Passages from the revelations in the Passages from the revelations in the Doctrine & Covenants were read in which the Savior said he was in the begin in with God and that all men wer there also. It was also revealed that intelligence, or the light of truth, tas not created or made, and that the elements are eternal. When Joseph Smith first made these ultrances he was met with the or

The question resolves itself in this: "Is there such a thing as a resurrec-tion from the doad for man"." Christi-anity answers yes through Christ. Then if man is God incarnate here he will be so there. Paul massed the proof the secure that feed and If man in Good and massed the proof be so there. The first vision of Joseph Smith was referred to as showing that there was more than one divine personage, be-cause, in that vision, God said to the other personage. "This is my beloved Son."
