MAY BE OPENED TO ALL CHILDREN

Members of School Board Beginning to Relent.

GEOGHEGHAN'S RESOLUTION

Sets Forth That it is an Outrage to Keep the Schools Closed Against the Unvaccinated Children.

The true feeling of the members of the school board in relation to the prohibiting of unvaccinated children from entering the public schools were revealed last night, when an effort was made by some of the members to open the schools to all children. The feelings of some of them are quite acute and Mr. Geoghegan, in urging the passing of the following resolution, introduced by himself, waxed quite warm, charging some of the members of the health board with having discriminated against some of the children, favoring the children of their patients:

Resolved, That all orders or resolutions of this board heretofore made, prohibiting principals, teachers or pupils from attendance in the schools on account of being unvaccinated and all orders or resolutions requiring the superintendent or health officer of the board to enforce or assist in enforcing any such provisions, be and the same are hereby recinded, and be it further,

Resolved, That this resolution take effect at once and that the superintendent notify forthwith all principals of schools of this resolution.

Mr. Geoghegan further stated that many of the taxpayers of the community felt that they had a great grievance against the board for excluding their children, and that it was inconsistent and unjust. He thought that it was time to raise the vaccination boycott.

Mr. Moyle moved the adoption of the resolution, but Mr. Nelden at once objected, contending that it was out of order that the call for the meeting stated that it was for the consideration of regular business. Mr. Moyle thought that it was pretty regular business, as it had been up before the board at nearly every meeting for the last year and a half.

Mr. Critchlow contended that the matter could not come up at that time under the rules. Mr. Moyle moved then that the rules be suspended, and the question be considered. He talked to some length, becoming very earnest at times. He thought that the order of the board prohibiting unvaccinated children from the schools was a farce; that the health board had made a play thing out of the public schools. He wanted to know why the school board had permitted the schools to be demorilized at the behest of the health board, when that body was absolutely afraid to enforce such an order in the sectarian schools and colleges of the city.

His motion to suspend the rules, however, was lost, the vote being five to five.

Mr. Bamberger stated his reason for not voting to suspend the rules. Although he felt that the school board had done its duty by the health board, he wanted time to consider the matter. He was in favor of opening the schools to all children, and said he would so vote at the next meeting. He thought that the responsibility of closing the schools should rest with the health board and not with the school board.

On motion of Mr. Moyle it was decided to hold a special meeting next Thursday evening for the purpose of considering the resolution offered by Mr. Geoghegan.

An opinion was received from State Superintendent A. C. Nelson, holding that the board's limit of indebtedness was measured by the taxes of 1900, and not 1901, the year as contemplated by the law, being the school year beginning July 1st, not the fiscal year. Mr. Critchlow was not satisfied with the answer, and at his instance the board decided to obtain the opinion of some eminent attorney, on the question.

Mr. Glauque reminded the board that the insurance on the school buildings expires on February 1st. The rate is $15 per $1,000. He thought that it could be reduced by competitive bids. The matter was referred to the committee on buildings and grounds, with power to act.

The committee on finance authorized the treasurer to issue a warrant in the sum of $17,650 for payment of the semi-annual interest on the school bonds.

A letter was received from David L. Murdock, protesting against the closing of the schools against unvaccinated children. The communication was laid on the table.

Appropriations were made, amounting to $3,365.85.

FEDERAL COURT.

The following cases were filed with the clerk of the Federal court. In all three cases the plaintiffs allege that they are owners of land at or near Plain City and also prior water rights to waters of the Ogden river. That the defendants, last summer appropriated the waters of said river to which plaintiffs had prior claim thereby ruining crops and otherwise injuring the property of the plaintiffs. Therefore damage and costs are claimed and judgment against defendants prayed for. In all three cases the defendant is William C. Weaver as receiver for the Bear River Irrigation and Ogden Waterworks company.

John Spiers, for himself and others, sues above defendants for $5,875 and costs.

James Hunt, for himself and others sues above defendants for $4,975 and costs.

William England, for himself and others, sues the above defendants for $4,700 and costs.

