OUR OWN STATE. Summersement

The branch offices of the Deseret News in Ogden is at No. 466 Twenty-fourth street, where advertisements and sub-scriptions will be received. The News is delivered by carriers in Ogden every evening on the same terms as in Salt take City. Lake City.

OGDEN NEWS. OGDEN, UTAH, - SEPT. 12, 1900.

DISTRICT COURT BUSINESS

Proprietors of Gambling Houses Fined in the Police Court.

OgdenCandy Company Incorporates-East Canyon Reservoir Dam Will be Enlarged.

Before Judge Rolapp in the Second district court:

The case of Ogden Sugar company vs James C, Armstrong was dismissed. The State of Utah vs August Johnson, charged with burglarizing the Avey planing mill. A jury was impaneled and the testimony of several witnesses taken. The Jury brought in a verdict of guilty of petty larceny. He was ordered to appear for sentence

Thursday, Sept. 13, 1900. Julia A. Parker et al vs Rio Grande Western Ry, company; continued until Nov. 8, 1900, and all witnesses summoned in the cause were excused until sald date

state of Utah vs August Losch charged with unlawfully taking animais from a constable, was taken up, but not finished.

All jurors have been excused until Thursday, Sept. 13, 1900, COURT FILINGS.

The papers in the case of the State of litah vs L. W. Reavis, charged with complicity in the murder of Thomas complicity in the murder of Thomas Sandali of Layton, were filed in the clerk's office today. The case has been transferred to this county on account of the intense prejudice in Davis county. An appeal was filed from Justice B. F. Blaylock's court of North Ogden in the case of J. C. Fields vs S. W. Cra-gung, wherein the plaintiff asks damages to the amount of \$30, alleged to be due on money loaned and work done for the defendant.

BEFORE JUDGE HALL.

The case of Ogden City against the proprietors of the gambling houses of the city came on regularly for hear-ing. All of the defendants proved their innocence excepting L. W. Parry, Scud-der and Keirtz; they were each found guilty and fined \$25, which they paid. The case against the other they paid. case against the others was dismissed.

OGDEN CANDY COMPANY.

The articles of incorporation of the Ogden Candy company were filed today in the county clerk's office. The incorporators are, and the number of shares subscribed by each is as follows:

John R. Brown, two shares; Thos, M. John R. Brown, two shares; Thos, M. Jenkins, ten shares; Alma D. Cham-bers, four shares; B. B. Welch, four shares; John Coutis, eighteen shares; David Mattson, twelve shares. The capital stock of the corporation

ls \$5.000. divided into fify shares of \$100 each. The principal place of business shall be Ogden City. It is incorpor-ated for fifty years. The officers of the orporation are John Coutis, president, homas M. Jenkins, vice president; Thomas

failure, but it is thought his condition is not serious. Miss Ruth E. Moench, daughter of Prof. Moench, left today for Logan where she will resume her position as instructor of elecution in the Agricultural college.

Varian, of Salt Lake, was an Ogden visitor today. C. R. Savage, the well known photo-grapher, of Salt Lake, was in Ogden on

R. H. Pratt and wife, of San Francisco, were in Ogden today. Mr. Pratt was at one time superintendent of the Southern Pacific. B. Patton was a capital Judge A. B visitor today.

Robert Evans of Ophir, Tooele county applied for admission to the infirmary of his father, William Evans. Granted upon payment of \$10 per month.

SUIT FOR A COMMISSION.

A. H. Ray has commenced suit in Jus-tice King's court against Mrs. Ella Bates, to collect \$67.90. The complaint alleges that on July 2, 1990, the plaintiff entered into contract with the defend, ant whereby he was to act as agent for defendant in the disposing of her house and lot and personal property. The plaintiff further alleges that he found a purchaser and entered into negotiations for the sale of the property and then Mrs. Bates discharged him. He now wants \$67.90 as commission for the sale of property and other labor performed.

The defendant is now living in Texas. EXPERIMENTING WITH COAL.

Mr. S. H. Gruntvig of Weilington, Emery county, arrived in Provo today with a load of coal for Jessee Knight & Sons from the latter gentlema's coal deposits at the head of Huntington canyan, in Emery county. Mr. Grunt-vig recently brought in a load of coal vig recently brought in a load of coal from the mines near Wellington which Messrs. Knight purchased from him, The coal is being brought to this city for the purpose of making experiments as to its coking value.

YOUTHFUL BURGLARS.

