## WILLIAM GLASMANN FOR POSTMASTER

### Congressman Howell About Decided to Give Ex-Mayor The Appointment.

#### HAS STRONG ENDORSEMENT.

#### Will Probably be Nominated Within Next Two Weeks—Other Junction City Notes.

Ogden, July 19.—Postmaster William Glasmann is quite certain to be the title by which the ex-mayor of Ogden will be designated. Congressman Howell, in whose power lies the naming of Ogden's postmaster, has paid Ogden several visits during the past two weeks to investigate the postmaster situation. There were three avowed candidates for the position, and each one had numerous supporters and recommendations. They were the present postmaster, Thomas Davis, William Glasmann and Daniel W. Ellis; others were in the race a few months ago, but all dropped out but these three. They are all staunch Republicans and certain reasons were advocated by the supporters of each candidate as to why their respective candidate should be named for the position. A few weeks ago Mr. Glasmann went east, and on his return stated that he had no chance for the appointment, and that it was quite certain Thomas Davis would hold over. Conditions seem to have changed since then, and now it is safe to announce that Mr. Glasmann will be nominated, and that, within the next two weeks, he will be appointed.

Congressman Howell was in Ogden yesterday afternoon and once more made a thorough canvass of the situa-

Payments for the Daily, Saturday and Semi-Weekly News should be made to the circulator. Delivery made by carrier on the same terms as in Salt Lake.

tion, and while he did not positively announce that he would name Mr. Glasmann for postmaster, he gave certain gentlemen prominent in the Republican party, reasons to believe that that is his intention. A supporter of Mr. Davis and a prominent Republican was closeted with Congressman Howell for a considerable time, trying to induce the congressman to name Mr. Davis, when finally Mr. Howell put the matter to the gentlemen in this way: "Supposing you were congressman, and you had the candidates before you as I have, the one a good Republican, but has not been as prominent in the party and supported you so strongly as did the other candidate, and the other candidate had a strong Republican newspaper which he had supported you with, besides his personal influence, which one of the two candidates would you appoint as postmaster? The question was a hard one and the gentlemen thought a few minutes, and then replied, "Well, I guess, Mr. Howell, you are up against it."

From these statements and others made by Congressman Howell, it is apparent that the only way he could see out of the predicament in which he is placed is to decide to appoint William Glasmann, who owns the Ogden Standard and Morning Examiner, two strong Republican papers.

#### REAL ESTATE DEALERS MEET.

The Ogden Real Estate Men's association held a meeting yesterday afternoon at the Weber club.

The high prices being charged for lumber, brick and other building materials in Ogden came in for considerable discussion. According to statements made by some present, lumber can be bought at a considerable loss figure in a number of small towns in the state than here in Ogden, and that

the exceedingly high prices are greatly retarding the erection of buildings in Ogden. A committee composed of M. Skeen, W. N. Pierce and J. J. Brummit was appointed to investigate the existing condition and to report on same at the next meeting.

The increase in insurance rates and other matters pertaining to the readjustment of the same were referred to a committee composed of A. A. Wenger, J. J. Brummit and O. A. Kennedy.

#### FUNERAL OF P. E. BJURMAN.

The remains of P. E. Bjurman, who Sunday morning met his death in a water ditch by accidental drowning, were consigned to the silent tomb in the Ogden city cemetery yesterday afternoon. Impressive funeral services were held at the Lyman ward meeting-house commencing at 3 o'clock. Several musical selections were sung. Bishop George Smuin, Counselor Walter Crane and E. A. Larkin spoke fittingly of the sad ending of the deceased. A goodly number of his neighbors and friends were present, and a service at the church to show a tribute of respect to his memory.

#### SUIT FOR DIVORCE.

Divorce suit has been filed in the Second district court by Minnie Jacobs against Morris Jacobs. The complaint alleges that plaintiff and defendant were married at Philadelphia Aug. 17, 1887, and that two sons are living as issue of said marriage—Herman, 14 years of age, who is with defendant at Cleveland, O., and Louis, 9 years of age, who is with plaintiff in Ogden. Failure to provide is the ground on which the decree is asked for. Plaintiff also asks for custody of the boy who is with her.

