ADMINISTRATOR'S NOTICE

HAVING been duly appointed administrator of the estate of Levi Murdock, late deceased, by the Probate Court of Salt Lake County, Utah Territory:

Notice is hereby given to all the creditors of said deceased, and all persons having claims against said deceased or estate, that they are required to exhibit the same with the necessary vouchers to the undersigned, at the office of A. Miner, Esq., Second South Street, Salt Lake City, in said county, within ten months after the first publication of this notice, or the same will be forever barred. And all persons owing said estate are hereby requested to settle their indebtedness with the undersigned without delay.

JOHN W. MURDOCK,
Administrator of said Estate.

Oct. 25th, 1879 d25, 10 9 to 25, 11, 9

WATCHES JEWELRY

ABOUT three months ago all the watchmakers in this city agreed and subscribed to certain prices for work in their line, for the purpose of obtaining uniform and Cheap Rates. This agreement, however, has already been broken by several watchmakers, who are underselling their colleagues and thereby proving themselves untrue to their written word. In consequence of which, the undersigned has withdrawn his name from said agreement and established his own prices, Cheaper than any other Watchmaker's in Salt Lake City.

CLEANING WATCHES $1.50 A PIECE

And everything else in the line of

WATCHES and JEWELRY

Reduced in the Same Proportion.

Articles and Workmanship Guaranteed to Give Perfect Satisfaction.

CARL C. ASMUSSEN,

EASTERN.

INTERNAL REVENUE.

Report of the U. S. Commissioners on the Subject.

WASHINGTON, 25.—The Commissioner of Internal Revenue in his annual report predicts that the internal revenue taxes for the present fiscal year will reach $115,000,000. During the past year 3,117 illicit stills have been seized. He recommends that $100,000 be appropriated to stop illicit distilling. During the year ending June, 1879, $113,090,000 of internal revenue taxes were collected. The increase in receipts from distilled spirits is $2,140,000 over 1878. The increased production of distilled spirits is nearly $16,000,000. The report is very voluminous. The increase in manufactured tobacco is nearly 12,000,000 pounds, and 194,000,000 increase in the number of cigars and cigarettes. The number of persons arrested for illicit distilling was 6,366; 27 employees killed and 48 wounded while enforcing the revenue laws.

The Commissioner says: "It is clear to my mind that in some portions of the country for a considerable time to come, reliance cannot be placed upon the State courts for punishing citizens who commit murder or assaults to murder upon our officers, while engaged in the performance of their duties. It seems to me of the utmost importance that the United States should under its own laws and through its own courts, undertake the trial and punishment of persons who are guilty of assault to murder officers while in the performance of their special duties; and I have the honor to renew the recommendations made in my last report of the passage of such a law by Congress."

The increase in the number of legal distilleries, he says, will materially augment the expense for storekeepers and gaugers and will make it necessary that a deficiency appropriation be made for the present fiscal year of $200,000.

Fourteen million eight hundred and thirty-seven thousand five hundred and eighty-one gallons of spirits were exported during the year 1879, and the foreign demand is unabated.

Regarding the production and movement of distilled spirits during the first four months of the present fiscal year, the report says: It shows that the foreign demand of last year is steadily maintained, while the production is 2,794,148 gallons greater than for the corresponding period last year, and the withdrawal 2,958,950 gallons greater than for the same period last year. If the business of these four months is maintained during the rest of the fiscal year, which is scarcely credible, the production will be over 82,000,000 gallons, and the amount of taxes received will be over $45,760,000. There were during the year 5,442 distilleries [illegible] 5,347 operated. During the special tax year, ended April 30, 1879, there were 49,465,421 proof gallons of spirits rectified. The quantity of spirits withdrawn from distillery warehouses for export during the year was 14,837,731.

The following figures show the increase or decrease as to the various kinds of spirits exported in 1879, as compared with the year 1878: Increase in alcohol exported, 8,879,350 gallons; increase in rum exported, 430,490; increase in bourbon whiskey exported, 6,735; increase in pure neutral, or cologne spirits, 37,695; increase in miscellaneous, 1,229. Total increase, 9,354,989. Decrease in rye whiskey, 9,787; decrease in corn whiskey, 1,125; decrease in high wines, 5,718. Total decrease, 15,660. Net increase, 9,348,329 gallons.

As the principal increased demand for American spirits has been in those foreign ports, where they are best known, and as they have during the years 1878 9 become known in all the ports of the world, it is anticipated that the exportation of such spirits during the current fiscal year will be still greater than those made during the fiscal year ending June 30, 1878. Almost the entire increase of 9,354,389 gallons in the quantity of spirits exported in 1879, consisted in those varieties which had been subjected to several processes of distilling, re-distilling, purifying and refining, before being deposited in the distillery warehouse. This increased production of spirits is distributed among all the different varieties known to the trader except high wines, which decreased 1,378,333 gallons. The taxes paid on spirits withdrawn from the warehouse during the year 1879 aggregate $4,677,834. The receipts from fermented liquors for the year 1879 are shown to have increased $792,268 over those of 1878.

