

HOW IT IS DONE.

AND HOW IT IS NOT DONE WHERE THE TRULY AMERICAN RIGHT OF SELF-CHOICE IS PERMITTED.

There has been a good deal said of late about "the fastest trains in the world," and some in interest would have it appear that all the glory in this respect effulgated upon a single road. Indeed that one line absorbing everything there was in railroad life worth living for and all the others simply hanging upon a verge of despair as precarious as pitiable. Thus the situation, and because of it from the monopolistic standpoint, the full justification of a doubling of rates and extra charges generally anything but conducive to popular hilarity these days, when not only dollars but nickels count. In accordance with its characteristically American way of doing things, the Baltimore and Ohio long since established as an inviolable principle the system of an entire absence of exacting extras upon any of its trains, limited or otherwise. The B. & O. does not believe in privileged classes, has never been accused of aping exclusiveness, or in any manner whatever made it appear that there could be good and sufficient grounds for only doing its best in the matter of time and equipment when paid at double rates therefor. It is thoroughly well satisfied to run truly representative American trains, accepting for passage thereon regular tickets at the regular rates and maintaining a time schedule absolutely without parallel. A strong statement in the face of the loud boasts of competing lines of running "the fastest trains in the world," but a comparison of schedules from and to Washington proves it beyond cavil. The Chicago Limited leaving at 10 a. m., reaches destination next morning at 8.55, quicker than any limited upon any other road. The Cincinnati Limited leaving at 3.30 p. m., runs through in the wonderful time of sixteen hours, arriving 7.45 the succeeding morning, four hours ahead of any other limited. The St. Louis Limited is over an hour faster than any other limited to that city, as is also the Pittsburgh Limited. East-bound from all the cities named, the B. & O. Limited trains are equally advantageously run in every instance, making time unequalled by the limited train service of rival lines, and upon which the practice of making extra charges and doubling rates is as rigidly adhered to as it is not on Picturesque B. & O. The equipment of the latter line is in every way of the finest, trains running through solid and composed of magnificent new Buffet, Family-room, Sleeping, Parlor and Dining cars and elegant day coaches. On all the B. & O. Limited trains passengers go as they please, pay their money and take their choice, and not as upon other roads running limited trains, compelled whether or no to take and pay for what may be provided by those who know more what the passenger wants than he does himself.

IMPORTANT COLONIZATION SCHEME.

The Western Trail, published by the General Ticket and Passenger Department of the Chicago, Rock Island and Pacific Railway, for May, contains the following important statement:

"The International Immigrant Union of Chicago intends to colonize the Valley of the South Fork of Snake River, near Eagle Rock, Idaho, one of the prettiest valleys in the Great West, containing about 300,000 acres, and well adapted to the growth of wheat and other cereals, as well as of various fruits. The soil is about the same as the best ever known in California or Oregon, and the facilities for irrigation unsurpassed.

The company offers to locate settlers upon 80, 160, 320 or 640 acre farms, the settlers obtaining the same from the government at \$1.25 per acre, under the Desert Land Act, paying for the same twenty-five cents per acre, upon filing his or her application, and the balance, \$1.00 per acre, at the end of three years, or before, if water is brought upon the land in sufficient quantity to irrigate the same. This company controls the waters of the Snake River Water Co., having a carrying capacity of 100,000 inches of water, which can be increased as the demand increases. In order to enable the settler to file the necessary affidavit to procure his patent to the land, the company sells to each settler one or more shares in the Canal Company at \$10 a share, thereby making him interested in the irrigation scheme, and giving him a contract for all the water required to irrigate his land at \$1 per acre per annum.

The company has made special arrangements to convey settlers from New York, or Chicago and Omaha, via the Union Pacific, to Eagle Rock, via Oregon Short Line route, in four days from New York, three days from Chicago, and two days from Omaha.

The office of the International Immigrant Union has been located at 103 Adams street, opposite the post office, in Chicago, under the charge of Wm. H. Martin, manager, where full information and maps can be obtained, and arrangements perfected for transportation.

