A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R. R.

IS THE GREAT CONNECTING LINK BETWEEN THE EAST AND THE WEST.

Its main line runs from Chicago to Council Bluffs and Omaha, passing through Joliet, Ottawa, La Salle, Geneseo, Moline, Rock Island, Davenport, West Liberty, Iowa City, Marengo, Brooklyn, Grinnell, and Des Moines, (the capitol of Iowa) with branches from Bureau Junction to Peoria; Milton Junction to Manitou, Washington, Fairfield, Eldon, Belknap, Centreville, Princeton, Trenton, Gallatin, Cameron, Leavenworth and Atchison; Washington to Sigourney, Oskaloosa and Knoxville; Keokuk to Farmington, Bonaparte, Bentonsport, Independence, Eldon, Ottumwa, Eddyville, Oskaloosa, Pella, Monroe and Des Moines; Des Moines to Indianola and Winterset; Atlantic to Audubon and Avoca to Harlan. This is positively the only railroad, whose controls and operates a through line between Chicago and Kansas.

This Company own and control their Sleeping Cars, which are inferior to none, and give you a double berth between Chicago and Council Bluffs, Leavenworth, or Atchison for Two Dollars and Fifty Cents; and a section for Five Dollars, while all other lines charge between the same points, Three Dollars for a double berth, and Six Dollars for a section.

What will please you most will be the pleasure of enjoying your meals, while passing over the beautiful prairies of Illinois and Iowa, in one of our magnificent Dining and Restaurant Cars that accompany all through Express Trains. You get an entire meal, as good as is served in any first-class hotel, for Seventy-five cents; or you can order what you like, and pay for what you get.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes, (and the enormous passenger business of this line warranting it) we announce that this Company runs its PALACE SLEEPING CARS for Sleeping purposes, and its PALACE DINING CARS for Eating purposes, and does not run Hotel Cars.

PALACE CARS are run through to PEORIA, DES MOINES, COUNCIL BLUFFS, ATCHISON and LEAVENWORTH.

Tickets via this Line, known as the "Great Rock Island Route," are sold by all Ticket Agents in the United States and Canada.

For information not obtainable at your home ticket office, address,

EVENING NEWS.

Saturday, - - January 31, 1880.

BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.

FORTY - SIXTH CONGRESS.

CONGRESSIONAL.

HOUSE.

WASHINGTON, 30.—Acklen rising to a personal explanation read extracts from the Detroit *Post* and New York *Herald* charging that by the report on the Nicaraguan claims bill made in the absence of the committee of foreign affairs, of which Acklen was not a member, he had misrepresented that committee, Acklen claimed that the statement was false and asked that said committee investigate. Granted.

Valentine asked leave to offer a resolution that the post office deficiency bill with the exception of the star service items be reported by Feb. 5th.

Blackburn objected.

Private bills being called for Knott introduced the petition of Wm. B. Talleaferro, of Virginia, for the removal of political disabilities.

Conger objected that the petitioner spoke of the war between the Southern States and the United States" instead of the "war of the rebellion."

The Speaker thought there was no ground for objection and the bill finally passed 172 to 53. A number of republicans voted aye.

After other debate on private bills the House adjourned.

SENATE.

Hearing on Colored Sugar.

WASHINGTON, 30.—The hearing of the sugar question was continued this morning by the committee on ways and means. Henry A. Brown, ex-Treasury agent, concluded his statement with experiments and demonstrations, showing how high a grade sugar can be artincally colored so as to make it represent at a low grade under the Dutch standard. On being asked by Garfield what course he would recommend the committee to adopt he said he would recommend the committee to allow the present tariff on sugar to remain as it is, Dutch standard and all, and to add to the power of the Secretary of the Treasury authority to employ polarization which discovers immediately the cristalizing strength and consequent market value of the sugar and also to employ analysis in order to detect other ingredients in the export of fine sugars. In addition to that he suggested that all sugars of all grades should be ground and brought to a consistency of the Dutch standard before being approved. French, Assistant Secretary of the Treasury, made a statement as to the reasons which impelled the Secretary of the Treasury to issue orders in regard to the appraisment of sugar which has been so much complained of by importers. He gave a history of two sugar cases, one in San Francisco and one in Boston, in which the question of artificial discoloration of sugar was tried before the courts, and from the decisions in which cases he deduced the principle that the Treasury department was not only justified but required to go behind the apparent coloring of sugar and ascertain its real value. Since the adoption of the Dutch standard, the methods of manufacturing sugar have changed. The Dutch standard is not a true standard, even if sugar is honestly made. French produced and read to the committee letters written by Nathaniel McKay, who had appeared before the committee two days ago and testified there was no fraudulent coloring of sugar in Demerara, to Sir Michael Hicks Beach, English Colonial Secretary, on the subject of his (McKay's) visit to British Guiana, in which letter he stated he had been invested by the committee of ways and means with semi-official authority to make a thorough investigation into the machinery and processes of making sugar in Demerara, with the single purpose of establishing the fact, whether the artificial coloring of sugar was practically there, and that his examination had proved a complete vindication of the planters of Demerara, and that when Congress convened he would submit his report to the committee on ways and means.

