FUNERAL TRAIN OF SHRINERS

Pathetic Scenes and Incidents Mark the Passing of Unfortunate Wreck Victims.

ANOTHER PIPE LINE BREAK.

Rock and Land Slide Injures Water Way—Ogden Schools Praised by Idaho Supt. of Schools.

Ogden, May 17.—The funeral train carrying the dead and injured Shriners from Honda, California, en route to Reading, Pennsylvania, arrived in Ogden at 2:05 o'clock yesterday afternoon over the Southern Pacific and left over the Union Pacific 15 minutes later. Members of the Shriners' order of this city accompanied by their wives, also many other citizens, met the train at the Union depot and extended heartfelt sympathy to the sad passengers, and placed many flowers on the biers of the dead.

The train was composed of a baggage car containing the bodies of 29 of the victims of the terrible wreck, a buffet car, a diner and Pullman. In the Pullman are 21 members of the Rajah temple of Mystic Shriners and a few other passengers. Drs. George L. Brown of Buffalo and L. W. Oster of Cleveland, are on board the train to care for the injured. Among the saddest of the passengers is Mr. Henry J. Fisher, who is suffering with a broken arm, and mental anguish over the death of his wife and daughter. The train has had the greatest possible care since it started on the journey eastward. For the entire distance it will not suffer from the usual shaking of the trains. The most direct route is being taken to Reading, at which city the train will arrive the early part of next week. Most of the dead and

ANOTHER PIPE LINE BREAK.

Rock and Land Slide Damages U. L. & R. Co. Property.

Ogden, May 17.—Another break in the pipe line of the Utah Light & Railway company in Ogden canyon necessitated the turning off of the water and the shutting down of the power plant. The break occurred at a point near the Lewis grounds in the canyon. It was caused through a rock and earth slide from the mountain side, the force of which twisted the pipe and broke some of the staves so that the water leaked out so fast that it was found necessary to shut off the water entirely until the repairs can be made. It is expected that the repairs will be made by tonight so the machinery can be set in motion. Power for lighting purposes was received last night from Provo and Garfield.

FOREIGNERS BREAK FISH LAWS.

The practice of foreigners in fishing out of season is to be stopped by the officers of the law. Deputy Sheriff Wilson and Charles M. Vander Vlies yesterday afternoon made a trip along the banks of the Ogden river and caught three Italians named Charles, Alexander Lassene and J. B. Bolton, in the act of fishing. Two of the men flashed a license to fish issued by County Clerk Mattson, on the other two, but they did not work as they are both foreigners and had only a \$1 citizen's license, and the law for fishing is not yet out, so that even had they a non-resident's license they would not have been entitled to fish at this time. The case will be vigorously prosecuted by the county attorney.

Special Correspondence.

Cardston, Alberta, Canada, May 11.—Cardston is to have a daily train service, commencing Monday, the 13th. This is another step in the prospective advancement of this little corner of Alberta. It is also rumored that a general order issued by the railway company will soon be enforced, making a passenger rate of three cents per mile.

Farm seedling is practically over and spring weather has just begun to drive away the remnants of winter. The grain not stacked nor threshed last fall is now being garnered with but a slight damage so far as the milling quality is concerned, simply being a little off color.

The town council has decided to ask the tax payers for \$20,000 to extend the new electric light and water system. A public meeting is to be held in which a statement of the work already accomplished, expenditures, estimates and future plans will be presented to the management of the same, will be discussed freely, and no doubt, the new bonds will be authorized if the showing will only justify it.

There is a new business enterprise under way on north Main street, under the direction of H. R. Sloan and James Hampton. Nice, new and commodious quarters are being erected for them, and a general blacksmithing and implement business will be carried on.

A number of people are preparing to take advantage of the excursion rates in June, to visit friends and relatives in the south.

Another evidence of the stability of this country is the establishment of a "cash" system, to take effect June 1, in all kinds of business in this locality at least.

Since there is a ready market for all kinds of produce, the change from "credit" to a cash system will not be a great hardship upon the people, in fact, it will be a relief.

A branch of the Dominion Express company has recently been opened, with C. E. Snow & Co. bankers. By availing themselves of this office, the people here can buy orders for all foreign as well as domestic use.

RAYMOND, CANADA.

THRILLING RUNAWAY.

Joseph W. McMurrin Has Narrow Escape—Others Badly Hurt.

Special Correspondence.

Raymond, Alberta, Canada, May 12.—President Joseph W. McMurrin of the first council of seventy, Presidents William M. Palmer and Walter H. Jeffrey of the one hundred and forty-fifth council, were en route to St. Mary's on Saturday night to organize the one hundred and fiftieth quorum and after the meeting decided to return home. They were driving a very speedy car, being driven by Charles McMurrin's, which became frightened and dashed down the road, throwing Presidents Palmer and Jeffrey from the buggy but Mr. McMurrin was left in the back seat alone and unhurt, as the lines were dragging. On the team went into the darkness of the night and into a barbed wire fence, literally demolishing the buggy and throwing President McMurrin out on his right shoulder, but most fortunately, he was not seriously hurt. He said that he can barely see his hand now, but he was through the darkness into that fence.