#### WEDDING PERMITS.

Licenses to wed have been granted by the county clerk to the following couples:

Joseph Schofield, 23, and Miss Ella Simpson, 19, both of Hooper, Weber county.

Ira N. Williams, 24, and Miss Mabel A. Cross, 18, both of Ogden City.

Ernest L. Burke, 29, of Roy, Weber county, and Miss Emma L. Wallace, 17, of Clinton, Davis county.

#### WILL INTEREST MANY.

Every person should know that good health is impossible if the kidneys are diseased. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. For sale by F. J. Hill Drug Co.

#### THE OUTLOOK FOR A GOOD PEACH CROP.

Battering. The trees have been shedding considerable, indicating that peaches will be large. On peach day, Brigham will give visitors a great treat.

#### COUNTY ASSESSOR WAYLaid.

J. W. Coulter, of Lestle, S. D., Assessor of Stanley County, relates the following: "It was waylaid by a complication of throat troubles, bronchitis, pneumonia, asthma and a terrible cough, which had affected me for years, when I was persuaded to try Dr. King's New Discovery. Relief came almost immediately, and in a short time a permanent cure resulted." No other medicine compares with it as a sure and quick cure for coughs and colds. It cures all other remedies have failed. Every bottle guaranteed at Z. C. M. I. drug store, 112-114 Third Main. Price 50c and \$1.00. Trial bottle free.

#### MANTI.

Will Honor Pioneer Day. Fine Program Arranged by Committee—Dancing for Children.

Manti, Sanpete Co., July 18.—Pioneer day will be fittingly observed here. Chairman Pickett and his committee have been busy for some time making preparations. In the morning the following program will be given at the tabernacle, commencing at 10 o'clock, with P. P. Dyring acting as master of ceremonies:

Singing—Tabernacle choir.  
Invocation—President John B. Malben.  
Vocal Selection—Clara Hall.  
Speech of Welcome—President Lewis Anderson.  
Baritone Solo—Melroy Kjar.  
Recitation—Ruthy.  
Violin Solo—Eva Crawford.  
Oration—Lewis Larson.  
Musical Selection—Temple City band.  
Recitation—Reva Tennant.  
Musical Selection—German military band.  
Benediction—Ezra Shomaker.

Manti is proud of the fact that she still has one of the Mormon Battalion boys, Horace Thornton, and one of the pioneers of '47, Mrs. Cordelia Sidwell, and these two will be the honored guests of the day.

In the afternoon a dance will be given for the children at the Bon Ton pavilion, from 5 to 4 o'clock. The people will in assembly at the park where a musical concert will be given by the Temple City and German Military bands.

#### WONDERS OF THE SCIENTIFIC WORLD.

While glasses cannot fit the color-blind for observing signals at sea or on railroads, Herr Pichon, of Cologne, finds that much assistance may be given in distinguishing between colors. Persons having the common form of color-blindness require red and green glasses, as the red glass absorbs green rays and causes red objects to appear lighter than the naked eye, and the green glass absorbs red rays and admits to the brightness of green objects. Those who are color-blind to yellow and blue can be similarly helped by glasses of yellow or blue. In cases of color-blindness to all colors, three different glasses—red, green and violet—are necessary, and these can be combined in pairs so as to give 12 different shades, making possible very accurate determinations. In a special kind of color-blindness, disease of the retina causes utter inability to distinguish blue and an affection of the optic nerve makes it impossible to see red.

A recently acquired abnormality of the British museum is the skull of an English horse showing a pair of rudimentary horns on the forehead. Older specimens are a portion of a similar skull with the horns and models of the forehead of two thoroughbred also having horns. The skin extends uniformly over the horns, with no sign of thickening or hardening. Just what these horn-like growths signify is perplexing to naturalists, as none of the ancestral horses or immediately related species were horned animals, and if there is no hereditary influence it is remarkable that so many freak appendages should appear in the same place.