Garfield asked the chairman whether McKay had gone to Demerara as the agent of the ways and means committee.

The Chairman stated McKay had never been, either directly or indirectly, either officially or non-officially; authorized by the committee on ways and means to go to Demerara or anywhere else. Garfield further enquired whether any member of the committee knew of McKay's having been deputated for such a case. Kelly said he did not know it, but he knew this, when McKay was going to Demerara he had a note from him (Kelly) and from another member of the committee asking him (McKay) to bestow, while in Demerara, such attention as he could to the sugar question, and to investigate. He thought probably the chairman had given McKay such a letter. The chairman stated at the last session of Congress McKay called on him with a letter from Kelly which purports to be an endorsement of him (McKay) as to his intelligence and integrity and fitness for such a duty, that he had asked his concurrence in the matter which he (the chairman) had refused. Subsequently, however, at the instance of Kelly he had stated, in writing, that any information that could be procured relating to the sugar question would be of service to the committee. The chairman asked McKay whether he had had any other authority than those letters. McKay replied that was all the authority he had had, but he thought that was sufficient authority for him as a citizen of the United States visiting Demerara, to make the inquiry which he had made. He should like to state what he knew as to what Mr. French had done in regard to the Demerara people. He wanted to say that French had in the custom house of New York, two men from Demerara who had stolen money from a sugar estate, and that he had put them there six years after the decision of Perot's case in Baltimore.

The further discussion of this matter, which threatened to become rather personal, was forbidden by the committee.

Further inquiry from French elicited the fact that the report of the commission appointed by the colonial authorities of Demerara, established, conclusively, the practice of fraudulent coloration of sugars there, and was in direct contradiction of McKay's report. The effect of the recent Treasury orders as to the appraisement of sugar, had been very favorable to the revenue. Adjourned.

Central Committee Work.

The Senate committee on census met to-day and received reports from several sub-committees on nominations of census supervisors. The appointments were reported back favorably from the sub-committee for all the Western States except three for Illinois, one for Iowa and one for Tennessee, which are held by the sub-committees for further inquiry. It was agreed by common consent that all nominations reported from the sub-committee to-day, in regard to none of which there is any question, of personal fitness of the nominee, shall be immediately reported back to the Senate with recommendation for confirmation, but at the same time several democratic members of the committee took the ground that one-half of the census supervisors throughout the whole country ought to be selected from the democratic party, and they therefore reserved the right to disregard to-day's action of the committee. When the nominations come up for consideration in the Senate, indications are strong that a movement will be made to hang up all the census nominations for the present with the view to forcing an equal division of these appointments between these two great political parties.

The following letter of the Secretary of the Treasury in regard to the repeal of certain permanent and indefinite appropriations, has been addressed to Hon. H. G. Davis, chairman of the Senate committee on appropriations:

SIR.—Referring to the Senate bill No. 886, for the repeal of certain laws relating to permanent and indefinite appropriations, recently submitted for the expression of my views regarding its provisions and for a statement of the appropriations which will be affected thereby, I have the honor to state that while the system of annual appropriations which gives to Congress proper supervision of all appropriations and expenditures is undoubtedly correct, its general adoption should not have been forced without allowing sufficient time for proper consideration. I would respectfully recommend that the date of the repeal be changed, to take effect from and after June 30, 1881, which it is believed is as early a date as would be wise to adopt for the repeal of so large a class of appropriations.

In response to a resolution recently adopted by the House of republicans, the Secretary of the Navy to-day sent to that body a mass of statistical information, giving the facts and figures already published in California, showing the extent which the channels leading to the Mare Island navy yard have been filled up by deposits of mining debris. Secretary Thompson, in his letter transmitting this information, recommends that provision be made by Congress for the appointment of a commission of able government engineers to make a thorough personal examination of the shoals, etc., to investigate the causes and to report what remedy should be employed. In substance he recommends the authorization of such thorough scientific investigation of the whole subject as would practically commit the Government to a policy of appropriating means to carry out the Commissioner's plans.

The House committee on invalid pensions, on motion of Caldwell, unanimously agreed to-day to the following resolution to govern the consideration by the committee of invalid pensions:

Resolved, That all pension claims of an invalid character shall be reported to date from discharge, where disability was incurred previous to discharge, and where disability was incurred subsequent to discharge from date of disability, and all gratuitous pensions shall date from the passage of the act. All widows' penston, where the husband had been a pensioner, shall date from the death of the husband, and where the husband had not been a pensioner from the date of disability.

