

ARGENTINE-CHILIAN IMBROGLIO

Former Said to be Delaying Settlement of Difficulty.

MAKES IMPOSSIBLE DEMANDS

The Latter Will Not Accept Second Part of the Proposed Protocol.

New York, Dec. 21.—A dispatch from Valparaiso, to the London Times and New York Times says the Argentine republic delays the settlement of the difficulty with Chile by demanding as a condition of the withdrawal of her police from the district under dispute about which Chile is sensitive as the position in question overlooks the inlet from the Pacific, that the Chilean troops abandon the neighboring position on territory indisputably Chilean.

The demand, says the Times correspondent, is presumably made with a view to making a pretext eventually to question Chile's right to that territory.

STRANGE STATE OF AFFAIRS.

New York, Dec. 21.—A curious commentary on Chile's claim that the Argentine republic is delaying the settlement of the dispute between the two countries is the fact that in the arbitration arranged Argentinean's case was all finished many months ago, filling seven fat volumes, while the British commission was unable to make a decision because Chile's case was not yet presented, says the London correspondent of the New York Times.

As for Chile's hope of Great Britain's good offices if it means fresh mediation it is unlikely that this will be offered until it is certain that both sides desire it.

The foreign office says it is without information in this latest outbreak of the old quarrel save that in the press dispatches.

It seems likely that both sides are equally blameable and that Chile is chiefly anxious for sufficient delay to enable her to finish her roads in the disputed territory.

PROPOSED PROTOCOL.

New York, Dec. 21.—According to the Buenos Ayres, Argentine, correspondent of the Herald it is now asserted that the Chilean government has informed Minister Portela that Chile will not accept the second part of the protocol proposed by Argentina, to the effect that Chile is only empowered to maintain a police force in Ultima Esperanza.

The government has authorized Minister Portela to reject the Chilean basis of settlement. It is therefore probable that Minister Portela will leave Santiago if Chile does not make a better proposition.

Must Pay Duties in Gold.

New York, Dec. 21.—A dispatch to the Herald from Buenos Ayres says: It is reported that the government has decided to order that the payment of duties be made in gold instead of in paper at the daily exchange.

Berlin Electric Railway.

New York, Dec. 21.—In a few days the Berlin electric elevated railway, the first undertaking of its kind on the continent of Europe, will be opened for traffic, cables the London correspondent of the Tribune.

The Marfels Collection.

New York, Dec. 21.—Gen. Louis P. Di Censola, director of the Metropolitan Museum of Art, in an interview said that he had not heard anything about the report that J. Pierpont Morgan was to buy the Marfels collection.

"I never recommended Mr. Morgan or any other trustee to buy it, and I never will," said Gen. Di Censola. "It is an interesting collection but I did not even try to have it exhibited here. The owner repeatedly asked for permission, and I finally gave it. Such reports hurt the museum."

The Marfels collection of watches, which is owned by Richard Hoffmann, and loaned by Eugene Seligmann, is valued at many thousands of dollars. It contains many interesting and valuable specimens of watches of various dates and designs. It was exhibited at Berlin recently, and a statement was published that considerable comment was caused there because the collection was allowed to go out of the country.

Too Soon for Amnesty.

New York, Dec. 21.—Discussing the South African war the London correspondent of the Tribune quotes the Globe as follows:

The Globe thinks the time has not arrived for discussing amnesty, and raises its voice in protest against Mr. Asquith's attitude in the policy now being pursued toward the South by the North at the end of the American civil war. The question of amnesty mainly concerns Cape rebels and that paper sees no point of resemblance between their position and that of the soldiers of the South.

Brussels Sugar Conference.

New York, Dec. 21.—The Brussels correspondent of the London Times and New York Times says the interval between now and January 6, when the sugar conference resumes, will be utilized for an exchange of views between the various governments on the result of the sittings already held. So-called authorized statements regarding the position of the negotiations are officially denied. The Belgian agriculturists, who depend chiefly on the cultivation of beet root, have addressed a petition to the chamber of deputies praying the government to reduce its pledge to distribute among the producers the surplus receipts of the sugar excise duties above specified sum.

The Paris correspondent of the Times says it is semi-officially stated that the sugar conference has accepted no pre-conceived plan and is perfectly unfettered.

Texas Penitentiary Purchase.

Houston, Tex., Dec. 21.—Gov. Sayres has returned from a visit to Brazoria county, where a meeting of the penitentiary board will be held. It is announced that he has definitely decided to purchase for the penitentiary the Clemens farm of 2,500 acres and to erect thereon a sugar mill to cost \$25,000 or \$30,000, the plantations owned by the state now comprising 5,000 acres, to be devoted solely to the raising of sugar cane, and convict labor to be employed in the mill. This will remove all convict labor from railroads and other contract employment. The mill will be built next year.

Report of Referees in Bankruptcy.

New York, Dec. 21.—The official report of the investigation undertaken by the executive committee of the National Association of Referees in Bankruptcy,

SISTERS OF CHARITY

RELY ON PE-RU-NA TO FIGHT CATARRH, COUGHS, COLDS, GRIP.

Peruna for coughs and colds in children.

SISTERS OF CHARITY

All Over United States Use Pe-ru-na for Catarrh.

From a Catholic institution in Ohio comes the following recommendation from the Sister Superior:

"Some years ago a friend of our institution recommended to us Dr. Hartman's Peruna as an excellent remedy for the influenza of which we then had several cases which threatened to be of a serious character.

