THE EVENING NEWS.

Thursday, . . . February, 2, 1871.

PRICE OF GOLD,

As reported Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, Feb. 2, 1871.

Buying at $1.08; Selling at $1.11.

LOCAL AND OTHER MATTERS.

"THE WITCH."—The grand spectacular drama with the above title is being gotten up "regardless of expense," and promises to be the "biggest thing" theatrical yet passed before the Theatre-goers.

THE 5TH AND 6TH WARDS.—The entertainments for the youth of these Wards, given in the 6th Ward School House every Wednesday evening, are becoming still more popular. The one last night was more largely attended and passed off better than any previous one; the recitations, dialogues, duets, and songs (among which were three original ones) being all well rendered. The committee deserve credit for the zeal they have manifested thus far in behalf of the residents of these Wards, in giving to them such amusements. Success attend you, brethren.

"THE SINGING PEOPLE."—We have received No. 1, Vol. 2, of *The Singing People* an eight-page monthly, "devoted to the advocacy of congregational singing," published at one dollar a year by Philip Phillips, 37 Union Square, Broadway, New York. The present number contains six pages of reading matter about singers and singing, and two pages of music,—one being "Music for the Sanctuary," the other "Music for the Sabbath School." The pieces in the latter are entitled "Triumph of the Lord," and "By what I have done," by Philip Phillips; the former an anthem "Praise ye the Lord," by Silas J. Vail.

THEATRICAL.—"Ten Nights in a Bar Room" drew together a large audience at the Theatre last night. The playing was good and the piece a success.

On Saturday evening "The Lost Ship" will again be put upon the boards "for the last time." The success which has attended its previous presentations here has been very marked and it will draw another very good house on Saturday.

The "Spectre Bridegroom" will conclude the evening's entertainment, with Mr. Margetts as "Dickory."

PRESIDENT YOUNG ON THE WAY HOME.—The following telegram, per Deseret line, was received this morning:

"February 2.

President Young left St. George *en route* for Salt Lake, at 9.40 this morning.

B. Young, Jr. will be detained a few days on account of sickness in his family.

President Smith left St. George yesterday, and stayed at Toker last night."

THE LECTURE TO-MORROW NIGHT.—To-morrow night in the Tabernacle, the sixth lecture of the course on Astronomy will be delivered by Professor Orson Pratt. The following subjects will be discussed and elucidated:

Spots on the sun's surface.—Their changeable character.—Rapidity of their expansions and contractions.—Their motions towards the solar poles.—Their forms.—Where these spots are the most numerous.—Arrangement in belts or zones.—Apparent changes arising from the solar rotation.—Opaque mass of the sun.—Enveloped in two atmospheres.—The interior one transparent with clouds.—The exterior one self-luminous.—Their depth.—Theoretical causes of the spots.—Luminous waves or ridges.—Where seen.—Their magnitude.—Vast columns or sheets of flame resembling our Northern Lights.—Immense solar forces in constant operation.—The Lecturer's conjectures as to their origin.—Supposition of some that the sun is a glorified world.—Amount of heat radiated from the sun in one second.—Motion is radiant heat and light transmitted in the form of ethereal waves.—Heat of the stars measured.—Stellar temperature of our regions. Immense mountains of solar flame.—Spectroscopic observations of the sun and stars revealing their elementary constitutions, their absolute motions, and velocities and directions.

LEFT FOR THE EAST.—The Ogden *Junction* of Wednesday says: "On Monday morning last, Elder David M. Stuart, of this city, started on a mission to the Eastern States. He left by the Union Pacific train at 8 a.m. Elder Stuart has the confidence and good wishes of the entire community. He will act as our agent in the East, and we recommend him to all whom he may meet as a thoroughly reliable, conscientious and business man."