President Palmer's arm was broken and President Jeffrey's face was badly cut up. It is a miracle that any of them are alive.

President McMurrin will be able to continue his labors and will fill his appointment to the Big Horn mission according to arrangements notwithstanding the accident.

The horses were severely cut and from their appearance it will take considerable time to repair the damage done them.

The weather is beautiful now and everything is donning its mantle of green which makes mother earth more pleasant to look upon, after the severe winter just passed. The people are in good health and the prospects are good for a large harvest.

Business is brisk and real estate is on the move, while there is no boom, things are lively.

ELECTION GOES DEMOCRATIC.

Suicide of Mr. Phastimmans—Wife and Two Children Survive Him.

Evanston, Wyo., May 15.—The municipal election held here yesterday resulted in a sweeping victory for the Democratic ticket, the present mayor, Charles S. Baker, and councilmen, W. C. Glick and J. G. Cameron, having been elected to succeed themselves. Considerable interest was taken in this election, and the entire Democratic ticket was necessary for a majority.

On Saturday evening word was received by telephone, conveying the intelligence that Mr. Phastimmans, one of the local oil men, had committed suicide while riding in the field. While particulars are very meager, it appears that the rash act occurred while under the influence of liquor. No cause can be assigned for the deed. He leaves a wife and two children, who have the sympathy of the community.

The Blyth & Fargo Co. has this week established the summer store at Highland, at the Heber Land & Livestock company, which for the benefit of the sheep men and the entire country vicinity. HAMMOND, N. MEX.

STRUGGLES OF PIONEERS.

Sturdy Frontier Settlers Establish Homes After Seven Years of Toil.

Special Correspondence.

Hammond, San Juan Co., New Mexico, April 27.—Hammond, a small town in the San Juan county, about 30 miles up the river from Fruitland, New Mexico, and about 100 miles up the San Juan river from the mouth of the river. The first Mormon settlers, John Adams, J. Joseph, John and their families, and William Adams, came here from Fruitland Feb. 17, 1890. Robert Gillespie and Almer Cox were already located here, following May James L. Deaton of Aurora, Sevier Co., Utah, and George W. Adams, Sen., and D. L. Huntsman of Ashley, Uintah Co., Utah, and their families arrived here. That same winter, Eldon and Ernest Young visited the settlement and promised the people that if they would stay here and be diligent and faithful, the ward would be organized. The leading ones in San Juan state.

On Nov. 25, 1890, Stake President Francis A. Hammond and Counselors William Halls and Wayne Redd came here and organized a ward, and James L. Deaton was chosen as bishop, with John L. Tenney and William White as counselors. In the evening of the day the ward was organized. President Hammond was fatally injured in a runaway, dying on the morning of Nov. 27. The ward was named in honor of President Hammond. Shortly after this, Counselor William White's wife died, and he moved away. Oct. 4, 1892, Bishop James L. Deaton died. April 26, 1893, John L. Tenney was chosen as bishop, with James Anderson and Milton H. Evans as counselors. Many settlers came, stayed a few years, and getting discouraged with the floods coming down a large canyon would leave away. Finally the church came to our assistance with the loan of \$25,000, and the other shareholders in the ditch put in their share of the money. An engineer was hired from Colorado, and work was begun April 4 on an underground barrel flume across Largo canyon, the flume being 21 inches on the inside, and 22 1/2 on the outside, 2 1/2 feet high.

The water came through the flume April 22, 1897. After seven years of toil and hardships, the sight of the water was a most cheering sight.

The settlers that are now here, are from all parts of the country. George Gale from Huntington, Utah, is superintendent of the Sunday school; Mrs. Martha Gale, being president of the Y. L. M. I. A.; Della Gale, from Wellington, Utah, is president of the Primary association; Lavina McDaniel from Arizona is president of the Relief society.

Osborne R. Nye, from Ogden, Utah, is president of the Y. M. I. A., and ward choir leader.

George W. Adams, Sen., D. L. Huntsman and Almer R. Cox are the only ones left here of the original settlers.

We have a fine climate, and can make all kinds of fruit, grain and vegetables, and now they have water, the people hope to make some nice homes. The "News" is always a welcome visitor here.

Special Correspondence.

Carey, Blaine Co., Ida., May 9.—A young man, John T. Davis, was drowned Monday morning in search for the body of John T. Davis, who was drowned the night before. They found the body floating in the water, the head about 18 inches below the surface of the water, and the hands clasped together as in the attitude of prayer, with head slightly bowed.

The funeral over the remains was held on Tuesday, attended by a very large company of friends of the deceased and his family. The remains were buried in the Carey cemetery. Appropriate and consoling, and eulogistic remarks were made by G. A. Condie, John Adamson, F. H. Eldredge and Counselor William F. Rawdon.

John Davis was born in the fourteenth ward of Salt Lake City Sept. 14, 1881. He returned from a mission to Australia about 15 months ago.