On Sunday night last two young boys, about 14 years of age, entered the grocery store of G. C. Van Wagoner and took \$40 from the money till. The boys had found a key, which with a little filing was made to fit the back door of the store and being well ac-quainted with the interior the boys had dualitied with the interior the boys had little difficulty in finding where the cash was located. Most of the money was recovered by the officers, after a great deal of labor. The boys will not be pros-ecuted on account of the prominence manner. In the afternoon Daniel Hei-ner was named and sustained as the

The one thing that qualifles a person to give ad-vice on any subject is experience - experience oreates knowledge.

No other person has so wide an experience with female ills nor such a record of success as Mrs. Pinkham has had.

Over a hundred thousand cases come before

her each year. Some personally, others by mail. And this has been going on for 20 years, day after

day and day after day. Twenty years of constant success - think of the knowledge thus gained! Surely women are wise in seeking advice from a woman with such an experience, especially when it is free.

number 648, an increase over last year of 56. STORE BURGLARIZED.

Deal Bros, & Mendenhall's store was burglarized Sunday. The burglar found a defect in one of the windows, and made an entrance. He managed to get into the cash register and secured several dollars taken in after closing the cash account Saturday night. A little girl saw a man come out through the window, but paid no further attention to it until Monday, when she gave the description, which tallies, says Mar-shal Gammel, with a stranger seen upon the streets Saturday and Sunday.

Conception OUR NEICHBORS. Common managements IDAHO.

Weekly Weather and Crop Bulletin for Week Ending Sept. 10.

Boise, Idaho, Sept. 11 .- U. S. department of agriculture, climate and crop bulletin of the weather bureau, Idaho section, for the week ending Sept. 10, 1960: The average temperature for the State was 64 degrees, which is 2 degrees above the normal. There was quite a marked range between the day and night temperatures. The highest temperature reported was is degrees, at places in the Snake River valley, and at places above 4,000 feet elevation

ome light frost occurred. Heavy rain occurred on the 4th and 5th in the western sections, and light rain on the same dates, in the central and northeastern sections, but no pre-cipitation occurred in the extreme southeastern counties.

CROPS.

Grain and Harvest.-The grain harvest is practically complete and threshing is making rapid progress. Threshing has been completed in the southwestern sections, and is being pursued with vigor in the east and north parts of the State. In the east-ern counties the yields have been sat-isfactory, though there has been some shrunken grain; on high lands the yields are light. In the western coun-ties the yields are thought to be less than the average, as a rule, but the quality of the grain, especially of oats, is considered very good to excellent. The corn crop is unusually good. Some wheat seeding was done last week and rain is needed to enable more active plowing and seeding.

Haying .- Farmers are in the midst of the third-crop alfalfa harvest throughout the southwest sections, and In some eastern districts; the second crop of alfalfa has ben secured in ex-celent condition. The weather han been favorable for securing hay in the best condition.

Fruit-Shipping continues active and much fruit is being dried. The facilities for drying are not sufficient to enable more than a small part of the crop to be disposed of in this man-ner. The fruit crop is unusually large. Stock and the Ranges. In some sections the grass revived as the result of recent rains but in most sect result of recent rains, but in most sec. tions the ranges are dry. Stock is in

leces weighing 6 ounces, rolled out, nd baked on a hot iron plate, yielding pounds of scones. The mixture for ancakes was similar in composition ut thinner, 14 pounds of flour being liked with 16 pounds of skim milk and he same amount of leavening materia is before. This batter was cooked on (ot greased plate, yielding 30 pounds it cakes, there being practically no vaporation in baking. The large mount of skim milk utilized in properon to the flour is noteworthy. If the cones and cakes are sold, the skim milk has practically the same com-mercial value as the flour, since very early equal quantities of the two ma-

rials were used. The Maine Station has recently studd the comparative value of bread orts of bread it was found that two orts of bread it was found that the bread made with skim milk contains about 1 per cent more protein than that made with water

The Maine Station points out the fact that the use of skim milk in bread making utilizes a valuable waste prod-uct of the dairy, and calls attention to other profitable uses which may be of it in the household, as follows:

In the preparation of soups, such as outato, colery, tomato, green pea, and green corn soups; fish, lobster, clam and oyster chowders, bisques and stews, skim milk will (satisfactorily) replace the whole milk that the directions for preparing usually call for. Skim milk makes as good white soups as whole milk. Bread mixed with skim milk is more nutritious than that made with ater. All kinds of quick biscuit, griddle cakes, etc., can be made with skim as well as with whole milk. In most cind of cake skim milk will be found a perfect substitute for whole milk. the skim milk is sour, so much the bet-ter for cake and quick bread making as only half the cream of tartar called for in the recipe will be needed.

