

FLOATING FRAGMENTS.

More snow in the air.

Spencer (Lawson, Esq., got in from the East last night.

The City Council passed a new liquor ordinance last night.

To-morrow will be the last day of the present legislative session.

Sister Zina D. Young arrived home from the East last night, as expected.

The coal miners of Pleasant Valley, memorialized Congress against the passage of the Edmunds bill.

The history of the Mormon Battalion in the Mexican War, by George D. Noyes, is out. An interesting book.

The Utah & Northern train due in Ogden at 3 a.m. yesterday, did not reach there till noon. Snow obstruction was the cause.

S. P. Teasdel has just received by express a large lot of artificial flowers and feathers, and makes a handsome display of specimens in the show window.

To-day, in the Congressional House of Representatives, a motion by Haskell, to take up the business on the Speaker's table, to get at the polygamy bill, prevailed, the vote being 111 to 52.

We have received the *Woman's Exponent* for March lat. It is, as usual, interesting, the matter having the touch of variety. The editorial, "Why We Should Speak," is a clear and timely article.

Mr. Ottlinger, superintendent of waterworks, is laying pipes from the main north of the Eagle Gate, to Armstrong's mill, for the water motor.

The construction of the ground is such that the trench has to be dug to a depth of from 6 ft. to 9 ft. 11 in.

The Bear Lake Democrat says: "Appelle Charles C. Rich, last Wednesday, was considerably better than at any previous time this season. His bodily health is extremely good considering, his apparently not suffering the least from that source. His mind is a little weak, which seems to be the only part that affects him. His speech is getting better."

LOCAL AND OTHER MATTERS.

Re-Elected.—Hon. John Sharp has been re-elected a director of the Union Pacific Railroad Company.

Fruit Prospect.—It is thought by some people that the intense cold of the late winter has injured the prospect for peaches. It is held by some old orchardists that that class of trees never entirely escape injury when the mercury remains for any length of time below zero. We hope this season will prove an exception to the rule.

"The World."—The approaching attraction in theatricals is the great popular spectacular drama, "The World," which will be presented on Monday, Tuesday and Wednesday. It is reputed to be the greatest hit of the particular line ever put upon the stage. It is immensely billed in this city, and the theatrical posters are attracting a good deal of attention.

Home Again.—When Sister Zina D. Young arrived from the East last night she proceeded to the residence of Mrs. Phoebe Beattie, one of her daughters, where a small party of ladies had gathered to bid her welcome.

Sister Young is looking and feeling well. She attended a large number of meetings, several of which she had the privilege of addressing. She met with many relatives, obtained a good deal of desirable information from family records, and had altogether a very valuable and interesting experience. She is pleased, however, to be once more at home.

Colorado Crop Prospect.—A gentleman who recently arrived from Colorado and who has been through a considerable portion of that State, asserts that there has been a comparative absence of snow in that section. This being the case he is of opinion that Colorado will present a most excellent market for the grangers and produce dealers of this Territory for products. In fact Utah is looked to as the main source of supply in the coming season, to a larger extent than ever, the general prospect for Colorado crops being exceedingly dim, unless there should be copious rainfalls.

Horse Thieves Caught.—Last Thursday night, at Rawlins, Mat. New (Guire and Thomas Kern buried Garfield Knox & Co's saddle and harness shop, taking saddles and other goods to the value of \$200.

They next went to C. E. Bydenburg's stable, appropriating a couple of John F. Foot's horses, and left for other parts.

Deputy Sheriff Daley, J. Foote and others got on the trail of the thieves and found them in an old cabin of a deserted ranch. The desperadoes refusing to come out, a fusillade was opened on the dilapidated building, when the robbers gave up, one being wounded in the hip and the other in the ankle.

A Captured Cowboy.—Yesterday, Captain Barron, of Elbert County, Colorado, passed through Ogden with an escaped cowboy, who had been indicted for murder, and whom he had captured in Washington Territory. Captain Barron is ex-sheriff of the county to Colorado and he is a member of the Rocky Mountain Detective Association, and has been employed hunting and capturing murderers and other desperadoes for a number of years. Whenever he went after him he always got him, and never let go of him until he was secured in limbo. Within the past two years, he has captured one hundred and forty-six such characters.

The murderer is a fine-looking, well-built fellow, and appears to be about 25 years of age. This morning he was reading the news, and seemed to be quite unconcerned about either his present lot, or future fate.

That Rumor.—Some people are curious to learn who the gentlemen are who are reported as having been considered in connection with the "Star Chamber" committee proposed by the Edmunds bill, providing that despotic, unconstitutional, un-republican measures should pass. They are George R. Maxwell, Sam. Merritt, George A. Black, John R. McBride and—Agramonte.

We merely give the report as a rumor. One of the evidences that it is believed by some non-Mormon circles to have some foundation, is the fact that it has not contributed to any large extent to the enhancement of their happiness.

We must notice why any parties who give either open or tacit approval to such a measure as the bill referred to, or who object to it in their private views and expressions but fail to enter the faintest protest where it is likely to have effect, reasonably find much cause for complaint. It is not likely that those who fail to take issue against the proposed political outrage would, in the event of the passage of the act, have the consolation of the complexion they would desire.

