THE CHRISTMAS NEWS FOR 1901. A UTAH-COLORADO EDITION.

The Christmas edition of the "News" this year will be printed on Saturday, December 21st, 1901. It. will contain an exhaustive review of the year's developments in business, mining, commerce, real estate, building, and all other branches of business, and will form the most elaborate compilation of the resources and attractions of Utah which has ever been issued.

Our sister state, Colorado, and its industries and attractions will be well represented in the issue, many beautiful views of Denver and Colorado scenery being given. A big part of the edition will be circulated in Denver, and Colorado's principal

cities. Especially attractive articles will be prepared by a corps of selected writers, and leading men of the community will contribute timely articles on current topics. As the holiday number will be is sued several days ahead of Christmas, it will form an invaluable advertising medium to local dealers for the Christmas trade. The general advertiser could find no better means for reaching the people of the great west. The "News" will pledge a circulation of at least 20,-000 copies for the Christmas issue. Special rates will be accorded advertisers who wish their notices printed in the Semi-Weekly News as well, giving them a total clircu-tion of nearly 45,000 copies.

said yesterday was a pipe-dream and Dunn is a very progressive official, and is considered one of the most thorough a reportorial phantasy. and best posted master mechanics in SPIKE AND RAIL. A PLEASANT JOURNEY. A representative of The Hee heard

well known Morrisville woman, wh requently visits a married daughter in New York, telling some friends one day this week, of her first experience riding on the Empire State Express. "I was she said coming up from New York," 'and thought I would try that famous train I've heard so much about. Wel rolled along smooth and easy and pretty soon I noticed a lot of the men getting up and putting on their overcoats. I thought all these men could not be getting cold for the car was very comfortable, and in just a minute the trainman called out 'Albany!' I could hardly believe it; I would just as soon have expected to be in California so quickly. We left New York at halfpast eight and were at Albany a little after eleven and at. Utica before one o'clock. I changed to an accommodation train there and was in Canastota a few minutes after two. My! it seems almost like flying." Now whenever this good lady wants to visit New York she

goes a good bit out of her way she may travel by the New York Cen-tral.-From the Canastota Bee. MEDALLIONS AND PICTURE FRAMES

esignation of C. H. Middleton. The Southern Pacific's gross earnings

\$6,367,271 for the same month of las Engineers of the local freights and the heavier switching engines on the Rock Island have had their wages

raised. Cross sectioning begins this week on the proposed Phoenix & Eastern railway, which is to connect with the Phelps-Dodge system at Benson. The withdrawal of the Southern Pa cific from the agreement as to moving

transcontinental rates is feared in consequence.

mit to Congress a bill permitting pool-ing among the railroads, as this will operate against the rate cutting evil.

The Illinois Central people are deny ing the report that the Central is uring on securing control of the C. H & D. 'As the Erie has its hands or this valuable property, the Central officlais are telling the trtub.

returned this morning from Denver where he went with Ben Campbell of R. & N. for conference Union Pacific freight officials relative to joint rates and exchange of busi-

Incorporation articles of the Suburb an Land company have just been filed at Los Angeles. The company will es at Los Angeles. tablish a townsite of over 500 acres in the San Jose valley where the first city proposed along the line of the San Pedro road will be built.

J. L. Gogerty, formerly of the Grand Trunk road, has been appointed super intendent of terminals with headquar ters at Pueblo. This position has be created by General Manager Herbert because of the frequently congest condition of the Pueblo yards which has given a great deal of trouble.

coming year, thirty-eight conso ocomotives, ten six-wheeled switching engines, twenty-five passenger coaches eleven baggage cars, 1,300 box cars o 80,000 pounds capacity, 4,000 steel hop-pers of 100,000 pounds capacity, 700 flat cars, 6,000 freight cars, and twelve locomotives of various types.

The last number of the Railway Engineering Review, received today gives a detailed description of the elec ric switch lambs in the Ogden Union depot yards, with half tone illustration; also, a detailed write-up with diagram illustrations of the new Sessions standard friction draft gear for rallcars, described two days ago in the "News,"

When Chief Counsel Whittemore San Pedro was asked today, what he thought about the proposition to leave Salt Lake out in the cold, he laughed and seemed to regard it in the light of a joke. At the same time he said: "If Denver was asked to con tribute to the road for terminal purposes an unappropriated and vacant square of ground, how long do you supbuild one of the greatest wharfs to be found on the coast, and contracts will pose she would take to make the appropriation?" be let this week for the dredging so that vessels drawing twenty-four feet

General Agent Donald Rose of the Illinois Central returned this morning from Denver where he went on business of his road. He says the railroad men of water can be accommodated at the there are laughing at their local papers for the wild and erratic talk about railroad movements, especially the lat-est talk about the San Pedro road skipping Salt Lake and making Denver the terminal instead. Mr. Rose left six inches of snow up in Wyoming, and a little less in Colorado. He was surorders after a rised to find the weather so mild in this valley.

e Chicago manufacturers to ascertain Four engines were jammed up where they are at. Mr. Rhoades sale hat the growth of western manufac Mr. Rhoades said Tucker recently by an eastbound pas enger train running into an extra frui train which was standing still in the station yards. The enginemen jumped ine is making competiton interesting for eastern manufacturers, and a noand saved themselves, except one, En-gineer Snider, who was cut over the ticeable instance of the growth of the west in this respect is the Colorado eft eye. He was brought to this city Fuel & Iron company, and the rolling mills at San Francisco and Portland