Albert Richardson filed an application in the Federal court, to be adjudged a bankrupt. His liabilities amount to $1,202.10, with assets of $1,202.25, part of which is excepted.

GUN PLAY LAST NIGHT.

"Tall Man" and "Short Man" Engage in a Bloody Fight.

It happened on the corner of State and Second South streets about 11:30 last night, the place where soldiers usually congregate to settle thehir disputes, and take their last drink before going back to the Fort.

The row was between a burly soldier and a very small comrade. The latter, however, knew more about the manly art than the big fellow and was rapidly carving the map of South America on his face when the "tall man" hauled out an ugly looking Colt's revolver. He didn't get a chance to shoot, for several comrades pounced upon him and seized the gun and loaded him on a car bound for the Fort. When the police arrived the soldiers had departed.

NOTHING ELSE CURES.

WHY PAINES' CELERY COMPOUND IS THE BEST REMEDY IN THE WORLD.

"When everything else has failed, Paine's celery compound has brought me back to health."

The thousands of instances where this has been said—the scores of people in every community who have told this simple story, the downright, hard, cold facts; the grateful acknowledgements of men and women who have suffered from the diseases that have their origin in impaired nervous systems and sluggish, impure blood—these are what have made Paine's celery compound far and away the one remedy above all others that physicians prescribe and the public indorse.

It is by merit, and merit alone that Paine's celery compound has achieved its wonderful pre-eminence, not only in this country but throughout the civilized world.

After the unfortunate person who is ailing because the blood needs new life, and the nerves require nature's food, finally tries Paine's celery compound, and gets immediate relief, another is added to the great multitude of people whose praise of this remedy has made the demand for it many times larger than that of all other remedies put together.

A person must have lost all confidence in his fellowmen who can read the following letter and not be convinced of the great benefit Paine's celery compound has done, is doing, and will continue to do for sck and nervous people wherever it finds them.

When a sick man or woman finds that he or she has taken a remedy that has actually done for him or her all that is claimed for it—it can be safely predicted what will follow. Every acquaintance, sick or well, will be told about it.

Gen. Rodriguez has written down his experience in the hope of helping others who may be so afflicted. The General is today connected with the civil government of Havana. During the struggle for Cuban independence he rose from the ranks to the grade of brigadier-general, and in 1896 won a decisive victory over Gen. Campos.

Gen. Rodriguez was a very sick man. He was as near nervous prostration as one can be and live. After five year's suffering his first good night's sleep came immediately upon his taking Paine's celery compound. His letters reads:—

"Dear sirs: For five years I had not had a good night's rest. I had a serious case of nervous prostration, my strength seemed to be leaving me, and I felt tired and weak all the time. My blood was impure and I suffered from pains in the back, constipation, and an inactive liver. I had no appetite and no ambition. I was constantly consulting physicians, and it seemed as though I was nearly ready to die. Providence sent me a bottle of Paine's celery compound, and this great remedy cured me of all the irritable symptoms with which I was afflicted. I can frankly and sincerely say that had it not been for Paine's celery compound, I would today either been in the cemetery or in the insane asylum. Among the many prominent people who testify to the virtues of Paine's celery compound are Santiago Rodrignez, M. D., J. M. Brancho, Edwardo de la Torre, Porfirio Masvidal, E. F. Gato, O. E. Pineda, Pedro Herrera y Hermanos A. Rincon, Andres Angulo, Aurelio de Varona Quesada. Very truly yours,

"GEN. J. M. RODRIGUEZ."

No remedy ever had the outspoken approval of men so highly esteemed in business and professional life. No remedy ever deserved so well of people in the ordinary walks of life. No remedy ever got such instant recognition from the discerning public. Its success has been confined to no one class of society.

POLICE SCOUT KING'S INNOCENCE.

Chief Hilton and Detective Sheets Talk of Hamilton-King Mix-Up, and Declare That No Mistake Has Been Made.

