A NUMBER of citizens of Fountain Green, Sanpete County, have taken the Colorado fever. Some left about the middle of last month, to visit and make observations, etc., in that State. These parties have given such good accounts of the country, that about nine families left here by rail on the 27th ult., to make their homes with the Saints there.—*Manti Sentinel.*

LAST evening a Commercial Street second hand store-keeper was victimized by a sharper to the extent of $10. The customer bought a pistol and watch, the price being $6, and laid down what was supposed to be a $20 gold piece in payment, receiving $14 in change. Subsequently the store-keeper was plunged into grief on ascertaining that the coin was a gold-washed silver dollar, and that his customer had been one too many for him.

A Singular Incident.

Quarantine physician Clinton tells of a circumstance which he says occurred at the Orphan's Home yesterday, and which indicates a peculiar condition of things in connection with that institution. There are two cases of diphtheria in the institution. Learning this, two ladies, one of whom had placed two children and the other one in the Home, and paid for their temporary keeping, called to take their little ones from what they considered a dangerous exposure to the disease. Those in charge of the Home refused to let the children go, and the mothers appealed to the quarantine physician. Arrangements were made to place the children in a house where they could be properly cared for until all danger from the infection had disappeared before permitting them to mingle with others, and the quarantine physician accompanied the ladies to the Home, where the request was renewed. Dr. Clinton stated, as quarantine physician, that the mothers of the children had the necessary permission to remove them to the place provided, but those in charge of the Home peremptorily and even defiantly refused to let them go. The ladies wanted to carry the children off by force, but as this was likely to create a disturbance, Dr. Clinton advised them to appeal to the city officials, which they did, and an inquiry into the matter was to be made this afternoon.

Since the foregoing was in type the following explanation has been handed in at this office, with a request to publish. We insert it with pleasure:

Editor Deseret News:

Dear Sir—The consulting physicians of the "Orphans' Home & Day Nursery" wish to make a statement through your columns relative to the health of said institution, with the feeling that it is just, not only for the good of the institution, but that the public be properly informed on the subject. Through some mistake the Nursery has been quarantined on account of diphtheria, and we wish to state that this disease does not exist in said institution, and further that there is no need of quarantine.

This opinion has the concurrence of Drs. Richards and Hamilton, with ourselves.

Died from Natural Causes.

Last Wednesday we had a local from Fairview, announcing the death of Samuel Slife, of that town. Since the article was written the affair has become one of considerable interest. It appears that the death was very sudden and the more people thought of it the more they became interested. The Drs. St. John were telegraphed for to hold a post mortem examination on the body of Mr. Slife, aged 67 years, who was buried on the 18th of February and exhumed on the 1st of March, and who was supposed to have died under suspicious circumstances. The following is the report of the physicians:

"Last Thursday a post mortem examination was held upon Samuel Slife, of Fairview, who, it was alleged, had died under suspicious circumstances. The body was exhumed, after having been buried for over a week, and the post mortem examination was conducted by Dr. Wm. H. Olsten, of Ephraim, and Dr. W. H. St. John, of Manti, with the kind assistance of Drs. H. Lindley, of Mt. Pleasant, and E. H. St. John, of Manti. The result of the post mortem examination is that said Samuel Slife died from natural causes—chronic inflammation of the bladder, and extension of inflammation to the excretive structure of the kidneys.

WM. H. OLSTEN, M. D.,
WM. H. ST. JOHN, M. D."

The coroner's jury returned a verdict of death from natural causes.—*Manti Sentinel.*

Sevier Stake Items.

Richfield, March 6, 1888.

The quarterly conference of the Sevier Stake of Zion convened in Richfield on Saturday, March 3d, at 10 a.m. President Albert K. Thurber, being very ill and his first counselor, Wm. H. Seegmiller attending the Legislature, Counselor William H. Clark presided.

The usual business, such as the reading of reports and sustaining the general and local authorities was attended to in a satisfactory manner. The instructions given by the different preachers were upon the proper training of the youth, the preparing of ourselves for labors in the Temples of the Lord and the duties of every day life.

The Sevier Stake Academy began its second term on Monday, January 3d, with 94 students; the third term will begin on Monday, March 12th. Under the able management of Prof. I. J. Hayes the academy has already accomplished a good work, the results of which are appreciated by the Saints of this Stake.

The conference from first to last was a success and we enjoyed a time of refreshing through the Spirit of the Lord. Respectfully.

THEO. BRANDLEY,
Stake Clerk.

We have received Pomeroy's *Advance Thought* for March. It is a thirty-eight page periodical, filled with choice reading matter, admirably adapted for the perusal of the young. It is within easy reach so far as relates to the price, being only one dollar a year. It should have a wide circulation in Utah.

I have been a great sufferer from catarrh for over ten years; had it very bad, could hardly breathe. Some nights I could not sleep—had to walk the floor. I purchased Ely's Cream Balm a d am using it freely, it is working a cure surely. I have advised several friends to use it, and with happy results in every case. It is the one medicine above all others made to cure catarrh, and it is worth its weight in gold. I thank God I have found a remedy I can use with safety and that does all that is claimed for it. It is curing my deafness.—B. W. Sperry, Hartford, Conn.
