

## FAIR RECEIPTS SOAR AWAY UP.

Doleful Forecast of Officials Happily Prove to Be a Miscalculation.

## CLOSES IN BLAZE OF GLORY.

Last Three Days Attendance Decidedly Alters Complexion of Affairs—Improvements for Next Year.

Tonight the gates of Agricultural park will close upon a successful fair. Yesterday marked the closing of the financial public; today's receipts represent clear profit. The doleful forecast of the situation given under the influence of lowering clouds and the sprinkle of rain, has happily not proved true. Despite the bad weather that marked the opening days the fair this year has been a financial success. The crowds that swarmed to the closing races this afternoon represented solid figures on the right side of the ledger, and in consequence all the officials feel moved upon to smile.

**BALANCE ON RIGHT SIDE.**  
Owing to the appropriation on the part of the state this year the society started out with \$7,500 in its coffers and a nest egg against the expenditure of some \$15,000, which embraced the cost of the catalogue, the premiums offered, prizes for horse races and various incidental expenses. Last night the treasurer reported something over \$15,000 taken in, this amount including the \$7,500 from the state already mentioned.

**IMPROVEMENTS PLANNED.**  
Now that the exhibition is drawing to a close the directors are already laying plans for improvements for next year. Within the next few days President Empey and one of the directors will go east and visit some of the exhibitions with the view of securing ideas for new buildings. It has been practically decided already to erect a large structure north of the present Manufacturers' building. This will be used for the women's fine arts, county exhibits and the offices of the president, secretary, other officials, and quarters for the press. The upper story will be used as a place of observation for the free attractions, which also will be featured next year. It has been also decided to make the racing the prominent feature next year, and it is proposed in this connection to become associated with the eastern racing circuit which heretofore has closed each season at Pueblo. If this arrangement is entered into it will mean that Salt Lake will see some tip top racing along the lines of that witnessed in the leading cities of the middle west. The management also has practically decided to handle the selling of pools and no longer let them out on a percentage basis. This will add materially to the revenue of the society.

**WINNERS OF DRAWINGS.**  
The feature at the fair last night was the drawing for the \$50 gold watch, which occurred in the secretary's office at 8:30. Little Jeannette Coalter, aged 4, was selected to do the drawing. She drew No. 775. A few minutes later Charles Rock, 1274 West North Temple, established his claim to the watch and was given an order on Boyd Park by key. Bateman for the timepiece. Rock is a sandhailer, who supplies contractors. In the drawing contest, instituted by Mehrey, the furrier, little Eleanor Crockett was selected to do the drawing. The winning numbers for the three sets of furs proved to be 8,230, 1,469 and 372, which respectively entitle the lucky holders to the \$30, \$20 and \$15 prizes offered.

**RELATED AWARDS.**  
Yesterday the last of the awards were cleaned up. Among them were a premium to Robert Graham of Murray on a saddle horse, and a diploma to Fred Herdysky for a variety of specimens of carved leather work. In the mineral department C. B. Durst was given a premium on a collection of minerals, J. B. Whitehead for a calendar, and the Clinton-Elberbeck Clay Manufacturing company a gold medal for display of fire brick, fire tile, assayer's crucibles, scoria, muffles, fireproofing, terra cotta lumber, fine faced brick and sewer pipe.

**FAIR NOTES.**  
It was Miss Agnes E. Teut, in charge of the art department of Z. C. M. I., who was the winner of the first prize for best display of fancy needle work at the State fair and not Mrs. Teut, as published.

## GOLD MEDAL AWARD.

The Salt Lake Coffee and Spice Mills manufacturers of Salt Lake Baking Powder, Extracts and Spices received the Gold Medal for the best display of Spices at the State Fair of 1903. No medals or premiums were given by the State Fair on any of the above goods. For QUALITY We demanded a test on these goods, but were refused the same. The statement made by our competitors in the papers that they received a Gold Medal and first prize for best Baking Powder and Extracts is misleading, and we challenge them to a test on quality of the above goods, SALT LAKE COFFEE AND SPICE MILLS.

**The Salve That Heals**  
Without leaving a scar is DeWitt's. The name Witch Hazel is applied to many salves, but DeWitt's Witch Hazel Salve is the only Witch Hazel Salve made that contains the pure unadulterated witch hazel. If you have a counterfeited E. C. DeWitt Witch Hazel Salve is the best salve in the world for cuts, burns, bruises, swellings, itching and stinging, and for all skin diseases. Sold by all druggists.

