

MINING, BUSINESS AND STOCKS

SMELTER OF 50 TONS AT PALISADE

Big Plant Will Very Soon Go Into Commission There.

LARGE AMOUNT OF ORE READY

Proposition is Being Financed by Messrs. Hubbard and Turner Of Reno.

A 50-ton smelter is being built at Palisade, Nev., and is to treat ore from the property of the Mineral Mining & Smelting company, located in the Mineral Hill district.

Quite a large amount of ore is now in the bins ready for the smelter, which will probably be running in order within the next two weeks, says the Silver State. This proposition is being financed by Messrs. Hubbard and Turner of Reno, who have associated themselves with several prominent business men of Reno and funds are now being secured for the purpose of completing the plant and furnishing the extensive operations of the company.

The holdings of this corporation is indeed valuable, and are situated on the famous Mineral Hill, half way between Eschka and Palisade, and this district has a recorded output of \$7,000,000. Considerable exploitation work has been advanced within the past two or three months and there is now disclosed a strong shoot of ore 16 feet wide carrying gold, silver, copper and lead, and assays have been running as high as \$1,108.73 per ton in gold, besides the other metals mentioned. A cut was advanced 40 feet on the lead and a drift started on the vein, and there is now disclosed a full breast of ore, all of which carries exceedingly good values.

This is truly a meritorious proposition, and will do more than anything else toward bringing this district to the attention of the public at once and no doubt will make handsome returns to those directly interested.

ON MINING EXCHANGE.

Forenoon Sales Aggregated Over \$10,000—Closing Quotations.

The forenoon sales on the mining exchange aggregated 28,425 shares, for which was paid the sum of \$10,373. Carisa opened strong, and when the trading ceased the price had moved forward several points. Little Bell sold at \$4.80, but the demand for it was limited. Of the Tintic stocks brought out, May Day and Uncle Sam Consolidated were the most conspicuous.

On the open board, Beck Tunnel Consolidated went at \$5.65 1/2 cents, while Ohio Copper found a taker at \$1.75 1/2.

The closing quotations and sales were:

LAND COME TO TETON VALLEY

Good improved farming land with plenty of water may now be bought for from \$10 to \$15 per acre. This is high grade, level bench land, and will in five years, judging by the past history of these Snake River valleys, bring from \$20 to \$50 per acre. The wonderful development of this country, through the sugar beet industry alone is a marvel. Ground that a few years ago could be purchased at \$10 and \$20 per acre, is now bringing \$100 and up. There is no reason why the same process of development should not bring about the same results in the Teton Valley. We have the soil, the climate and the water. Also mammoth coal deposits, lime stone, and large areas of pasture, etc. Improved farms range from \$12 to \$25 per acre. We have some bargains for the man who knows a good thing when he sees it. We are in the business to locate good men in a good country. Content with small commissions we are doing business. For information write, YOUNG & WINGER, Driggs, Idaho.

ACTIVE MANHATTAN.

Gold King Officials Hear Good News From A. H. Mayne.

Encouraging reports continue to come from the Manhattan Gold King property in the new camp of Manhattan, Nevada.

A message from A. H. Mayne to Secretary Harry Cole last night contained the following:

"Just returned from Manhattan Gold King. Looking good. One body discovered on surface four and a half feet wide which assays 41%. Not much work done since strike on account of severe snow storm. Think I have one of the best properties in the camp. Don't sell stock too low."

The excitement still continues in the new district and late developments there indicate the making of a good camp at Manhattan.

AT THE CACTUS.

Big Steam Shovel Now Working Day And Night.

General Manager L. Hanchett of the Nevada house mine returned from a pilgrimage to the Cactus mine in Beaver county this morning.

The steam shovel, now doing service in stripping the surface, is kept busy day and night, and will probably be three weeks, Mr. Hanchett states, before it will be working in ore. The surface cropping, where the shovel is operating is from 20 to 30 feet deep.

POLLOCK WIRE GOSSIP.