The Commissioner recommends an amendment to Sec. 3244 Revised Statutes, which will provide for an allowance of drawback on the worms of stills when exported.

Gould's Railroad Operations

ST. LOUIS, 25.—The *Post-Dispatch* publishes a full account of the proceedings at the meeting between Gould and eminent citizens to-day. Ex-Governor Stannard made a statement to Gould of the resources, growth and prospects of the city as a railroad centre and a distributing point. Gould replied that as long as he had the control of the railroads here he would work for the interests of St. Louis. He thought they had neglected their great river. It could be more utilized in the shipping trade. He didn't believe they were in a condition to handle all the grain that his roads expected to bring here. He believed that Kansas next year would produce 50,000,000 bushels of corn, all of which our roads could bring here as well as a great deal from Nebraska. He thought they should begin to provide means for its transportation. The committee were much pleased with his remarks about the river and are already maturing plans which were thought of some time ago for carrying out his suggestions, building tow boats, grain barges, etc., for a line between here and New Orleans. Gould goes to Kansas City to-morrow, thence to Omaha and Ogden.

The Peace Commission.

DENVER, 25.—Dispatches from Los Pinos, state that up to Monday the hostile Indians had not returned to that point though it was reported they were preparing to come in. Ouray said the hostiles were fearing trouble. The dispatches do not indicate that the commission expect to accomplish much more and it is reported that the plan of campaign has already been arranged. One column will march from Milk River and one from Utah, and two from the south. The commission is still barricaded and prepared to resist any attack.

A Large Contract.

The South Park & Pacific Railroad Co. let a contract to-day for the excavation of a tunnel through the main range of the Rocky Mountains at Alpine Pass, one-third of a mile long, and 11,000 feet above the sea level. The entire work on the road to the anthracite coal fields in the Elk Mountains, and the waters of Gunnison is to be completed by Sept. 1st, next. The letting of the grading, bridging and tying, is to be made in 30 days.

Texas Amusements.

GALVESTON, 25.—A *News'* special from Marshall says: The case of the State against James Currie, for the murder of actor Porter was called this morning. None of the State witnesses being present, the district attorney announced himself not ready and asked a continuance. Granted. The Court ordered the clerk to enter a fine of $500 each against Barrymore, Miss Cummins, and A. Harvey, they having forfeited their recognizance. The prosecution claim to have made every effort to find Harvey. The case will be called again in April.

A *News'* special from Austin says: A squad of rangers are after a band of highwaymen who have been operating in this vicinity, and have discovered their camp in the western part of the county. They waited for the robbers, and Dick Tuttle (supposed to be one of them) soon after approached. When within 20 steps he was commanded to surrender. He tried to use his carbine, and was shot and instantly killed by a ranger.

Catholic School Policy.

BOSTON, 25.—Announcement is made of the policy of the Roman Catholic Church in New England toward public schools. The archbishop has received the following advice of the Pope to a European bishop, and has directed all the priests in the Archdiocese of New England to at once establish parochial schools, and he threatens parents who refuse to patronize them with the terrors of the Church. In [illegible] public schools is thought to be particularly injurious to the Catholic youth, the priests are instructed to withdraw the children at once, even if there be no parochial schools in the vicinity.

Mining Litigation.

PUEBLO, Col., 25.—Litigation has broken out worse than ever over the Bull Domingo Mine of Silver Cliff. S. C. Shaffer, who sold the mine to Lent & Dorsey of New York City, in October last, was to have one-fourth of the mine and the parties attempted to freeze him out after securing the title to the property. He has attached the mine and asked for a receiver and brought suit for $200,000 damages. Ex-Governor Dorsheimer, of New York, has arrived to defend the suit, which is liable to drag along through all the courts.

Quieting Down.

LEADVILLE, 25. — Matters are quieting down, but guards patrol the city still, and a conflict between vigilants and plug uglies may be resumed on the slightest provocation. Twelve masked men last night entered a ball-room, singled out a man and examined his face, but released him, saying, "This is not our man." None of the parties warned to leave have gone.

Poisoned.

READING, Pa., 25.—Mrs. Huber and a six months old child were poisoned by arsenic in the soup. A step-daughter of Mrs. Huber is suspected of poisoning them. The child died, but Mrs. Huber will probably survive.

Yellow Fever.

NEW YORK, 25.—The brig, *John Walsh, jr.*, arrived at quarantine yesterday from Havana, having a seaman sick with yellow fever, John Rutherford, and another died November 19th and was buried at sea.

Missing.

PERRY SOUND, 25. — The tug *Millie Grew*, which went after the survivors of the foundered steamer *Wanbanno*, has not returned. The gravest fears are entertained for its safety.