## BOOKS! BOOKS!

And then some. All of the popular fiction of the day as soon as issued. All of the University, College and Public School Text-Books. Children's Story and Picture Books. All of the Mormon Church publications. We are the largest book concern of the state.

**DESERET NEWS BOOK STORE,**  
6 Main St., Salt Lake City.

**MOTHERS**  
Who would keep their children in good health, should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work, and they grow up healthy and strong. 25c. at Z. C. M. I. Drug Dept.

## STATE TEACHERS ELECT OFFICERS.

State Superintendent Nelson Made President of the Association.

## LAST LECTURES OF THE SERIES.

Dr. Boone and Mr. Pattengill Delight Their Hearers at the Closing Sessions.

## OFFICERS FOR ENSUING YEAR.

President—A. C. Nelson, Salt Lake City.  
First Vice President—Miss L. L. Quailtrough, Salt Lake City.  
Second Vice President—L. E. Eggerston, Springville.  
Secretary—Supt. W. B. Wilson, Weber county.  
Assistant Secretary—J. N. Jensen, Provo.  
Treasurer—Wm. Bradford, Salt Lake City.  
Director (three years)—Miss M. Babcock, Salt Lake City.

The largest crowd that has attended the teachers' convention assembled at Barratt hall yesterday afternoon to hear the lectures of Dr. Boone and Mr. Pattengill, the latter dealing with the subject "Inspire or Expire."

In speaking of the qualifications of a school teacher he said: "I know teachers who have education enough, energy enough and know enough to teach."

Dr. Boone's lecture was on "The Value of Early Training." She declared that early training is what shapes the character of a man and that depends more upon the education during the first few years of his existence than any other period. "A noted educator once said," she continued, "give me the training of a child until he is four years old and I will make a man of him." Mrs. Teut urged the mothers and the teachers to speak kindly to children, not to command them. A kind

school, but they are total failures, because they lack that necessary quality, the power to inspire, without which no teacher can be successful. Dealing with the power of inspiration the speaker said: "Unless the teacher is inspired she cannot arouse enthusiasm among her pupils. 'Inspire your school or it will expire.' 'The duties of the school teacher are to stay at home nights and save up energy for the school room. Devote your time and energy in awakening in your pupils that keen interest and enthusiasm that is essential to good work. Give your entire attention and throw your whole soul into the work. Do not think, because you are teaching a 20-cent school, that you should only do that amount of work.'"

Dr. Pattengill explained that all successful teachers must have high ideals. "But when you hitch your wagon to a star," he said, "make the traces long enough so that the wheels will be on the earth."

**EDUCATIONAL TENDENCIES.**  
"Education is dynamic not static; it is a process, not a result," said Dr. Boone in his talk on "The Tendencies of Modern Education." "It implies skill, manners, morals and the ability to get results."

"One of the tendencies of the day is to socialize, to fit the boy for the life he is to lead in his manhood. Teach him a trade, but teach him to do without it."