A curious new device for exploding mines at some distance is operated by waves of sound. In the interior of a cylindrical resonator a disc is so mounted as to be free to turn about its diameter, and when a certain tone is sounded this disc will place itself in a plane perpendicular to the cylinder. By causing the turning disc to complete an electric circuit, a mine can

be exploded by means of a signal given by a warship's siren tuned to the same note as the resonator.

The "radiobes" of Mr. J. B. Burke have proven a scientific puzzle, even if they have not been widely accepted as living organisms. The explanation of Sir William Ramsey that the forms grow and divide in gelatine are helium bubbles from disintegrating radium is far from convincing. A new theory by Mr. W. A. D. Rudge, another British physicist, is that the growths form only when sulphuric acid is present and as a result of the diffusion and precipitation of barium or other element forming insoluble sulphates. Most radium preparations contain much barium. The new experiments have shown that when the gelatine is freed from sulphuric acid no growths are produced by other elements, but that even water from street mains contains sulphates enough to start radiobes in gelatine containing radium salts.

A novel bone-grafting operation is reported from Egypt by Dr. Voronoff. The removal of a tumor left a large hole in the rear of the skull, and instead of inserting the usual metal plate the surgeon decided to try a piece of the shoulder-blade of a live sheep. The wound healed promptly when the accurately-fitting graft was found, to be perfectly joined to the surrounding skull.

The problem of a puncture proof tire for wheels is still an attractive one. A pneumatic tire protected by a steel rim is one recent solution offered, and Mr. D. Blakey Hishop of Aberdeen, would use a pneumatic wheel instead of a pneumatic tire. His wheel has two outer plates of steel, between which is a rubber cushion, that expands outward on being inflated. The wheel has on its periphery a solid rubber tire, and this implies upon a movable cushion resting on the inflated cushion. In testing a road wheel case this wheel is claimed to have been very satisfactory.

#### THE REMARKABLE COLLECTION OF BUTTERFLIES BELONGING TO WALTER ROTHSCHILD, M. P., IS NOW CREDITED WITH OVER A MILLION SPECIMENS, AND BOTH IN NUMBER AND RARITY IT IS THE MOST EXTENSIVE IN EXISTENCE. THE SPECIAL MUSEUM AT TRING PARK, LONDON, IS KEPT UP BY AN ANNUAL EXPENDITURE OF MORE THAN \$50,000. THE COLLECTION CLAIMS AT LEAST ONE SPECIMEN FOR EVERY KNOWN SPECIES, AND EMBRACES MANY RARE CREATURES FROM UNEXPLORED REGIONS. ONE SPECIMEN COST \$500.

Asbestos porcelain, the new material of Garros, a European chemist, is claimed to have the desirable properties of true porcelain and certain advantages in addition. Asbestos fibers are very thin, with diameters between .000,000 and 1,200,000 of an inch, they can be crushed to an exceedingly fine powder; this is made into a paste with water, and after repeated kneadings the mass is poured into molds. When the objects thus shaped are heated in a crucible at 1,700 degrees C., a transparent product like ordinary porcelain is obtained. If the powder has been washed with sulphuric acid, a porous asbestos porcelain of pale yellowish or white color results when the molded articles are kept for 18 hours at 1,200 degrees C.

An electrical dividing rod, claimed to operate more certainly and scientifically than the ancient and dishonored twig, has been devised by Adolph Schmid, a Swiss engineer. It seems to consist essentially of a glass-covered box enclosing a coil of insulated wire in which a slightly magnetized needle is free to rotate over a graduated dial. When the apparatus is placed over subterranean water, with the axis of the coil in the magnetic meridian, the needle, it is asserted, oscillates more or less rapidly for two to ten and even up to 50 degrees.

He who steals my purse steals trash; but he who names Calder's park gets \$100.

### UINTAH TRAINED FORESTER.

More Rangers Appointed—Death of Richard Jenkins.

Special Correspondence.

