

# HARD IS WAY OF TRANSGRESSOR

January, Escaped Convict Who  
Reformed and Became Good  
Citizen. Sent Back to Prison

## BONAPARTE GIVES REASONS.

As Matter of Public Policy Considers It  
Important to Discourage Attempts  
To Escape Among Prisoners.

Washington, May 8.—Atty. Gen. Bonaparte today recommended that the sentence of John William January, alias Charles W. Anderson, be commuted. He recommends that the sentence be fixed at three months from the date of his re-arrest and that he be pardoned at the end of that time, namely July 19, 1907.

The president has approved the attorney general's recommendation. The attorney general in a memorandum submitted to the president makes the following comment upon the case: "I consider it very important, as a matter of public policy, to discourage attempts to escape among prisoners. Such attempts impair the discipline of penal institutions, expose their officers to dangers and, when successful, seriously weaken the salutary deterrent effect of punishment for crime. As against this must be weighed the eminently beneficial effect, as a matter of public policy, of encouraging the reformation of convicts. The orderly and law-abiding life of the petitioner cannot, indeed, be regarded as equivalent to meritorious public service in the army or navy, but it is very desirable that men in a situation like this should have an inducement to lead such a life. I think the petitioner ought to serve some appreciable time in prison to show clearly that, as a matter of strict right, he still belongs there, but I also think this period may be appropriately made a short one."

## AS PRISONER SAW IT.

Leavenworth, Kan., May 2.—Mr. R. W. McCaughy, warden of the federal penitentiary here, had not up to 12:30 received official notice from Washington of the action there, but I also think this period may be appropriately made a short one."

Warden McCaughy did not finally agree to an interview with the prisoner, saying it was against the rules, but himself read the dispatch to January, first warning him that it was not official. January received but little attention at first, but when the import of the message was realized tears came into his eyes. He had built up his hopes and expected an immediate pardon. "I am not worried about myself," said he, as the tears began to flow freely down his cheeks, "but it will be a great hardship to my wife and child."

January said he supposed the officials at Washington feared that if he were granted an absolute pardon now a bad precedent would be established, but he was still clearly disappointed. January was led back to his cell crying.

## TERRIBLE BLOW TO WIFE.

Kansas City, May 8.—When the Associated Press dispatch from Washington was read to Mrs. Charles W. Anderson here today the woman broke down and wept.

Mrs. Anderson, slight of build and overbrought by the strain through which she had passed since her husband's arrest, April 19, was engaged in making preparations for the coming of the husband and father, which she confidently expected would be today. Neighbors had come in to take care of the 2-year-old child, so that the little woman could pay her entire attention to "getting things in shape for Charlie."

Mrs. Anderson's eyes brightened when told that definite news regarding her husband's case had been received.

## DID YOU TAKE IT?

If you have not already done so, get from any good pharmacy the following:

Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Mix by shaking well in a bottle and take for each dose one teaspoonful of the mixture after your meals and at bedtime; also drink plenty of water.

This is the most simple though remarkable prescription ever written to cleanse the blood of impurities and waste matter, and now is the time to take it. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, bladder and urinary troubles and the hundred and one other miserable afflictions resulting from sour, impure blood.

A well-known local druggist states that never to his knowledge has there been any such valuable advice offered a community, and predicts this will prove shortly one of the healthiest places in the world. Men and women of all stations of life are making up the prescription and taking it, which can not but insure better health and less disease here shortly.

Show this to your yellow and sallow complexioned acquaintances, or those who never feel well and hearty. It's their bad blood, and they will thank you for this information.

from the president. She came forward eagerly to listen to the reading of the dispatch. When it was finished and she realized her husband would have to remain in the penitentiary nearly three months longer, she collapsed and gave way to a flood of tears. It was some minutes before she recovered herself sufficiently to speak.

"This is a terrible blow," sobbed Mrs. Anderson. "Three months. It will be a long time for me, too, but Lucille and myself can get along, I suppose. I was confident that he would be pardoned immediately, but, of course, I am grateful that he is to be free and with us within three months."

## HISTORY OF THE CASE.

Kansas City, May 8.—William January, alias Charles W. Anderson, whose application for pardon has been approved by Atty.-Gen. Bonaparte, was convicted in 1892 of robbing a building at Stillwater, Okla., that contained a postoffice.

He was sentenced to five years in the federal penitentiary at Fort Leavenworth, from which institution he escaped after serving three years. After working through Kansas first as a quarryman and then as a traveling salesman for a tea house, he came to Kansas City, changed his name to Anderson and married. He engaged in several kinds of business, finally becoming proprietor of a restaurant, and was well respected. Anderson was rearrested in Kansas City, April 29 last, through information furnished by a former convict who had known him in prison. On the day Anderson was returned to the penitentiary a movement was begun by the Kansas City Star and Kansas City Journal to secure his pardon. Three days later petitions bearing 20,000 names were forwarded to President Roosevelt, and within two days a second batch of petitions was sent to Washington, bringing the total number of signatures up to 40,000. Many prominent persons were among those who recommended a pardon.