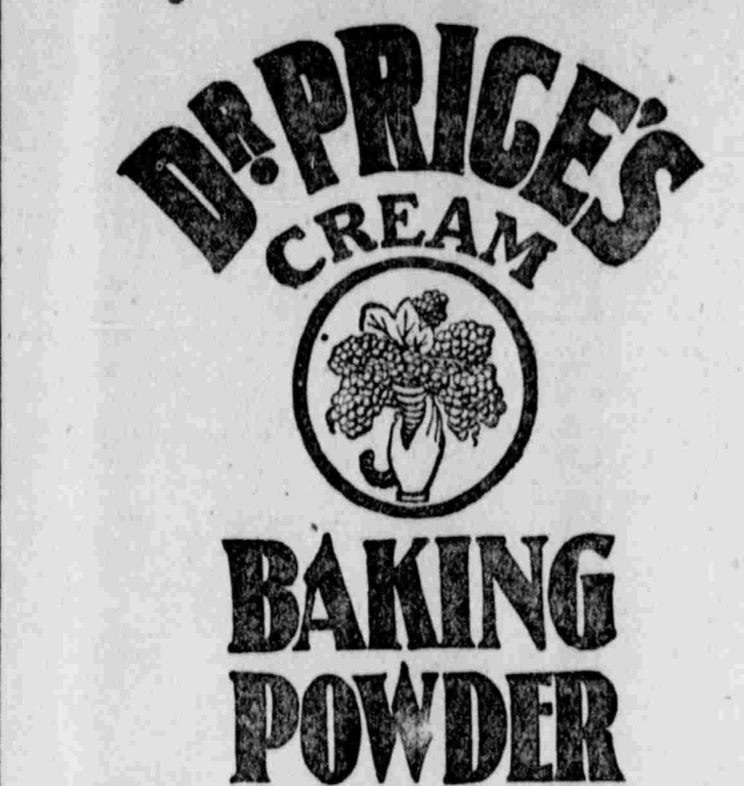

In conclusion he dwelt upon the necessity of the schools being practical. "Civics," he said, "is a subject that every child should be taught in the lower grades. Do not let them grow up an ignorant voter. It is most important that he should live a working citizen."

The first grade pupils of the Twelfth school gave a dramatization of Ernest Seton-Thompson's "Wild Animals," which was a feature of the program. Miss Maud May Babcock entertained the audience with two readings and was given a cordial reception.

Then the officers were elected for the ensuing year, as given above:

**MRS. TREAT'S LECTURE.**  
Mrs. C. W. Treat of Michigan, the president of the kindergarten of that state, addressed a large audience last night at the Assembly Hall. Her sub-

all be made trotters, nor boys breakers or blacksmiths. They must be trained every day during the first few years of their life to ascertain what they are best adapted for. The growth, education and development of the child was considered in some detail. He thought it as necessary to tell the child what to read as it is to teach him to read. Some mothers and fathers object to using the new methods of modern education, but he thought it wise to train them with the machinery of today.

Archbishop Ireland and Archbishop Ryan. It is reported upon the authority of Cardinal Gibbons that Pope Pius X. is likely to create a new cardinal in America. Of the eligibles it is generally conceded that the most prominent are Archbishop Patrick John Ryan of Philadelphia and Archbishop John Ireland of St. Paul. Archbishop Ryan was born in County Tipperary, Ireland, in 1831, and came to this country as a very young man. Archbishop Ireland was born in Ireland in 1838 and came to the United States as a small boy.

Two American Archbishops, one of whom is likely soon to be made a cardinal. It is reported upon the authority of Cardinal Gibbons that Pope Pius X. is likely to create a new cardinal in America. Of the eligibles it is generally conceded that the most prominent are Archbishop Patrick John Ryan of Philadelphia and Archbishop John Ireland of St. Paul. Archbishop Ryan was born in County Tipperary, Ireland, in 1831, and came to this country as a very young man. Archbishop Ireland was born in Ireland in 1838 and came to the United States as a small boy.

word, she concluded, will do more toward making a child's life cheerful and happy than anything in the world; a cross word is like the frost on a pretty flower."

**LAST OF THE SERIES.**  
The last of the series of lectures was delivered by Mr. Pattengill last evening. His humorous stories and puns were greatly enjoyed by the large audience and caused plenty of laughter. "Nancy Hanks and the Nineteenth Century" was his subject. "There is not so much difference between a boy and a colt as one would imagine," he said in his comparison. "Colts can not

## A REBELLION

**Food Demanded.**  
The human body will stand a lot of abuse but sometime it will surely rebel and demand the proper food in place of the starchy, greasy, stuffs on which it has been made sick.

Then is the time to feed Grape-Nuts, the most scientific and perfect food in the world. A lady of Washington says: "Three years ago I was very ill with catarrh of the stomach and was given up to die by one doctor. I laid in bed four months and my stomach was so weak and emaciated after four months of this starvation that my daughter could easily lift me from bed and put me in my chair. But when as my stomach was, it accepted and relished and digested Grape-Nuts without any difficulty the first time that wonderful food was tried."

"My doctor told me that I would have to eat Grape-Nuts, which were predigested, and although I felt certain I could not keep the food on my stomach I had to make the trial and it was a most complete success. I am now strong and in better health than for a great many years and am gradually growing still stronger. I rely on Grape-Nuts for most of the nourishment I get. The results have certainly been wonderful in my case and prove that no stomach is so weak it will not digest Grape-Nuts."