Eastern correspondents of James A. Pollock & Company sent the following bulletins today:

Boston—At the directors meeting of the Pacific Mining company, this noon, Wm. A. Pollock, its president and secretary, succeeded John Stanton, deceased. Fred K. Stanton was elected secretary and treasurer, succeeding John R. Stanton.

Chicago—Charles H. Schwab is a very sick man and very low.

CONCENTRATES.

Negotiations for the sale of the Copper Glance property at Bingham are still pending.

A. O. Palmer, the veteran mining engineer has returned from a trip to the northwest.

Manager A. M. Spooner of the Mount Mason mine at Park City departed for camp this morning.

J. A. Vandemoer, western representative of the Engineering & Mining Journal, is in the city from Denver.

E. Sutro, member of the firm of Minnis, Sutro & Co., Tonopah brokers, was in the city yesterday for a few hours.

Among the visitors in the city today is Manager A. W. B. Hodges of the Franby mines and smelter in British Columbia.

J. Park Channing expects to leave for the north today, and will be detailed to make an examination of the Bamberger-Delamar mines.

A great deal of local interest has been aroused in Manhattan Gold King which is evidenced by the heavy sales of stock during the past week.

The usual quarterly dividend of the Daily-West Mining company was ordered yesterday. The amount is \$108,600 and is payable on the 15th inst.

The ore and bullion settlements reported late yesterday by McCormick & Co. were as follows: Crude ore and concentrate, \$29,700; base bullion \$35,800; gold bullion, \$5,900.

The Washoe smelters at Anaconda will make a record run this month. It is receiving from the Clark mines at Butte from 500 to 600 tons of ore per day. These deliveries will continue, it is said, until the Clark concentrator, recently destroyed by fire, is rebuilt.

W. C. Dunham, a prominent Los Angeles mining engineer, has reached the city and this morning took his departure for the domains of the Bingham Central Mining company, upon which he will conduct an examination in behalf of the prospective bond buyers.

Another body of bonanza ore has been discovered in the Red Top mine, that treasure vault of marvelous gold values, the point of location being about seven feet south of the big shoot on the 50-foot level which has and is yet yielding such high grade returns. The find was made last Saturday while the miners were engaged in proving up the main ledge, and bids fair to equal in value any deposit ever opened in the property.—Goldfield News.

The Arizona Copper company at its annual meeting, held in Queen's hall, Edinburgh, Scotland, on the 28th ultimo, re-elected Alexander MacNab and Col. J. Bald Harvey to the board of directors. John Gill, chairman of the company, reported a very satisfactory showing notwithstanding the fact that the floods of late spring did much damage to the company's property, which is at Clif-

ton, Ariz., and cut down the profits for the year.

Pat Christian was in from Bristol Sunday and Monday. He says that the mines upon which he and others have a lease, being the property of the Bristol Copper Mining company, are looking exceptionally well. They have a good lot of ore out ready for shipment, and have kept all teams supplied with ore as fast as they could show up. He says that they cannot get teams enough to freight out the quantity of ore they have and can supply. About 65 teams were loaded during the month of February, as that is about the number that arrived with freight from Modena for this place. This is indeed most encouraging and speaks well for the old camp of Bristol—Pioche Record.

MCCALL ESTATE SUITS.

Attorney Who Brought Them Delighted at Hamilton's Ricture.

Buffalo, March 7.—John G. Milburn, attorney for the trustees of the New York Life Insurance company, to bring suits against the McCall estate and Andrew Hamilton for the return of the money alleged to have been fraudulently taken from the company, today expressed surprise and delight at the picture of Hamilton to New York. He said:

"Andrew Hamilton was sued along with the McCall estate and the matter will be pressed immediately in the courts for the return of the money. I shall return to New York tonight, and there will be no delay in prosecuting the suit."

BIGAMY FELONY IN MISSOURI.

St. Louis, March 6.—The supreme court at Jefferson today held to be constitutional the statute making it a felony for a man to live in Missouri with his second wife, though he married her in another state, the first wife living and not being divorced.