Anderson has previously announced that he would return here and engage in business, and has been promised support from substantial business men. In anticipation of his release, Mrs. Anderson and their former neighbors were busy today preparing a warm homecoming for him.

## TRAWLERS REPORT A SUB-MARINE VOLCANIC ERUPTION

Lorient, France, May 9.—Several trawlers came in here yesterday reporting an extraordinary phenomenon at sea which would appear to have been a submarine volcanic eruption. The occurrence took place at a point 14 miles southwest of the island of Groix and 60 miles west of Belle Isle. The men on board the trawlers noticed bright flames and intense smoke rising from the sea. Believing that some vessel was on fire the trawler Kernevel went out in that direction for the purpose of rendering assistance. She could, however, discover no ship on fire.

The fire and smoke, from no apparent cause, continued throughout the night, and becoming more violent toward morning, the Kernevel steamed away to ensure her own safety.

This is the first result of yesterday's swift developments, which, beginning in some doubt as to whether Gov. Hughes would have the undivided support of the leaders of his party, ended with them all so far as Albany, avowedly committed to the governor's program.

A conference of Republican senators last night voted unanimously that the bill should be supported in substantially its present form by the Republican majority and that any proposed amendments must be submitted to the caucus before adoption.

The lawmen were here to foreclose a mortgage on a farm of their grandfather and were approached by a stranger who said he was an attorney. They went to the courtroom, stated the case before the supposed judge, who rendered judgment and ordered the supposed sheriff to issue an execution. They charged \$20 for their services, which was gladly paid by the victims.

This fact was officially conveyed by Minister of Foreign Affairs today. The government's decision is irrevocable. For the third time Mexico has addressed Guatemala in regard to the affair. Until a reply to this last request is received no cabinet meeting will be held.

## SHORT TALKS BY L. T. COOPER.

MEDICINE.

It's curious what some people believe a medicine will do. They seem to think because I advertise my preparations I claim they will cure anything and everything. Well, I don't.

The other day I got a letter from a woman who said her husband had been in bed eighteen years with paralysis. She had bought seven bottles of the Cooper medicines and her husband was still in bed. She stated that what was a scoundrel robber and various other pleasant things.

Now the only thing I claim for Cooper's New Discoveries is that it will put the stomach in working order. I know that if this is done, rheumatism, constipation, kidney and liver troubles, nervousness, and the general tired out dependent feeling will disappear. In ninety-nine cases out of a hundred, I know this medicine to be a fine tonic which used twice a year will throw off impurities and add flesh, strength and tone to the entire system. But it will not do the impossible. No medicine on earth will do more than help nature. Certain diseases are beyond all medicine, although God in his wisdom may some day give us frail humans a knowledge of how to cure them. At present, I know Cooper's New Discoveries to be as thoroughly efficient a medicine as was ever on the market, and people who will take it for the common ills to which flesh is heir will be more than satisfied.

Here is a letter from one who has tried:

"For a long time I have suffered from severe headaches, weakness, and pains in my back and sides.

"Nothing I tried gave me relief, and a friend advised me to try your medicine. I improved from the first week. My backache and headache left me and I felt myself growing stronger. My appetite increased and I felt greatly improved in every way. I am indeed thankful for the benefit I have received." Miss Jennie Isaacson, No. 38 15th Avenue, West, Duluth, Minn.

We have sold and are selling great quantities of these famous medicines.

# CATARRH A UNIVERSAL BLOOD DISEASE

Catarrh is usually worse in Winter, because of the cold, damp and suddenly changing climate. Colds are contracted, and neglected and as it secretions from the different inflamed membranes are absorbed into the blood the unpleasant symptoms of the disease commence. The nostrils are stopped up and a constant dropping of mucous back into the throat keeps up a continual hawking and spitting. The patient has dull headache ringing noises in the ears, and often slight fever and a depressed, half-sick feeling accompanies the disease. The blood becomes so fully charged with catarrhal matter that stomach troubles are brought on, the kidneys are affected, and if the blood is not purified of the poison the lung becomes diseased because of the constant passage of impure blood through them. Catarrh cannot be cured with washes, sprays, inhalations and such treatment; these cannot reach the poison-laden blood where the real cause is located, and can only give temporary relief and comfort. A disease which affects the entire blood supply as does Catarrh, must be treated with a blood purifier. S. S. S. is the best remedy for Catarrh, which has grown to be a universal disease. It goes to the bottom of the trouble, rids the blood of the catarrhal matter, reinvigorates the circulation, and cures this disgusting disease permanently. When S. S. S. has purified the blood every part of the system receives a supply of fresh healthy blood; then the inflamed membranes heal and every symptom of Catarrh passes away. Write for our book containing information about Catarrh, and ask for any medical advice you desire. No charge is made for either.