ROMANTIC.—The *Junction* of Wednesday contains the particulars of an affair which occurred at Ogden on Tuesday last, resembling very closely those upon which the notoriety of Gretna Green was founded, and adding another to the numberless illustrations of the truth of the old saw,—"the course of true love," &c. The story, very briefly told, is as follows:—The C.P. train arriving at Ogden from the West on Tuesday morning contained among its passengers a Mr. and Mrs. Pickett and their daughter, the latter sweet sixteen and handsome, as the heroine of such an adventure ought to be. As soon as the train stopped the young lady alighted, and quickly entered a carriage standing near the platform, being followed immediately by a gentleman, whose features were partially concealed. The carriage was driven off, its departure being followed by cries from the parents of the young lady, of "they've stole my child;" the old gentleman running almost like a wild man in the direction the carriage had gone. Great consternation was created by this alarm, and the services of the Sheriff and the police were speedily obtained by Mr. Pickett, to chase and secure the runaways if possible. After awhile the carriage was found on the bench, but it was empty. It was subsequently learned that while the officers were hunting the fugitives, they, after leaving the carriage, proceeded to the office of Alderman Herrick, and by him were united in the bonds of matrimony. They then took up temporary quarters at the house of Mr. David Nelson, where, in a little while, they were found and well abused by the irate parents of the lady; but it was too late to remedy matters.

It appears that the Pickett family, and Mr. Alexander Weed, the name of the gentleman unto whom Miss Pickett was married, were all residents formerly of Illinois, and were on such intimate terms that the young lady was given to understand by her parents that Mr. Weed was to be her husband when she had arrived at a marriageable age. The arrangement was pleasing to all parties then, and especially to those most interested, and their intimacy ripened into strong attachment.

Mr. Weed left Illinois and became a successful business man in San Francisco; the Pickett's, sometime after, also went to the Pacific, but the views of Mrs. Pickett with regard to her daughter's marriage had changed, and instead of Mr. Weed, a student in a Chicago college was the object of her choice, but not of her daughter's. The old folks restrained the liberty of the girl and ill-used her, hoping to bring her to terms, but it had just the opposite effect. The girl managed to let her lover know the state of the case, and he came to her rescue. The old folks determined at last to return to Illinois, the mother believing that if her daughter were there and Mr. Weed on the Pacific slope her objections might be overcome. But the best laid schemes are often foiled, and so it proved in this case, for when everything seemed propitious Weed appeared in the path of the old people, and ducted their daughter and rendered the realization of their design impossible.

It is said that the only fault they find with Mr. Weed was that he was a widower and thirty-six years old—very slight objections, and easy to overcome, especially if the girl is satisfied and he makes her a good husband.

MORE ABOUT THE NEVADA LOTTERY.—The Oakland *Transcript*, of the 26th ult., furnishes the following list of numbers in the Nevada lottery, which have drawn silver watches: 41324, 5498, 45407, 47412, 24083, 7130, 13755, 10070, 43795, 9011, 28040, 30709, 33283, 9192, 49474.

The above awards took place on Saturday last, and we publish the information because inquiries about the matter have been made at this office.

PEOPLE'S VERDICT!
Over Half a Million sold and in use!
4,000 made and sold per week!
SINGER'S
New Improved Silent
FAMILY SEWING MACHINES
ARE
The Best in the World,
Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable:
THE SINGER
NEW FAMILY MACHINE
Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.
It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.
The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.
Folding Tops and Cabinet Cases.
Now designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.
In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*
The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which *is* liable to break and to miss the stitch.
In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive their Shuttles, in a race, thus causing great wear, and *requiring oil*, soiling the thread and goods.
On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.
The SINGER is the
Oldest Practical Sewing Machine,
Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives Trouble, but is readily and easily managed by those *who utterly fail on other Machines.*
SINGER'S
New Manufacturing Machines
Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are *applicable to all kinds of heavy and light manufacturing in Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.
HAVE ARRIVED!
A Full Assortment of those
Beautiful and Unrivaled
MACHINES.
(The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on
EASY MONTHLY INSTALMENTS
So that all may possess one of these *Blessings.*
For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.
We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.
We having been so fortunate as to secure the
General Central Agency,
For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.
We Guarantee every Machine we sell to give entire satisfaction.
THE SINGER
BUTTON-HOLE MACHINE
Is the only Practical one in the World.