Is Robert L. King, alias "Bob" Martell, innocent of complicity in the murder of Col. Godfrey Prowse? Can it be possible that the police arrested the wrong man, or that King was wilfully "jobbed," out of a spirit of revenge for some real or fancied wrong? And, is it likely that E. W. Hamilton, who tried to kill three policemen Saturday morning, was a party to the bold attempt to rob the Sheep Ranch gambling joint on the morning of September 11th, 1900?

These are questions that are agitating the minds of many persons in Salt Lake. The questions are asked because it has been asserted that King is innocent, and that Hamilton is the guilty man. It has been charged that Detective George A. Sheets "hounded" and "railroaded" King to a death sentence because he (King) refused to act as a stool-pigeon for him.

This is a matter of which the public desires to know something, and the "News" has accordingly interviewed Chief of Police Hilton and Detective Sheets, in relation to the charges alluded to.

"Now, in regard to this man Hamilton," said Chief Hilton, "we know all about him from the time he arrived in Salt Lake. His name is not Hamilton, but Keefe—E. W. Keefe. He came here about two months ago from Iowa, and since his arrival we have kept a close watch on him. We are able to state most positively, that he had nothing whatever to do with the Sheep Ranch affair, and that he was not here on the night of the shooting. For some time he worked at a gambling house as a dealer. When Wattier's store was robbed we thought that he did the job, but we subsequently learned that he was working at the time the robbery was committed.

"Now, then," continued the chief, "if King is innocent, and Keefe is guilty, why does not Lynch say so? Lynch is quoted as saying that King had nothing to do with the affair, but why does he not come out and say who did assist him? If it was Hamilton, then why does he not say so? It is remarkably strange that Lynch has waited all this time to make a statement exonerating King, when such a statement at the time of the trial might have had some weight. It was a noticeable fact that neither of the defendants, Lynch or King, testified at their trial.

When Detective Sheets was asked for a statement he said: "The whole question was settled when twelve good men said that King was guilty. Those men did not convict King on anything but the evidence before them. They did not find him guilty because I wanted him convicted, or because I had a grudge against him. The idea is ridiculous. The statement wherein King says that I went to him and asked him to 'tip off criminals' to me, or he would be sorry for it, is a rank falsehood. I never spoke to the man in my life until the night before the shooting, and then he made a proposition to be my stool-pigeon.

"Now, I will tell you something that will show whether or not King is guilty: The night I arrested King I went to a certain man and asked him if he had seen King. I had Ed Janney watching the place, and when I left, this man went to King and told him that I was looking for him. King turned as pale as death, and started up the street as hard as he could go, and I arrested him. I took him over to the hall and never said a word to him. I didn't want him for the purpose of identifying Lynch, but for mixing up in the robbery.

"After the preliminary hearing, their attorney, C. E. Wanless said to me: 'Well, you have made no mistake.' Does that look like I "jobbed" them? Wanless then told him that Lynch said that it was King's brother who assitsed him in the robbery. He also tried to get Myers to change his testimony and Myers refused.

"As for Hamilton, or Keefe, it is quite likely that he knows King, for he has been chasing around with Johnson, King's former pal. But Hamilton was not in the Sheep Ranch job and King was. In that particular no mistake has been made."

Beat Out of an Increase of His Pension.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48, I contracted Mexican diarrhoea and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me." It is unequalled as a quick cure for diarrhoea, and is pleasant and safe to take.

This is What They Say.

Those who take Hood's Sarsaparilla for scrofula, eczema, eruptions, catarrh, rheumatism or dyspepsia, say it cures promptly and permanently, even after all other preparations fail. You may take this medicine with the utmost confidence that it will do you good. What it has done for others you have every reason to believe it will do for you.

Constipation is cured by Hood's Pills. 25c. 1

The fragile babe and the growing child are strengthened by WHITE'S CREAM VERMIFUGE. It destroys worms, gets digestion at work, and so rebuilds the body. Price 25 cents. Z. C. M. I. Drug Dept.

SENATOR CLARK IS COMING HERE.

President of New Road Will Spend Two Days in Utah.

T. E. GIBBON WILL ALSO COME

Vice President of Los Angeles Line, With Articles of Incorporation, to Arrive Here Next Week.

