

HAVE REACHED AN AGREEMENT.

Differences Between Logan City And Hercules Power Company Harmoniously Settled.

PROPOSITION TO SELL LINES

To City Will Be Submitted in a Few Days—Funeral of Mrs. Josephine Larson Nesson.

Special Correspondence.

Logan, Aug. 24.—At length Logan City and the Hercules company have reached an agreement on one important matter. During the past few days a number of conferences have taken place between Mayor Hansen and Manager L. L. Nunn of the Hercules Power company—owner of the Logan plant. The entire local light situation was discussed, and harmony reached on the question of the height of the power company's dam. It was agreed that the latter should abandon its intention to raise its dam five feet, and raise it only six inches, thus interfering to but a very slight degree with the city's power house, which is on the site of the company's dam.

Mr. Nunn announced before his departure that he would submit propositions for the sale of the above-named lines to the city officials within 10 days.

MRS. JONES DEAD.

Prof. Alex. Lewis, leader of the Logan choir, received a telegram Monday announcing the death of his sister, Mrs. Mary Jones, at her home in Castle Gate, Utah. The deceased lady was born in Merthyr Tydfil, south Wales, 67 years ago, and had lived in Utah 20 years. Her husband preceded her to the grave some years, but she leaves five children, all grown. She was a woman of excellent character and was highly esteemed. On account of the absence of Prof. Lewis, who left to attend the funeral, there will be no practice held by the Logan choir until Saturday evening, Sept. 5.

FUNERAL SERVICE.

One of the largest funerals ever held in Newton was that of Mrs. Josephine Larson Nesson, wife of Neph Nesson. The speakers were Elders W. F. Jensen, J. C. Griffin, W. H. Griffin, F. Jacobson of Logan, and Bishop W. F. Tigby. All spoke in high terms of the splendid character of the deceased lady, her devotion to her husband, her children and the Gospel, and of the efforts made by the physicians and family to save her life. The vast audience moved to tears at the recital of the closing scene.

The deceased lady was born in Copenhagen, Denmark, on June 3, 1834, and came to Utah when a child. She was a husband and four children to mourn her untimely demise, and general sympathy is expressed for the bereaved husband and family. Over 40 vehicles followed the remains to the grave, coming from many miles to pay their last respects to the departed lady.

MRS. JACK'S DEATH.

Passing of a Pioneer Woman Whose Life Was Praught With Good Deeds.

Mrs. Mary Ann Jack, whose death is announced in another part of this issue, was born March 25, 1822, at Inneskillen, County Fermanagh, Ireland, and was there in her seventy-second year. She joined the Church at Gibraltar in 1854, being one of the three converts made there by Elder Edward Stevenson during his mission to the Rock. The deceased emigrated to Utah in 1857, in the company of Capt. Israel Evans. This was one of the handcart companies, where the dreary plains were traversed afoot, and the scanty supplies were drawn in the two wheeled cart. Mrs. Jack has been true in her integrity to the Gospel of Jesus Christ, but for many years she has suffered from the effects of an accident through being precipitated from the seat in a high wagon down onto the rocks in the bed of the Weber river, so that she has not been as active in her religious life as she would like to have been. She has failed in health very rapidly of late and passed away from old age and general debility. The deceased has lived in the Pinedale, this city, since the move. She has one son, Wm. T. Jack, who is president of the Cassia state, and one daughter, Mrs. M. A. Buchanan of this city, who survives her. Wm. T. Jack was sent for Monday evening and arrived in the city on this morning's Oregon Short Line train.

Funeral services over the remains of the deceased will be held from the first ward assembly room Thursday, Aug. 27.

PRELIMINARY MEETINGS OF OHIO DEMOCRATS.

They Are by Far Most Hotly Contested in History of the Party in the Buckeye State.

Columbus, O., Aug. 25.—The preliminary meetings of the Democratic state convention here are the most hotly contested in the history of the party in this state.