Provo, Utah Co., July 19.—Forest Supervisor Paek has received advice from the department at Washington that the office of trained forester has been created in connection with the Uintah reserve, and that Horace F. Studley has been appointed to fill the position and to report here by July 29. Mr. Studley's duties will be connected with making estimates of timber on the reserve, the sales of timber, etc.

J. A. Paek and W. M. Anderson, of Kansas have been appointed forest rangers for the Uintah reserve, the appointments taking effect July 1.

An offer of \$25 by William Grant, of American Fork, in payment for damages caused by grazing 1,500 sheep in district No. 17 of the reserve has been accepted by the department.

### VISITORS FROM COLONIA DIAZ.

Bishop W. Derby Johnson, Jr., and wife of Colonia Diaz, Mexico, are here visiting relatives. Bishop Johnson reports that the colonies are prospering for the most part and arrangements are under way to increase the water supply, which will bring much good land under cultivation.

### DEATH OF RICHARD JENKINS.

Mrs. Richard Jenkins of this city received word yesterday of the death of her husband, Richard Jenkins, at Alberta, Canada. Mr. Jenkins was about 75 years of age, and was for many years a resident of Nephi and later at Provo, but for some years he has been living in Canada. The re-

#### TELEPHONE RATIFICATION.

Utah County Commercial Clubs' Banquet a Grand Success.

Special Correspondence.

Lehi, July 18.—The ratification of the free telephone service held yesterday by the Commercial clubs and other citizens of Utah county was a grand success in every way. Most of the visitors came up on the 4:30 train, from which they were taken to the clubrooms and entertained for a short time, after which a game of baseball was played in the park between Spanish Fork and Provo vs. Lehi and American Fork, the latter team winning by a score of 3 to 2. The Silver band was in attendance and there was more than a full grandstand. At 8 p. m. a banquet was given in the Opera House, between two and three hundred sitting down to the tables which were most tastefully set with a delicious menu. The hall was decorated with such banners as "Talk is cheap—over the telephone." This is a "Hello-gathering—number please." "Santagino right at our door—over the telephone." "What next? Electric road for Utah county," etc.

Hon. A. J. Evans was master of ceremonies. John Y. Smith, president of the Lehi Commercial club, made the address of welcome, bespeaking a greater Utah county, with an electric railroad, many new industries, and spoke of the great benefit of free telephones in Utah county. Responses were made by President Wallace of the Bell, and Mr. Niel Winter of the Independent. Misses Sadie and Ruby Davis and Mrs. Child sang. William M. Roylance of Provo spoke of the efforts of getting free telephones in Utah county, and of the great good that would accrue. Solo by Miss Dulcie Webb. Jos. J. Jackson of the American Fork club, M. W. Ingalis of the Lehi club and President Paek of Payson were the concluding speakers of the banquet. The banquets re-

### BRIGHAM CITY.

#### DISTRICT COURT BUSINESS.

Judge Maughan Denies Motion to Quash Information in Criminal Case.

Brigham City, Boxelder Co., July 18.—In the district court this morning Judge Maughan denied the motion to quash the information against Henry Woodland and Edward Sorenson, the defendants in the sensational shooting case which occurred at Willard wherein Mrs. Iowa Woodland was the target for a loaded shotgun in the hands of Sorenson, the contents of which blew off her arm instead of her head, as Sorenson had intended.

Justice of the Peace Funk, of the Boxelder precinct, held Woodland under \$4,000 bonds and Sorenson under \$10,000 bonds for trial in the district court. Woodland secured bondsmen, but Sorenson was remanded to the custody of the sheriff in default of bail. The prosecution will ask the court to increase Woodland's bond to \$10,000, the same as Sorenson's. Atty. J. D. Cull has been retained by the state to assist Atty. Holton in the prosecution of the case. A demurrer to the information will be heard in the district court.

#### RUNAWAY ACCIDENT.

Mrs. Rachel Kerth while riding in a wagon yesterday was thrown to the ground and badly bruised. The horses became frightened and ran away causing the accident.
