

of all power, thus rendering him useless to do harm if he so desired. The supporters of the President express satisfaction at the action of the Senate. It is expected that there will be a large crowd at the Senate to-morrow in anticipation that the counsel for the President will come prepared to object still further to the examination of the witness who was on the stand at the time Stanberry objected to day.

Chicago, 1.—The Tribune's special says the counsel for the President summoned as witnesses, Generals Steadman, Sherman and Rousseau.

The Indian Commissioner left this city to-day for Fort Laramie. Reports from Cheyenne say the Cheyennes and northern Arapahoes will be fully represented at the Council. The Sioux are expected to arrive by the 7th. Several Indian outrages are reported on the Santa Fe route.

The twentieth anniversary of modern spiritualism was very generally celebrated throughout the country yesterday.

Senate.—The managers and the House entered soon after twelve; the minutes of the last session were read until mention of the vote cast by the Chief Justice to decide the tie vote on the question of retiring for deliberation. Sumner moved to correct the journal by inserting the expression that in the Senate's opinion the said veto of the Chief Justice was unauthorized and of no effect. He demanded the yeas and nays on the motion, which resulted in yeas 21, nays 27, so the motion was lost. The question as to the admissibility of Burleigh's testimony about the conversation between himself and Gen. Thomas was submitted to the Senate by the Chief Justice; argument ensued.

Florence.—Victor Emanuel is seriously ill; a dispatch from Rome says the Pope is also sick.

London.—Dispatches from the Continent say that tumults have broken out in Grenoble; it is supposed they were occasioned by the enforcement of the new army law.

Negotiations between Prussia and Denmark in regard to the disputed Territory in Schleswig-Holstein continues. It is reported that the Danish commissioner recently asked the cession to Denmark of the island of Alsens in the Baltic, and the fortress of Duppelin on the main land. The last telegrams say that Prussia has decidedly refused the demands of Denmark.

Madrid.—The Spanish government will grant to Cuba an army organization similar to her own.

London.—The House of Commons spent the entire day and evening debating the Irish church question.

ITEMS

CORRESPONDENCE for publication is requested to be written on one side of the paper only.

No notice can be taken of anonymous communications. Correspondents' names must in every instance accompany their communications, not necessarily for publication, but as a guarantee of reliability.

STRANGE.—A communication from some one in the vicinity of the Warm Springs, gives the rather startling intelligence that at 8 a.m. this morning the water rushed into the boxes of the Bath House not warm and sulphuric as usual, but cold as City creek and void of mineral taste or smell. Nature has frequently astonished some people with her seemingly miraculous freaks, but we were certainly unprepared for this, and would have been more unprepared had we been in one of the boxes when the change occurred. The people can stand the change, but how will the City Fathers look at it after their great outlay of capital to make it a first class bathing resort. The communication is dated this day and signed "April Fool" and of course is reliable. We would suggest to the City Authorities, however, not to sell out till they send a hand up to feel after it.

FOOD FOR REFLECTION.—Ward the walkist walked 60 hours, without food, at the Cheyenne theatre recently. Our Devil guarantees to walk 60 hours with food and, moreover, engages to distend his stomach to its utmost capacity and carry a small bottle of liquid food besides. Who "beats the devil" now?

CHILD LOST.—Willey Anderson, aged 2 1/2 years, son of William Anderson, was lost in the 6th Ward yesterday. He is a light complexioned, blue-eyed boy. Any intelligence concerning his whereabouts, if left at this office or the City Hall, will be thankfully received by his mother.

INTERESTING INDIAN NEWS.—The following interesting item has been kindly furnished us from a letter received in this city from Bro. R. R. Lowellyn, of Fountain Green, Sanpete County, under date of March 30th:

"The Indians came in yesterday, suing for peace. They will meet President Orson Hyde and all the Bishops of this County at Mount Pleasant, to day."

NOTICE.—To our readers who have correspondence with Canada it may be interesting to know that the postage on letters under half an ounce, directed to Canada, is reduced from ten cents to six cents, if prepaid. If sent without

prepayment, letters will be charged ten cents upon delivery.

SPRING.—With an elastic spring out of bed, spring down to the spring with a couple of springs, spring into the spring and you'll spring out a new man.

Spring has come. Everything is now springy—even the 6th Ward is getting quite springy. Our cattle spring onto their feet with considerable spring (with a little assistance at their tails). The sap is springing up into the trees, the carriages are springing as they rattle along the streets. Leap year parties are springing up all around and rivulets are springing from the hillsides. The feathered songsters feel the spring—listen:

The first bird of spring attempted to sing. But ere he had sounded a note, He fell from the limb, a dead bird was him The music had friz in his throat.

Grass is springing, the flowers are springing, everything is on the spring and the spring is on everything.

"So spring you've come again, have ye?"

TURQUOISE MINE.—In addition to its gold mines, Nevada may soon become celebrated for its precious stones. The Reese River Reveille of the 27th ult., gives some account of the gem called turquoise, and of a turquoise mine existing in the Columbus district. The turquoise stone is susceptible of high polish and is much esteemed by connoisseurs of precious stones. The choicest specimens are of pale blue with the faintest tinge of green; but in turquoise of an inferior kind the green predominates. In Persia this gem is most highly prized and the choicest specimens are obtained there. About two years ago several pieces of turquoise were taken from the Columbus deposit to New York and exhibited at Tiffany's jewelry establishment, where they were much admired for their beauty. Little attention has, as yet been paid to this deposit, but judging from the fact that several specimens, varying in size from a small shot to an almond, have been discovered, it is not improbable, as the Reveille remarks, that a small amount of labor might be generously rewarded.

GOING UP.—Since fine weather has been the order of the day, the work men on the City Prison are making their labors manifest. About eight feet more will bring it up to the square, and from the enterprising character of the contractors, we have no doubts in relation to its completion within "schedule time." It will not be lacking in the substance or solidity, and we be to the finger nails that undertake to scratch themselves out. Like a batch of bread we once saw manufactured on the plains by the editor of the Keopapichin—it will stand any climate or kind of weather.

MARRIED.—In this city, yesterday evening, by Bishop S. A. Woolley, at the residence of William Showell, Esq., Mr. George Showell and Miss Elizabeth A. Nunn.

We return our thanks to the happy couple for the pyramid cake and towering wine-o accompaniment, and in the language of our matrimonial poet:

Bright be the joys that strew their way, Like summer flowers with odors sweet; Tuneful the notes each fleeting day, Will bring the passing hours to greet.

And as they tread life's verging road, May merry prattlers round them come; Freighted from hope's own blest abode, To cheer their bright and happy home.

NOTICE

IS HEREBY GIVEN TO ALL WHO ARE INDEBTED TO THE DESERET NEWS OFFICE for Subscriptions, &c., that Payment of the same after this date, is to be made to GEORGE Q. CANNON, the present Editor.
