finally extended from my toes to my knee, and the pain and itching was almost unbearable. On account of my age (which was 70), the physicians said a cure was impossible. One dozen bottles of S. S. S. cured me completely, the scars only remaining to show the awful struggle I have endured."

blood, and constantly exposed to poisons with which the surrounding atmosphere is filled, it is no wonder that skin diseases are so common and so difficult, sometimes, to cure. A simple malady often grows to alarming proportions and becomes deeply implanted in the system because of improper treatment, or the sufferer, deceived by the sudden disappearance of the symptoms, believes him-

self cured, when in truth the poison has been forced back into the blood, lying domant for a while, then breaking out again with increased virulence and aggravated symptoms. As the skin is nourished and sustained by the blood, this vital fluid must be purged of impurities; the humors or poisons that produce the emption antidoted and forced out, and healthy new blood carried to the diseased surface, before the skin becomes smooth and soft again.

S. S. S. reinvigorates the sluggish and polluted blood, neutralizes the acids or other poisons, removes from the circulation all morbid, impure matter, and sends healthy new blood to the irritated skin; the sweat glands resume their proper duties, and immunity from further attacks is assured. S. S. S., being a perfect alterative and tonic combined, antidotes and eliminates the poisons and at the same time strengthens and tones up the system, assists the digestion

and enables you to enjoy and assimilate what you eat, instead of bloating the skin and ruining the stomach, as do the Mercury and Potash preparations.

There are few lotions, salves or soaps that do not contain arsenic, or some other injurious ingredient, and their use only aggravates your trouble by clogging the pores of the skin and interfering with nature's efforts to relieve the system of impurities.

Our Medical Department is in charge of experienced physicians. Write them if you need any special information or advice. State as clearly and fully as possible your present condition, symptoms, etc., and you can have the best advice without any cost to you whatever. Remember S. S. S. is the only guaranteed purely vegetable blood purifier on the market and is for sale at all drug stores.

THE ITCHING WAS TERRIBLE.

Mr. L. Marno, Escondido, San Diego County, Cal., writes: "My body broke out with a rash or cruption which in spite of all efforts to cure continued to get worse. The itching, especially at night, was simply terrible; it would almost disappear at times, only to return worse than over. I had tried many highly recommended preparations without benefit, and hearing of S.

preparations without bencht, and hearing of S. S. B. determined to give it a fair trial, and was inexpressibly delighted when a few bottles cared me entirely, removing every blemish and pimple from my body. I shall not fail to recom-nend S. S. S. whenever an opportunity occurs."