"We began to use it and experienced such wonderful results that since then Peruna has become our favorite medicine for influenza, catarrh, cold, coughs and bronchitis."

SISTER SUPERIOR.

Dr. Hartman receives many letters from Catholic Sisters all over the United States. A recommendation recently received from a Catholic institution in Detroit, Mich., reads as follows:

Detroit, Mich., Oct. 8, 1901.

Dr. S. B. Hartman, Columbus, Ohio: Dear Sir:—The young girl who used the Peruna was suffering from laryngitis, and loss of voice. The result of the treatment was most satisfactory. She found great relief, and after further use of the medicine we hope to be able to say she is entirely cured."

SISTERS OF CHARITY.

This young girl was under the care of the Sisters of Charity and used Peruna for catarrh of the throat, with good results as the above letter testifies.

Another recommendation from a Catholic institution of one of the Central States written by the Sister Superior reads as follows:

"A number of years ago our attention was called to Dr. Hartman's Peruna, and since then we have used it with wonderful results for grip, coughs, colds and catarrhal diseases of the head and stomach.

"For grip and winter catarrh especially it has been of great service to the inmates of this institution."

SISTER SUPERIOR.

"I can testify from experience to the efficiency of Peruna as one of the very best medicines, and it gives me pleasure to add my praise to that of thousands who have used it.

"For years I suffered with catarrh of the stomach, all remedies proving valueless for relief. Last spring I went to Colorado hoping to be benefited by a change of climate and while there a friend advised me to try Peruna. After using two bottles I found myself very much improved. The remains of my old disease being now so slight, I consider myself cured, yet for a while I intend to continue the use of Peruna.

"I am now treating another patient with your medicine. She has been sick with malaria and troubled with leucor-

rhoea. I have not a doubt that a cure will be speedily effected."

MOTHER SUPERIOR.

These are samples of letters received by Dr. Hartman from the various orders of Catholic Sisters throughout the United States.

The names and addresses to these letters have been withheld from respect to the Sisters but will be furnished upon request.

In every country of the civilized world the Sisters of Charity are known. Not only do they minister to the spiritual and intellectual needs of those with whom they come in contact, but they also minister to their bodily needs. They are as skilled as trained nurses in their treatment of disease, and are looked upon as messengers of good cheer by countless patient sufferers.

One-half of the diseases which afflict mankind are due to some catarrhal derangement of the mucous membrane lining some organ or passage of the body. A remedy that would act immediately upon the congested mucous membrane, restoring it to its normal state, would consequently cure all these diseases. Catarrh is catarrh wherever located, whether it be in the head, throat, lungs, stomach, kidneys, or pelvic organs. A remedy that will cure it in one location will cure it in all locations.

case came up for hearing a week ago. Today Atty. Hodge, for the defense was endeavoring to break down the testimony of Agnes Wilson, a witness for the prosecution, when the court objected to the line of questioning, saying:

"There will be no such conduct in this court while I am on the bench."

"Well, you won't be there long," retorted Atty. Harris.

"I will be here until my term is up," replied the court, "unless some of you assassinate or shoot me from behind."

At this point Atty. Baker, of counsel for the defense remarked: "Well, that's a nice remark for a man to make on the bench. There is no man here that wants to assassinate you. I can prove by a dozen witnesses that Courtwright (a previous witness) said that he came down from the stand to kill me and he would have done so had the sheriff not interfered."

After some further heated remarks from both sides the whole subject was dropped without apologies from either of the contending parties.

TO PUNISH CYCLISTS.

France Will Deal With Those Who Cause Accident and Run Away.

New York, Dec. 21.—The French chamber of deputies, says the Paris correspondent of the London Times and New York Times has agreed to a bill inflicting from six days to two months imprisonment with a fine of from sixteen francs to 500 francs on any cyclist or motor car driver who, after causing an accident, attempts to run away.

Germany and Venezuela.

London, Dec. 21.—The Berlin correspondent of the Standard claims to have the best authority for saying that Germany and the United States have arrived at an agreement on the subject of Venezuela's indebtedness to Germany. Except the permanent occupation of Venezuela territory, says the correspondent, Germany may choose her own means of enforcing the payment of the claim of the discount company against the Northern railroad.

Weekly Reviews Indorse Roschery.

London, Dec. 21.—The weekly reviews will indorse Lord Roschery's Chesterfield speech with a singular unanimity. But the ironical speaker will indignantly repudiate the suggestion that any one is capable of replacing Sir Henry Campbell-Bannerman in the leadership of the party.

The Spectator, the Outlook and the Saturday Review while differing slightly in discussing Lord Roschery's pronouncement from their varying political standpoints will agree that he has struck one clear note amid the discord of the opposition. A point upon which each of these reviews will strongly insist is that in order to become an effective leader Lord Roschery must leave the easy seclusion of his library, face the disagreeable features of a campaign, and wrest the leadership from its present holders.

Depew Arrives in Paris.

The funeral procession traversed the principal streets of the walled cities of Tung Chow. There were seventy coffins to be buried, and these were followed by hundreds of relatives of the victims. The procession was composed of a company of Chinese cavalry, a company of infantry, a band and several hundred men carrying funeral caskets.

To Test Ives-Saxon Law.