But we have yet too much regard for the nation and its Legislature to be led to the unqualified belief that such an unchristian bill will pass through Congress. It would be such a calamity to the boasted civilization of the century, to say nothing of republican institutions.

Legislature.—In the Council this afternoon, the committee on counties, to whom was referred the remonstrance of Joseph Meeks and others against changing the county seat of Piute County, reported that there was no bill before the Legislature to accomplish any such object. The committee on municipal corporations recommended the passage of the Park City charter.

The House bill to prevent bulls from running at large in Morgan County was rejected as undignified legislation. The bill to incorporate Kanab, Tropicville and Rockville was passed. A new general liquor bill, adopting the Governor's suggestions, was read and referred. The conference committee recommended that the Council recede from its amendments to the fish and game bill. A bill creating the office of territorial statistician was passed.

To the committee on general appropriation bill was read, showing a total of appropriation this session of \$131,240. The deficiency bill showed a total of appropriations for sundry claims and losses of \$24,315.52. Grand total, \$155,555.52.

The new charter of Salt Lake City was made the special order for a session to be held this evening at 7 o'clock.

After Cheap Meals.—Yesterday afternoon three soldiers entered Mr. John Hagell's restaurant and called for and were supplied with viands. One of the tricky trio slipped out, and when mine host applied for the pay, the impudent couple said that number three was cashier for the crowd and had carried away the coffers.

Mr. Hagell obtained the aid of a couple of policemen, who took the two under their control. On the street number three was espied and hastened to escape. He was caught by officer Salmon, on whom he drew a large butcher knife. He sought to cut the Salmon into slices. That official applied summary dissection, however, by a dexterous movement or two, and the knife fell to the sidewalk, from which it was picked up by a boy.

The three military meal hunters were taken to Fort Douglas by the camp authorities this morning.

Counterfeit Coin.—Yesterday afternoon, a man giving the name of Benjamin A. Marshall, hailing from Farmington, entered the music store of Mr. John Daynes, and tried to pass a bogus coin, of the size and complexion of a twenty-dollar gold piece, for the genuine article.

Mr. Daynes detained Marshall until his shabby brought a policeman, when he was marched to the City Hall and placed in jail, to await trial on a charge of attempting to pass counterfeit money.

Mexican Newspapers.—We are indebted to Elder August Wilcken, now on a mission in Mexico, for copies of the *Monitor Republicano*, and the *Siglo Diez Nueve*, Mexican journals, published in the Spanish language.

High Council.—The members of the High Council will meet in the Council House on Friday evening, at 7 o'clock.

WILLIAM W. TAYLOR, Clerk.

CITY COUNCIL.

Proceedings in the City Council, Tuesday evening, March 7th, 1882, Mayor Jennings presiding:

A petition was presented from W. J. Hooper and 116 others, comprising the fire brigade of the city, setting forth that the duties required of them as firemen were arduous and dangerous, and consumed a great deal of their time, and asking in consideration of past services, rendered voluntarily, and the future demands on their time and energy and the attendant risk of life and limb, that the sum of 50c. per hour be allowed them while in active service. Referred to the committee on fire department.

A petition from Arthur L. Thomas and 30 others, residents and taxpayers of the city was submitted, asking that suitable crossings be made without unnecessary delay, at the intersection of Second South and West Temple and Second South and First West Streets and West Temple, at the intersection of Second South Street, as well as crossings be largely used by all the citizens of said city in going to and from the County Court House, and by the citizens of the Second Municipal Ward in going to and from the general postoffice and the business centre of the city. The petitioners represented that said crossings at the present time were in an almost impossible condition. Referred to the committee on streets and alleys.

George Peterson and 32 others petitioned for the Council to cause to be rebuilt as speedily as possible the bridge crossing Jordan Creek, near Harde's property on the road to the Inmans Canyon. Emigration and Parley's Canyons. Referred to the committee on streets and alleys.

Lucius E. Hall petitioned to have First East Street, north of North Temple Street, which is laid out as an eight rod street, curtailed to four rods, to correspond with the width of said street from the Eagle Gate north. Referred to the committee on streets and alleys.

Charles Lang petitioned to have his license as merchant transferred to Messrs. Muller Bros. Granted.

A communication from the city treasurer was submitted, giving a statement of the amount in the sinking fund and the manner in which it was invested, showing a balance in said fund not invested of \$2,788.05. The treasurer respectfully asked how the Council desired said amount to be invested. Referred to the committee on finance.

The committee on streets and alleys, to whom was referred the petition of F. Heath and others asking that West Temple Street be gravelled from Eighth South to Topper Street, reported, recommending that the work be done as asked for and the supervisor of streets be instructed to perform the labor as soon as practicable, or in the order of business. Adopted.

The committee on streets and alleys, to whom was referred the petition of Keyser & Moritz, asking that the privilege be accorded them to convey through the public streets, in underground pipes, the washing of their brewery, Tenth Ward, to the old Burns' property, reported favorably thereon, and recommended that the petition be granted. Adopted.