"My baby got so fat from feeding on Grape-Nuts I was afraid I would have to stop feeding them to him, but I guess it is a healthy fat, for his health is just perfect." Name given by Postum Co., Battle Creek, Mich.

Look in each package for a copy of the famous little book, "The Road to Wellville."

in which he said that the people of Utah do not realize the wonderful possibilities of their state in the dairy line, as Utah is an ideal dairy state. Her alfalfa feed is something great, producing butter of unexcelled quality, and a cheese with a rich and fine flavor. The speaker said that he had given the exhibits at the state fair considerable attention, and while they were not extensive they were of very good quality. Maj. Lane advocated cleanliness in all departments of the dairy, which pays financially as well as in other ways. He thought Utah ought to be able to compete with the great middle states in the butter trade of the country, and was surprised that more has not been done here. The visitor also remarked that he had not found a single package of cheese in this city, which he attributed to the watchfulness of the state dairy inspector.

Short addresses were also made by J. R. Murdoch, Prof. Clark, H. J. Faust, Jr., H. R. Heath and R. T. Miller. The association instructed Maj. Lane to carry greetings to the State Dairy-men's association of Minnesota, which meets Oct. 21 and 22. A resolution was passed thanking the department of agriculture for the interest manifested in the dairy business in sending Maj. Lane to this city. The next meeting of the association will be held in Salt Lake April 7, 1904.

The major leaves tonight for Logan to visit the Agricultural college.

## SALEM.

**HIGHER EDUCATION.**  
Supt. J. L. Brown Delivers Interesting Lecture—Schools Prosperous.

**Special Correspondence.**  
Salem, Utah Co., Oct. 5.—The Alumni association gave its first public meeting in the meetinghouse, Friday night, Oct. 2, William Madison presiding. County Supt. J. L. Brown delivered an instructive lecture on higher education, emphasizing the great need of eighth grade graduates procuring a college training.

The president of the Alumni association delivered a short speech outlining the work to be done publicly, by the association.

The ladies' quartet rendered one of H. U. Fairbank's latest compositions. Each member of the association responded to the rollcall, with a literary gem.

The seventh and eighth grade class presidents have arranged a spelling match between the two classes for Friday, Oct. 9, 1903.

Mrs. Martha P. Christensen left for Salt Lake City yesterday morning to represent the Salem district teachers at the state teachers' convention and State Fair. Clara Soren is teaching in her stead.

The schools are in prosperous condition.

## EPHRAIM.

**TIMBER PERMITS GRANTED.**  
Republican City Convention Will be Held October 15.

**Special Correspondence.**  
Ephraim, Sanpete Co., Oct. 6.—The first quarterly report of the free use of timber from the Manti forest reserve, was transmitted to the commissioner of the general land office yesterday.

The same shows that 39 permits were issued for the following amount of timber: Dead down timber 25,500 feet; dead standing and down timber 72,900 feet; dead standing and down and matured long timber 146,400 feet; total, 244,750 feet.

Dead timber standing and down for firewood, 157 cords; slabs from old slab piles, 60 cords; dead timber standing and down for poles, 94,100 cords, approximately 4,750 poles; living standing timber, 9,350 cords or 480 poles. The total aggregate value of said material is \$352.33.

## REPUBLICAN CONVENTION.

The opera house has been engaged by the Republican city committee to hold their convention on Oct. 15 to nominate candidates for city offices.

## ECZEMA SETS THE SKIN ON FIRE

No disease causes so much bodily discomfort, or itches, and burns like Eczema. Beginning often with a slight redness of the skin it gradually spreads, followed by pustules or blisters from which a gummy, sticky fluid oozes which dries and scales off or forms bad looking sores and scabs. It appears on different parts of the body but oftenest upon the back, arms, hands, legs and face, and is a veritable torment at times, especially at night or when overheated.

The cause of Eczema is a too acid and general unhealthy condition of the blood. The terrifying itching and burning is produced by the overflow through the glands and pores of the skin of the fiery poisons with which the blood-current is overloaded. While external applications, such as washes, soaps, salves and powders arrest itching and cooling they do not enter into the blood itself or touch the real cause of the disease, but S. S. S. does, and purifies, enriches, and strengthens the thin acid blood and cleanses and builds up the general system, when the skin clears off and Eczema with all its terrifying symptoms disappears.

Send for our free book on the Skin and its diseases. No charge for medical advice.