"Residents of Utah need have no fear that the San Pedro, Los Angeles & Salt Lake railroad will not be built," said one of the directors of that proposed company today. Continuing, he said: "For some reason or other there are some people who think that because the articles of incorporation have not yet been filed that the project is hanging fire. On the contrary, the promoters of the road have been working every day on the proposition; there has not been a day lost, and they have been working just as though the articles had been filed. Especially does this hold good at the California end of the line, where construction is being pushed with a will."

In course of further conversation he stated that the company had adopted the seventy-five pound rail for the track right through from Salt Lake to San Pedro, and that steel would be ordered from time to time as the work progressed. Senator Clark is expected to be in Salt Lake during the first week in February and will spend a day here and then go down to Ophir for another day to look into his mining propositions in that camp, after which he will go to Los Angeles, where he will meet with the Terminal directorate and the formal transfer of the valuable property of that road will be turned over to the new company on February 12th. Mr. Gibbon writes that he expects to be here, before Senator Clark arrives in Salt Lake, probably next week. He will bring with him all the necessary papers for filing, and it is on the books that the papers may be filed with the secretary of state on the occasion of Mr. Gibbon's visit here, and that the action will be subsequently ratified at the meeting which will take place in Los Angeles in the middle of February.

RAILROAD SHOPS.

City Council Passes Ordinance Closing Streets For the Western.

One of the last obstacles against the building of the shops for the Rio Grande Western was removed last night when the City Council, after keeping the subject on ice for the past two months, took up and passed, under suspension of the rules, the ordinance whereby the Rio Grande Western now has the right to close certain streets in the vicinity of the round-house and shops, thereby making it possible for the railroad to erect the projected shops, power plant and other improvements, which will be of so much financial benefit to Salt Lake. Without submitting the bill to any important amendments the measure was passed, with one dissenting vote—that of Buckle, who voted against the closing of Third South on the grounds that it led directly to the Jordan river bridge.

Under the ordinance public traffic will be debarred from all of Third South street from Fifth West to midway between Sixth and Seventh West; Sixth West from the south line of Second South to the north line of Fourth South. Fifth South from the west line of Fifth West to the center line of Sixth West, and the east half of Sixth West from the south line of Fourth South to the north line of Sixth South street. The major portion of the land embraced by the ordinance is owned already by the railroad company, and it is thought that just as soon as Mayor Thompson places his signature upon the document that work upon the digging of the foundations for the big shops will be pushed, provided the weather permits.

Big Rush to California.

Tourist traffic to California now is the heaviest in the history of the railroads' operations, the business from this city being extraordinarily large, says a Chicago paper. Reservations for sleeping car accommodations have been made for weeks ahead, and the railroads do not seem to meet the emergency by adding extra cars to the faster trains. Almost every day this month extra cars have been added to the Santa Fe "limited," and the Northwestern-Union Pacific's regular capacity has been taxed to more than its full capacity. George T. Nicholson, passenger traffic manager of the Santa Fe, said: "The traffic to California never has been heavier than it now is. Our limited is very popular, but even the other two daily trains have all they can do to accommodate the business."

SPIKE AND RAIL.

Vice President Bancroft of the Oregon Short Line is up at Boise.

Auditor Theron Geddes of the Rio Grande Western and family left for the East last night on a visit.

General Passenger Agents Heintz and Burley are expected to return from New Orleans this evening.

H. B. Worden, traveling freight and passenger agent, of the Frisco line, has gone to Denver on a business trip.

The Northern Pacific is said to be in the market for 400 cars, and the order will be placed within the next thirty days.

S. P. Myer, the railroad contractor who built the Colorado Midland, died yesterday at Louisville, Ky., at the ripe old age of 72.

The rate of one cent a mile made by the Western roads for the annual G. A. R. encampment at Denver next September has been cancelled.

The Order of Railway Conductors gave one of the swellest balls in the history of Pocatello last night. One of the incidents of the occasion was the fact that covers of 200 were laid in the Pacific hotel.

Owing to lack of space in the Dooly building for the freight department of the Rio Grande Western a portion of the hallway in the vicinity of the offices is being partitioned off to accommodate a number of shelves that are being put in for filing of documents and data connected with the freight department.