He was a faithful, consistent Latter-day Saint, and leaves a large family and numerous friends to mourn his loss.

OBITUARY.

CARD.—On Monday, May 11th, 1885, Emma B. Card, wife of C. W. Card, of Logan Second Ward, departed this life. The deceased lady had been sick for about six weeks, and her death was therefore not unexpected by her friends.

Emma B. Card was the daughter of William and Anna Matty Boothe, and was born at Appella, Gloucestershire, England, Sept. 22nd, 1837. She emigrated to Utah in 1859, coming across the plains with a handcart company, and was married on November 7th of the same year. In 1860 she moved, with her husband, to Cache Valley, where she has lived ever since. She was the mother of five boys and three girls, one boy and one girl being dead. Sister Card was noted for her kindness of disposition, and love for true and virtuous principles. She was a faithful wife, a kind mother, and withal a firm believer in the religion of the Latter-day Saints. We sincerely sympathize with the bereaved relatives of the lady.—*Utah Journal*.

DANGEROUS SUBSTITUTES

FOR

ORSFORD'S ACID PHOSPHATE

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their action.

One preparation that is being offered for sale, by the gallon, contains Meta- or P. Phosphoric Acid, which is declared to be the highest authority to be poisonous. The same preparation also contains Chlorine, which is a compound of Chlorine. "Horsford's" contains neither of these ingredients.

These "substitutes" are liable to be found at soda fountains, because of their cheapness.

AYER'S HAIR VIGOR

Restores the color, gloss, and youthful freshness of the hair; stimulates a rich and luxurious growth; thoroughly cleanses the scalp; prevents dandruff and humors; and is the most cleanly and effective preparation for the hair ever offered to the public. Rev. J. W. Davenport, Illinois Bend, Texas, writes: "Ayer's Hair Vigor, used in my family for several years, has no equal as a dressing, nor for preventing the hair from falling out or turning prematurely gray. It ranks among the first luxuries of our house."

Miss Kate Rose, Ingersoll, Ontario, writes: "While keeping my head clear of dandruff, and preventing Scald Head, Ayer's Hair Vigor has also caused my hair to grow luxuriantly, resulting in my now possessing hair forty-two inches long, and as thick as could be desired."

The wife of Dr. V. S. Lovelace, Lovelaceville, Ky., had very bad tetter sores upon her head, causing the hair to fall out. Ayer's Hair Vigor healed the sores, and in less than twelve months produced hair a foot long.

A CARD.

THE DESERET HOSPITAL, UNDER the most favorable auspices, is now open for the reception of patients, having removed to that large and commodious building lately occupied by the Deseret University. The appointments are new and of the first order. The halls and rooms are thoroughly ventilated, and warmed by a furnace and steam heating apparatus extending through the whole building. Good and capable nurses are supplied, and every attention paid to the comfort and welfare of its inmates. The medical department comprises a fine stock of drugs, and a line of some of the most valuable and elegant surgical instruments and appliances ever imported into the Territory. Arrangements have been made to secure the first medical talent the city affords for the benefit of patients. A specialty is made of the diseases of women, and correspondence is solicited from the afflicted.

No More Bald Heads.

To produce a new growth of hair on bald heads, in the case of persons advanced in years, is not always possible. When the glands are decayed and gone, no stimulant can restore them; but, when they are only inactive, from the need of some excitant, the application of Ayer's Hair Vigor will renew their vitality, and a new growth will result. L. V. Templeton, Newbern, N. C., writes: "After a protracted illness, with fever, my hair all came out, leaving me

entirely bald. I procured a bottle of Ayer's Hair Vigor, and, before I had used all its contents, a

thick growth of hair, nearly two inches long, covered my head." L. D. McKunkin, Perryville, Md., writes: "Baldness is hereditary in my family. Five years ago the hair on the top of my head was becoming weak and thin. I procured Ayer's Hair Vigor, the application of which invigorated the hair roots, and sent out a new growth of young hair. To-day my hair is as thick and vigorous as ever. I still use the Vigor occasionally to keep my scalp in a healthy condition."