Secretary Sherman was before the Senate finance committee to-day in response to their invitation for an oral expression of his views on the funding questions and other points. The Secretary's remarks, aside from the repetition of his well-known views in regard to funding, were, for the most part, simply an exegis of his last annual report and of accompanying finance exhibits for the year 1879. The conference was not concluded to-day, and the Secretary will appear before the committee next week.

The House committee on war claims agreed to report favorably upon Representative Thompson's bill to declare the true intent and meaning of the act approved June 1872, which provides for reimbursing the State of Kentucky for monies expended in equipping, paying, transporting, etc., militia, for the purpose of aiding the suppression of the rebellion. The object of the bill includes the settlement of expenses incurred under the head of arming, such being the intention of Congress in passing the original act.

Morris, of New York, appeared before the select committee of the House on the inter-oceanic canal to-day, in advocacy of the superior claims to the consideration prescribed by the Nicaragua route. It is understood that Admiral Ammen has been invited to meet the committee on Friday and give his views on the general subject.

Sonora Colonization.

NEW YORK, 30.—The *Tablet*, a Roman Catholic organ, publishes this week an article on the Sonora colonization, and calling attention to a letter and advertisement of the Sonora Land and Mining Company, says it will be seen that this movement is of great importance. It is made in the interest of peace, and has no element of filibusterism, violence or even of annexation in its construction or being, or it would not be worthy of our approbation. But we have good reason to believe that it will prove an auspicious enterprise for the State of Sonora, and that such a body of colonists will be a valuable accession to our sister republic. One of the founders of the colony is Samuel Brannan, who was the chief founder of San Francisco, and recently rendered such valuable aid to Mexico in her troubles, that he is justly regarded as one of her best friends. The members of the colony are picked men, all of whom have not much to lose and everything to gain, for they go with their families, and such men as these are sure to succeed. They are the safest and surest men to build up civilization. Brannan is too well known in Mexico to excite any alarm or jealousy in its administration, and its people are friends of a pure Christian civilization. Success to his colony.

The Sonora Colonization Association of New York is auxiliary to, but independent of, the association in California. Its directors are Wisner H. Townsend, Geo. B. Ripley Wm. H. A. Brown, C. E. Lester, J. W. Harker, R. G. Berford, Arthur Brown, Edward C. Kemble, Samuel Brannan, George S. Scofield, Jr. At a meeting of the directors on Thursday, the following officers were elected: President, Edward C. Kemble; vice-presidents, Wisner H. Townsend; R. G. Berford, John W. Harker, Wm. H. A. Brown; treasurer, C. Edwards Lester; corresponding secretary, Arthur Brown; secretary, Samuel Brannan.

Colorado Politics.

LEADVILLE, 30.—The *Democrat* of to-morrow will contain letters and interviews with all the leading democrats and republicans of Colorado, including the congressional delegation, on the presidential question. The republican sentiment is divided in a ratio about 31 for Blaine, 23 for Grant, 15 for Sherman, one for Hayes, two for Washburne and one for Hartzanft. The majority of Grant men favor Blaine as second choice. The democratic opinion is almost equally divided between Tilden and Bayard, with Field of California next and Seymour, Hendricks, Pendleton and Hancock about even. The republican opinion on how the Colorado delegation will vote is about evenly divided between Grant and Blaine.

To-morrow, the *Daily Herald* of this city will contain a report of interviews with 1,940 representative republicans of Colorado on their first choice for the presidential nominee of the Chicago Convention; the result is; Blaine 1,026, Grant 886, Sherman 34, Conkling 3, Washburne 7, Garfield 3.

WRITING and BOOKKEEPING

CLASSES in the above studies will be started in the Deseret University, on Monday, January 26, from 2 o'clock to 3.30 on each Monday and Thursday.

For term of 20 lessons,.....$5.

INVALIDS

AND OTHERS SEEKING

HEALTH,

STRENGTH AND ENERGY,

WITHOUT THE USE OF DRUGS, ARE REQUESTED TO SEND FOR THE ELECTRIC REVIEW, AN ILLUSTRATED JOURNAL, WHICH IS PUBLISHED FOR FREE DISTRIBUTION.

IT TREATS UPON HEALTH, HYGIENE, and Physical Culture, and is a complete encyclopedia of information for invalids and those who suffer from Nervous, Exhausting and Painful Diseases. Every subject that bears upon health and human happiness, receives attention in its pages; and the many questions asked by suffering invalids, who have despaired of a cure, are answered, and valuable information is volunteered to all who are in need of medical advice.

The subject of Electric Belts *versus* Medicine, and the hundred and one questions of importance to suffering humanity, are duly considered and explained.

The ELECTRIC REVIEW exposes the unmitigated frauds practiced by quacks and medical imposters who profess to "practice medicine," and points out the only safe, simple, and effective road to Health, Vigor, and Bodily Energy.

Send your address on postal card for a copy, and information worth thousands will be sent you. Address, the publishers,