President Hill, of the Great Northern, is reported as having sent out notices to the heads of every department that he desires a detailed statement of all expenses. He is also said to be sharpening up the ax with the idea in view of curtailing all unnecessary expense around the departments.

The Southern Pacific has moved into its new and elegant offices on the street, 106 West Second South street. As the consequence the employes now interview patrons from the other side of a handsome quarter-sawed red pine counter. The office generally is fitted up in a style commensurate with the road and is in every respect up-to-date and abreast with the times.

The "News" acknowledges the receipt of four artistic books of views of New England scenes as issued by the Boston & Maine Railroad company. These handsome advertising souvenirs, which are entitled respectively, "Picturesque New England," "Mountains of New England," "Seashore of New England," and "New England Lakes," are comprised of a number of handsome half-tone pictures of scenes to be encountered in the vicinity of the tracks of the road, which has issued the albumns. The souvenirs are sent with the compliments of Traveling Passenger Agent A. P. Massey, who is spending a few days at the Kenyon.

INSURGENTS TAKE THE OATH.

Manila, Jan. 22.—The disallowance by the military board of the claims of Holman & Company, merchants of Iloilo, for damage and destruction of property during the period of appeasement, which findings have been approved by Gen. MacArthur, establishes a precedent against recompensing for similar property losses in the territory in which the war operations were conducted. Some claims, notably that of the Manila and Dagupan railroad, which are now before the board, will probably go to the court of claims at Washington and possibly eventually to Congress.

The oath of allegiance has been administered in a church at Vigan to over one thousand persons, who acknowledge they had contributed to the insurgent cause.

Chaplain Fitzgerald addressed the natives in Spanish. The parish priest translated his remarks into Ilocano and administered the oath.

About 400 persons in the vicinity of Malabon assembled in the church and on the plaza, have also taken the oath.

Gen. Grant has made many captures and arrests. At present he is on a scouting expedition with over fifty men. Those who are proved to be insurgents are held.

Battery I, of the Third artillery, has captured fifty armed men at Muntinupa. Various other minor captures and surrenders have been made in southern Luzon.

The Eleventh cavalry has arrived here on the transport Meade from Camarines. They will sail for home on the same ship February 1, as the Thirty-sixth infantry. The men who are to sail Saturday were reviewed and addressed this evening by General MacArthur. He thanked the soldiers enthusiastically for the part they had ably borne in the history-making epoch in the Philippines. He said they had sustained the traditions of a hardy and soldierly race and merited the plaudits of their countrymen on their return home.

Speaking of the various advantages of such occasions, General MacArthur said:

"The chief advantage is the engendering of a warlike spirit, without which no nation can continue to live, and by which alone a nation is created and made perpetual."

The Twenty-seventh regiment will sail February 5, and the Thirteenth February 15.

The Mother's Favorite.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take, and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult.

Persons who suffer from indigestion can not expect to live long, because they cannot eat the food required to nourish the body and the products of the undigested foods they do eat poison the blood. It is important to cure indigestion as soon as possible, and the best method of doing this is to use the preparation known as Kodol Dyspepsia Cure. It digests what you eat and restores all the digestive organs to perfect health. F. C. Schramm.

Whosoever has suffered from piles knows how painful and troublesome they are. TABLER'S BUCKEYE PILE OINTMENT is guaranteed to cure piles. Price 50 cents in bottles. Tubes, 75 cents. Z. C. M. I. Drug Dept.

Warner's Safe Cure Co.
Gentlemen: I highly endorse Warner's Safe Cure as a specific for kidney and bladder trouble. I used it last fall with very gratifying results.
Probably no one has a better opportunity to note the effects of different remedies than those connected with a hospital.
In talking with the different patients as to their experience I found a larger number who had been helped through the use of Warner's Safe Cure than anything else in the line of patent medicines, especially in cases of urinary diseases or malaria or liver troubles.
Yours truly,
WM. HACKE,
Hospital Steward,
U. S. Marine Hospital,