The committee on police to whom was referred the petition of the city police force, asking an increase of salary, reported that while recognizing the unpleasant duties incident to their position and the increased labor imposed upon them of late years, they could not, in view of the present financial condition of the city, consistently recommend an increase, but believing that the present number of policemen was sufficient to meet the requirements of the city, the committee recommended that the present police force be increased from seven to nine members. The committee set forth that this additional help would not only relieve the present policemen, but also enable the marshal to give more attention to the sanitary condition of the city. Adopted.

Alderman Dinwoodey, chairman of the committee on waterworks, to whom was referred the petition of Rev. D. S. Tuttle, rector of St. Mark's parish, asking the use of water for the purpose of watering a motor, etc., recommended that the petition be laid over until the ordinance in relation to water motors, now pending, is acted upon by the Council. Adopted.

The committee on elections, to whom was referred the subject of ascertaining what officers are by law appointed by the City Council, suggested: Combees for filling the Council. The following names for the consideration of the Council, viz: Auditor, John T. Cairns; assessor of water rates, John H. Windsor; supervisor Charles Livingston; captain of police, Jallor, market master and inspector of provisions, Andrew Hunt; watermaster, C. H. Wilcken; Sexton, Jos. E. Taylor; Surveyor, Jesse W. Fox, Jr.; attorney, A. H. Raleigh; sealer of weights and measures, M. H. Peck; chief engineer of fire department and superintendent of water works, Geo. M. Ottlinger; pound keeper and weighmaster, James Sheimerdine; in regard to salaries the committee recommended that they remain at the same figures as were paid the past year. The report was received, the nominations of the committee were voted upon severally and sustained, and the recommendation regarding salaries was adopted.

The committee on construction of the Jordan and Salt Lake City Canal reported that \$4,597.75 had been expended during the month of February on the various accounts connected with said canal—chiefly for lumber for dikes—and presented therewith the vouchers or each item of expense. Approved and ordered paid.

The Police Court report for February was submitted, showing that 104 cases had been tried and eight dismissed; that \$1,830.95 had been collected on appeals and paid into the city treasury, and labor fines assessed to the amount of \$226; total of cash and labor for month, \$2,056.95. Approved and filed.

The following bills for the month ending February 23, were presented and allowed, viz: Marshall's expense bill, \$371.68; expenses of fire department, \$192.35; gas to street lamps and city buildings, \$1,048.75; prisoners' meals, 1,029.15; \$241.35; collecting dog tax, \$24; coal for City Hall, \$50.

A bill for Jurors' and witnesses' fees, and reporters' charges, etc., in case of Salt Lake City City Court Third District Court, was referred to the committee on claims.

The city pound keeper reported for the three months ending February 23, showing that 15 animals had been impounded, and \$21.90 received for fees and forage. Two animals were sold from which \$8.80 was realized and paid the city treasurer. Approved and filed.

The committee on construction of canal, was appointed as follows: Wm. Jennings, mayor; Jesse W. Fox, engineer; and George Romney, counselor.

The bill for an ordinance licensing and regulating the manufacture, sale or other disposition of spirituous, vinous and malt liquors, was taken up on its second reading and discussed until a late hour. The bill finally passed the Council and was ordered enrolled and published.

Adjourned to 6 o'clock, Tuesday, March 14th, 1882.

SPECIAL BUSINESS NOTICES.

BEEFACTORS.

When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical; but proof of its merit by actual trial had dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

We still continue to sell Underwear at popular prices.

MEDALS AND TESTIMONIALS.
 IT IS A MATTER OF GENERAL KNOWLEDGE that many houses have relied for their reputation, in the several lines of business, upon the obtaining and advertising of medals, diplomas, and testimonials, and that the obtaining of the same has become an affair of management, intrigue and often of downright bribery, rather than a question of intrinsic merit, is well understood by those who have had even the smallest amount of personal experience in competitive commerce; and the fact that the awards obtained are made the subject of the
Grossest Misrepresentation
 can but be apparent to the general public, the thinking portion of whom understand and appreciate these matters at their true value. The many direct and indirect charges of fraud, favoritism and collusion in reference to the awards at our late
CENTENNIAL EXHIBITION,
 and the very general method pursued by the majority of exhibitors, successful and unsuccessful alike, in regard to the value of awards distributed, afford only further corroboration of the views long held by many of our most advanced thinkers, that the whole system of competitive awards is radically wrong, and that instead of its being a fair test of the merits or qualities of the articles in competition, it is but a source of
JEALOUSY, CORRUPTION AND FALSEHOOD.
 This principle now so generally understood has been recognized and acted upon by GEORGE WOODS & COMPANY from the beginning of their business career; and they have
 NEVER EXHIBITED THEIR INSTRUMENTS TO COMPETE FOR PREMIUMS, and for similar reasons have never solicited or published a testimonial from professional musicians. That they have acquired such an enviable reputation without the aid of such efforts as many of their competitors have found necessary to adopt, can but be considered as not only an indication of the superiority of these instruments, but of the
CORRECTNESS OF OUR VIEWS UPON THIS IMPORTANT AND OFTEN MISTAKEN QUESTION.
 We sell these instruments for Cash and on Installments, at marvellously Low Figures.