WESTERN.

Desperate Fight.

SAN FRANCISCO, 24.—A Eureka (Nev.) dispatch of Friday afternoon, says John Chamberlain, in possession of Wood Ranch, thirty miles south of town, was attacked by Robert Brown, who claimed the property, supported by two other men, all armed with repeating rifles. Chamberlain's thigh was broken at the first discharge, but he maintained the fight on his knees with a six-shooter and two shot-guns, killing Brown, and at the same moment falling dead himself.

FOREIGN.

GREAT BRITAIN.

General News Concerning the Irish Arrests.

DUBLIN, 25.—The court room was packed to-day with spectators. Sullivan and Davitt appeared cheerful and fearless. Monroe, Queen's counsel, said if he could prove the utterance of Davitt's alleged words that "The manhood of Ireland should spring to its feet and say it would tolerate landlords and landlordism no longer," the magistrates would be bound to commit him. Police evidence was called to prove their utterance. Davitt, who had been occupied all the morning preparing a written defense, before commencing to deliver it, protested against Monroe's remark that he had already experienced the clemency of the Crown and declared that he was innocent of the charge of which he was convicted in 1870. Daly, since his release from jail, complains of his treatment while in prison. Monroe, in the course of his remarks, said that Davitt is probably the most dangerous of the Irish agitators, and especially pointed to his language comparing the Zulu assegai to the Irish pike. Davitt then began cross-examining the witnesses.

Davitt declared he had been convicted of Feinanism in England on the evidence of a professional perjurer. His cross-examination of the police witnesses failed to weaken the evidence against him. He was committed to trial, bail being accepted.

DUBLIN, 24.—A pastoral of Archbishop McCabe was read in all the Catholic churches yesterday, declaring that all must take part in bearing the burden of bad harvest in Ireland, but they must take care not to drive God from their side by the violation of His law. The pastoral also says: "Unfortunately, men, proclaiming sympathy for the people, are disseminating doctrines, which, if pushed to their logical conclusion, strike at the root of God, faith and mutual confidence."

The excitement through the west of Ireland shows no sign of abatement. Large meetings are being held in all populous places in the counties of Mayo and Sligo. Parnell, in addressing a large meeting last night in Sligo, asked the people to persevere in the agitation and remember his advice to keep a firm grip on the land.

There is some fear of a riot, as the municipal elections are being held and the Mayor is very unpopular. One hundred and twenty soldiers are under arms in the barracks and 100 additional police are in readiness. All the western districts are being strongly garrisoned.

Historical Position of Palestine.

The position of Palestine on the map of the world has fitted it and its successive peoples for a remarkable place in history. Here is a little country, with only eight thousand square miles, or two thousand less than our State of Vermont, which, if we measure it by the scope of its history, the remote antiquity of its literature, and the great forces it has started into irresistible movement, we must place among the foremost in the ancient family of nations. It is practically the meeting place of three continents—Africa, Asia and Europe. If Belgium is the "cockpit of Europe," where many of the chief battles of modern times have been fought, Palestine holds the same relation to the ancient world. Her plain of Esdraelon has been the battle-ground of nations and civilizations from Abraham's day to Napoleon Bonaparte's. This little country was the pathway of the nations on land, while on the sea [illegible] which planted colonies all around the shores of the Mediterranean, created Carthage, rival of Rome, and dared to send her ships as far north as Britain. There is something, too, akin to magnetism in this wonderful little land. It gave a certain measure of historical importance, and, indeed, of immortality, to every people and land it touched. Take from our knowledge of Egyptian history all we have learned from the Mosaic narrative, and there will be a marvelous diminution of the fund. It is only where Assyria in an early day came into relations with Syria that we get something of a definite knowledge of that great Oriental power. We find Rawlinson, in his *Five Monarchies*, and Wilkinson, in his *Manners and Customs of the Egyptians*, constantly appealing to and leaning on the Scripture history, to order to treat the subject in hand in consecutive form. It is Palestine that brings all great ancient countries within our vision. It is our best telescope for a view of the remote past. We read the fortunes of other peoples through her. Of right she did not possess the Greek language. It was foisted upon her through Alexander's conquest, and yet so carefully did she learn the new tongue that it became the receptacle for the new faith from Him of Nazareth, and the medium of its communication to the remotest shores known to men. Palestine long resisted Rome, and finally suffered destruction through Titus. Her acres and faith were bartered like a piece of merchandise, and were, in turn, owned by Canaanite, Jew, Assyrian, Greek, Syrian, Maccabean, and Roman. But in three centuries we find Bethlehem supplanting Rome. Christianity held the sceptre on the Seven Hills, and paganism became a thing of the country village, or *pagus*.—Dr. J. F. Hurst, in *Harper's Magazine for December.*