The contest between Mayor Tom L. Johnson of Cleveland and John L. Zimmerman of Springfield for the gubernatorial nomination overshadows any other, so that nothing is heard today of the platform, the proposed constitutional amendments, senatorial endorsement or the rest of the ticket. If Johnson wins at the district meetings this afternoon and at the platform and the delegates to the state convention tonight he will be able to name the senatorial candidate and the rest of the ticket and control the new state central committee as well as secure the adoption of his platform and the party expects to arrive at Ilwaco, Wash., just inside of the Columbia river bar, about 5:30 this evening, when the party will board the narrow gauge train awaiting on the dock and be transported up North beach to the Breakers hotel. Tomorrow the councilmen will be given a dip in the surf and a run up to Nacotta and Orsterville at the north end of the peninsula. On Wednesday night they will leave for Portland by boat. CHICAGO WAITERS.

They Are Making Desperate Efforts to Make Strike Succeed.

Chicago, Aug. 25.—Striking waiters and cooks made another desperate effort today to put into effect the strike order which yesterday proved almost a failure. Pickets were posted about all the establishments where strikes were called to stop, if possible, the men continuing at work. Committees also visited other restaurants to call their employees out, meeting with but indifferent success. An appeal for aid to the Steam Power council, which controls the city's water works, resulted in the appointment of a special committee from that organization to investigate the merits of the strike.

AMERICAN BOAT AGAIN VICTORIOUS.

(Continued from page one.)

The first leg was south, giving the boats a beat down the Jersey shore. The next was north-east by east. The boats were under the conditions of the wind prevailing at the time, would give the yachts a broad reach from the first to the second mark on the starboard tack.

PRELIMINARY SIGNAL GUN.

The preliminary signal was fired at 10:45 and immediately after the light for position began. An usual, Reliance followed Shamrock in her various maneuvers about the line, neither boat going very far away from the starting point. When the warning signal was fired at 10:55 Shamrock was close to the committee boat. She immediately headed along the line on the starboard tack and Reliance coming down from the windward attempted to blanket her. Both boats four minutes before the start were holding across the line on the starboard tack with Reliance on Shamrock's weather quarter. Then they both were back with Shamrock in the lead and came for the eastern end of the line on the port tack. Reliance, however, kept right after her by the meantime a great tank boat came plunging between the yachts and Reliance was forced to hold away.

WRINGE'S NEW TACK.

She went to the stern of the committee boat and swinging around headed for the line on the starboard tack. Contrary to his custom, Capt. Wringe kept away and was 200 or 300 yards to the rear of the committee boat when Reliance, coming under the stern of the committee boat, crossed the line at 11:00:27 (unofficial). Capt. Wringe held away too long before coming about and heading for the line with the result that he was under the stern of the committee boat when the handicap gun was fired, two minutes after the start. He ran up to the line on the starboard tack and was a quarter of a mile ahead of the Jersey shore on the port tack. It looked as if he had lost about 25 seconds by slowness in reaching the line. Both boats broke out baby jib topsails just before the start.

HEADING FOR JERSEY SHORE.

Ten minutes after the start they were heading for the Jersey shore on the port tack. Reliance in the lead but appeared to be making very much on Shamrock in the light air. The wind had dropped to about five knots and a thick haze began to set in from sea. The tack inshore was a long one, both boats evidently feeling that they could not beat the same about along the Jersey shore than farther out.

It looked as if Shamrock was making a better thing than ever before.

RELANCE AHEAD.

On getting nearer the shore the breeze seemed to be a trifle stronger and Reliance began to gain. At 11:40 she had pulled out until she was from three to four miles ahead of Shamrock, being a quarter of a mile to the windward and the same distance out ahead of the challenger. The boats sailed very slowly, scarcely more than four miles an hour. At 11:43:30 Reliance, looking about 30 miles off Seabright, reached the starboard having held the port tack for 40 minutes. Shamrock held on until she got well to weather of the Reliance's wake, when she also tacked. At 11:45 both boats were heading off shore on the starboard tack. Reliance in the lead, but Shamrock pointing fully as high. The wind began to shift to the west and south-east, and it looked as though the boats would be able to turn the first mark without another tack.

WEATHER BECOMES THICK.

This tack proved to be fully as long as the first one and the race was developing into an exciting contest. Neither boat seemed to be able to secure any decided advantage, although the Reliance was leading. Shamrock held the windward position. At 12:11:21 Reliance went about on the port tack and headed inshore. Shamrock followed at 12:23:35. At this time the weather was thick and it was difficult to discern the yachts in the haze.
