WALKER'S STORE.

# GRAND SHOWING OF SPRING GOODS.

The great cloak and suit store is alive with all the newness and freshness of spring time wear. After weeks of searching and gathering the stock now blossoms with all the beauty that genius can blend in fabric and color. Here's the realization of art in women's outer apparel; art confined not alone to the rare pieces from master makers of Europe, but the garments of medium and very modest prices are also admirably true to the higher standards. Hundreds of styles spread out from \$15.00 to the \$200.00 mark. Of more than usual interest are the suits at \$35.00; there's \$40.00 worth of suit goodness crowded in them all. Buying time is now, while the size assortment is complete.

Finally all went silently home with their old burdens, but with concluded hearts. but with contented hearts. There is a deal of philosophy in this ancient tale. You are better off with your burden than you would be with your neigh-bor's. It was fashioned for your shoulders. And the time may come when you

bor's. It was fashioned for your should ders. And the time may come when you may even be fond of it. For what is a burden any way? Look up the definition in the diction-ary and see the primary meaning. It does not necessarily carry the idea of strain and friction. We speak of a fruit tree with its burden of apples or oranges. The burden of the tree is its glory. That is the final purpose of its being in the world at all. And in the large view of the matter our burdens should be the occasion of price and glorying. Said a sympathetic traveler to the little girl whom he met in the street staggering under the weight of a big baby: "Why, child, isn't he too heavy for you?" "No," was her quick reply, "he isn't heavy; he's my broth-er." It's a great honor to a man to be permitted to carry burdens. We speak contemptuously sometimes of beasts of burden--those great patient animals, without whose aid man could never cross the deserts and extend the from-tler of civilization. But I would rathed be a heast of burden than a butterfly. And I would still rather be a man of to-day, carrying hs responsibilities cheer-fully, burning his spioke and getting out day, carrying hs responsibilities cheer-fully, burning his snoke and getting out of his burdens the blessing which is at-ways at the heart of them.

Still another used them because he was subject to gas on stomaach, caus-ng pressure on heart and lungs, shortess of breath and distress in chest, which he no longer experienced since using the tablets regularly.

Another claimed that Stuart's Dyse pepsia Tablets was the only safe remedy he had ever found for sour stomach and acidity. He had formerly used common soda to relieve the trouble, but the tablets were much better and safer to use.

After smoking, drinking or other exe cesses which weaken the digestive or-gans, nothing restores the stomach to a healthy, wholesome condition so ef-