Sweet skim milk can be used to advantage in making rice and Indian puddings, custards, squash and pumpkin ples, and the like, in the preparation of chocolate or cocoa as a drink, in the making of sherbets and other ices, and in dozens of other ways which will readily occur to housekeepers,

Increased Output

During the past year the Anheuser-Busch Brewing Ass'n, St. Louis, U. S. A., reports a large gain, their bottled beers alone having exceeded thirty per cent increase over the year previous.

David Mattson, secretary and treas-urer. These, with Alma D. Chambers and John R. Brown, form the board of directors.

The gentlemen have already pur-chased their machinery and have their factory in readiness to commence mak-ing candy next Monday. They are all well and popularly known in the city.

INFORMATION WANTED.

Information as to the whereabouts of the heirs of Joseph Ellery, who lived in Shelly county, Texas, and John F. Wood, who lived at Houston county, Texas, is wanted by Henry Matingren, 1606 Chartres street, Houston, Texas.

BURTON-COOLEY NUPTIALS.

Marriage license was granted to Isaac M. Cooley, 34, and Miss Marcha Burton, 27, both of Ogden.

EAST CANYON RESERVOIR DAM. A stockholders' meeting of the Davis and Weber Counties Canal compa was held yesterday afternoon at the county court house for the purpose of voting upon the proposition to raise the East canyon reservoir dam. The stock was fully represented, and the matter was thoroughly discussed by those present. The vote taken showed that most of the stockholders were in faver, so the work will be done.

PETITION FOR PARDON.

A polition has been prepared and will be presented to the State board of par-dona asking that Ed James, who was convicted a short time ago for petty larceny and sentenced to 150 days in the county jall, be pardoned. The pett-tion is strand by a purplet of the tion is signed by a number of the coun-ty officials, and it is thought he will be pardoned. His good behavior and truetward. worthy character has caused those signing the petition to desire his re-

BRIEFS AND PERSONALS.

condition, except in th extrem southeastern countles, where the drouth continues S. M. BLANDFORD.

Section Director. Will Boom His Business,

It is a common practice in many households to use more or less milk for mixing bread dough, since it is believed that the quality of the bread is thereby improved. Frequently skim milk is used instead of whole milk. Doubless comparatively few persons realize that skim milk has a fairly high food value and that its use makes bread more nutritious, in addition to improving its quality. It must be remembered that when the cream is removed the milk is deprived of one of its constitu-ents, namely, fat. It still contains practically all the highly nutritious casein and other nitrogenous materials, as well as the mlik sugar and ash originally present, in addition to about 0.3 per cent of fat (good whole milk contains from 3 to 5 per cent fat.)

A recent report of the Maine Station ays in effect that the value of skim milk as a food is not generally appreclated. Taken by itself it is "rather thin," and one has to drink a large Taken by itself it is "rather quantity to get the needed nourish-ment. Further, it is so readily assimi-lated that it does not long satisfy the sense of hunger. But when taken with bread or used in cooking it is a valu-able food material. A pound of lean beef contains about 0.18 pound of protein or nitrogenous material, whose principal function is the formation of tissue (especially muscle), and has a fuel value (which is taken as a measure of the energy it will produce) of \$70 calories. Two and one-half quarts or five pounds of skim milk will furnish the same amount of protein and have nearly the same fuel value as a pound of routid steak. Two quarts of skim milk has a greater nutritive value than a quart of oysters. This amount of skim milk contains 0.14 pound of protein and has a fuel value of 680 calories, while the oysters contain only 0.12 pound of protein and have a fuel value of 470 calories.

According to a recent report in the journal of the British Dairy Farmers' Association, skim milk materially increases the yield of bread and conse quently the profits in bread making. It was found that 280 pounds of could take up 175 pounds of water in mixing the dough and yield 94 fourpound loaves, there being a loss of 71 pounds of water during baking. The same quantity of flour would take up 210 pounds of skim milk and yield 110 four-pound loaves, the shrinkage during baking in this case being 50 pounds The water bread is said to sell for 10 cents and the milk bread for il cents per loaf. Assuming that the above quantity of skim milk bread would yield a profit of \$6 cents more than the water bread.

At its instantial of the association conducted tests on the value of skim milk for making scones and pancakes. The dough for the scones was made from 14 pounds of American flour, 11 pounds of sour skim milk, 3 ounces of bicar-bonate of soda, and 3 ounces of cream clesiastical positions some have bonate of soda, and 3 ounces of cream filled up to the time of their departure of tartar. This dough was cut into
