Rumors of Coming Cabinet Changes.

CHICAGO,-The Times' Washington special says it seems indisputable that Secretary Fish has decided on an early retirement from the Cabinet. He has intimated this to his associate officials, and has released the elegant mansion he at one time intended to occupy. He retires of his own volition, and the change has no political bearing. There s to be an entire re-organization of the State Department: Mr. Davis, Assistant Secretary, goes to the Geneva conference, and the law officer has just resigned to accept a position under the Japanese government. The report is that Andrew D. White, of New York is to succeed Fish.

CONNECTICUT. Further Republican Trimmphs.

Small Pox Increasing.

PORTLAND, 2.-The small pox is in-creasing at Walla Walla: eleven cases were reported on Wednesday. More Convicts Captured-A Fire.

CARSON, 2 .- A few days ago the offi-

cers arrested Morton and Black, two of wounded Young Roberts, in Round Valley. The officers thread Morton and Black over to two ranchers living in the valley, and started in pursuit of Roberts and took him after two days' chase, and returned with him yesterday to the place they had left the other two, but could find no trace of them, and it is supposed they were lynched by parties living near, is the feeling against them was very strong, on account of the killing of Wm. Peter, the pony rider. The officers are ex-pected here to-morrow with the two convicts, Bigelow and McCus, caught near Piscerville.

nearly all the fast horses and fast women The valleys are of exceeding beauty and many travelers have pronounced the scenery unsurpassed by any in the

> coast not far from the center of the northeast range of mountains directly behind Honolulu, and is supposed to have once been a bay or lagoon, protected towards the sea by a coral reef of a mile wide, through which the fresh Doors open at 7. Performance to commence at 7-30 waters from the valley have cut a chappel. The elevation of the ancient

reef some twenty-five feet has furnished the site for the city of Honolulu. Near been dug up in such quantities as to serve for fencing material for a small banana field, no such ferns are found at present north of Hawaii, Nuuann and Manoa valleys are the most noted on Oahu, Nunsuu has a gentle ascent for about six miles and terminates in an abrupt precipice of twelve

handred feet perpendicular in height, above which on either hand rises the points of Konshuanui and Walolani waters of heaven), which tower upwards three thousand feet high. These two mountains seem to have been rent asunder to form the valley. Through this rent and down the pali the government has made a road not of difficult descent to the district of Koolau. This precipice or pali has a historic celebrity rom the occurence of the great battle fought by Kamehameha the first, in his conquest of Oahu, and over this pali

he drove his enemies by the thousands whose bones are now to be seen in large quantities bleaching in the sun and rain. To visit this pall and collect relics of the great battle constitutes one of the objects of the curious traveller. Nuuanu is not only remarkable for its gentle ascent and abrupt termination, but it is one of the most fertile and beautiful valleys, to my mind, on the globe; it is the residence of a greatmany

of the foreigners, who are doing business on the islands. They have beautified it with shade and ornamental trees, and filled their gardens with every variety of shrubs and flowers that

the stately pine from Norway beside the grand and beautiful cabbage palm from Panama, the monkey pod from China by the side of the magnificent native Hala or Kinilia trees. The dark green of the bread-fruit contrasts favorably with the lighter hues of the date ably with the lighter hues of the date and cocoanut paims. The kukue, ohea mango, tamarind, and indis tubber trees are polymon among the fruit and shade trees. As to flowers, there is a great variety and at the season of bloom the ohea fills the ravines with its peach colored blossoms, in contrast with the wild coffee, with its enowy clusters. The geranium and cactus grow spon-taneously and some of the varieties when in blossom are truly magnificent. The stately century plant (the great American aloe) grows and bloseoms in this salubrious clime in seven years. Among the occutiful gardens of the

foreigners there is one in which the pines of Norway and Sweden, the first from the Sierra Nevada, the unequaled silver sword from Hale-a-ks-is, the delicate flowers from India, Chins, and
