THE DAUSMAN & DRUMMOND TOBACCO COMPANY'S

This 16 ounce army pound is marked into 16 equal spaces (1 x 1), each space representing an ounce. It being justly divided, the consumer is satisfied with his allotment, and the retailer knows that he has given neither too much nor too little; as he is liable to do where the lump is not so marked. This lump also renders it unnecessary for the retailer to have more than one package of Tobacco open at a time, as he can accurately cut any size lump needed from a 12 ounce lump down to a single thick pocket piece. It is the only plug of Tobacco marked for the benefit of the dealer and consumer. All others marked with tin wood, leather, or other tags, or in any other manner are so only for the benefit of the manufacturer.

It saves interest, as a single package gives the dealer the sizes he requires, it is not necessary to keep six or eight open at a time as is usually the case.

The manufacturer is able to make a better chew in a pound lump than in a smaller one for the same money. No loss can accrue from change of styles or variation in prices. Most dealers know by bitter experience how great an advantage this is. It is manufactured with the utmost care and each plug is perfect in chew and style.

For sale by all Wholesale Dealers.
