He was rescued by quick work and is severely but not fatally injured. A Pullman coach was left with one end hanging over the chasm but stopped there, and the other six cars, all full of passengers and including A. S. Kimberley's special and including A. S. Kimborley's special car, remained on the track. Thirteen persons were injured and taken to the La Junta hospital. Doctors were taken

# TYPHOON IN JAPAN.

#### Does Immense Damage in Different Parts of the Empire.

Elder Heber J. Grant of the Council of Apostles is in receipt of a letter from Elder Horace S. Ensign, president of the Japan mission, in which he states that the work there is going along nicely, the Elders being much encouraged in their labors. President Ensign encloses in his letter two clippings from the Japan Times of Sept 24 and 25, which tell of a severe wind-storm which visited that section be-tween the 18th and 29th ults., doing tween the 18th and 29th ults., doing great damage in many parts of the country. The most serious damage caused by the storm was the partial destruction of the Yodobashi Primary school near Shinjuku, in the suburbs. The accident took place at 11:40 a, m. when the pupils were in the class rooms, the house succumbing to the gale and burying all the children be-neath the debris. Six boys and one girl were killed and several others severewere killed and several others severe-ly injured. The typhoon also destroy-ed other schoolhouses and did immense damage to houses, bridges and crops throughout the country.

# FOOTBALL IN THE AIR.

University Students Yell Lustily in Honor of Tomorrow's Game.

The students of the University of Utah are quite enthusiastic over tomorrow's football game. More Miners Wanted-Prevailing Shortage in Cars. While the closing down of the mines of the Amalgamated Copper company

at Butte and the throwing out of employment of several thousand men at Anaconda and Great Falls has had a disastrous effect, it has not been so bad as it might be upon the coal mines of Kemmerer and Diamondville in Wyom-

ing.

At Diamondville the effect has, of At Diamondville the effect has, of course, been quite bad because it was from there, that the Butte mines got their principal supply of coal and the coal miners will necessarily be obliged to look for employment elsewhere. Regarding the situation at Kemmer-er Mr. P. C. Kittle, general sales agent of the Kemmerer Coal company, said this afternoon that the car situation was the worst feature and that their output of coal was limited on that ac-count. There is a large shortage of cars owing to the demand for them on ac-count of the shipping of sugar beets. Their output now, he said, was about 1,500 tons of coal per day, and if they hed the cars then contained the shipping of sugar beets.

Their output now, he said, was about 1,500 tons of coal per day, and if they had the cars they could increase it to 5,500 tons. All over the northwest there is a scarcity of coal and dealers are clamoring for it. The present sup-ply is very limited and Mr. Kittle said he had even had a demand for coal from as far east as Sloux City, and even from Des Moines. Ia. He said there was also a scarcity of men, but that the trouble with the miners at Butte, who have been laid off is, that they are mostly metal min-ers and not coal miners.

ers and not coal miners. Coal miners are in demand at Rock Springs, Hanna, Cumberland and Spring Valley, which are away behind in

their orders, and are short-handed. The towns to some extent are, and will continue to be effected and there will be some injury to business. The Ore-gon Short Line and Union Pacific have and a low rate for coal miners who are looking for work which will be tak-en advantage of and which will to some

en advantage of and which will to some extent relieve the situation. Although the conditions are not good, yet E. E. Calvin, assistant general manager of the Short Line, said this morning the situation was 90 per cent better than it was a year ago this time. This, of course, applies to the districts reached by and tributary to the Ore-gon Short Line. It is reported that there is a short-age also in Nebraska and Kansas.
