

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY, NOV. 5

SACRAMENTAL SILVER SERVICE.—This morning acting Bishop John R. Winder purchased a very handsome silver set, to be used for sacramental purposes in the Fourteenth Ward Assembly Rooms. The set consists of nine pieces in all—one large pitcher, four baskets and four cups. The articles were purchased from Mr. C. C. Asmussen.

ANOTHER OF THE SAME.—Cora Conway is following in the wake of Kate Flint, having commenced suit against Jeter Clinton *et al* for the recovery of \$19,053.00, three times the alleged value of property said to have been destroyed by the city officers when they abated a nuisance the *demi-monde* establishment of the plaintiff some time since. Messrs. Robinson and Spratt are the plaintiff's attorneys.

FINE AND IMPRISONMENT.—Wm. Smith, of Second South Street, was before Justice Clinton this morning on three charges of selling liquor without license. Each charge was proved and on the first charge he was fined \$100, the second \$100 with the addition of thirty days' imprisonment, and on the third \$100 and six months' imprisonment. Mr. Spratt, counsel for defendant, gave notice of an intention to apply to the District Court for writs of *certiorari* in each case.

ABOUT A NAME.—"Inquirer," writing from Tooele County, states that an agricultural society was organized in Pine Canyon, a small settlement in the above county, about a year ago. The name given to the organization was the "Tooele County Agricultural Society." "Inquirer" objects to the name because it is only a settlement and not a county association, and says, "Suppose Tooele County should take a notion to form an agricultural society, what should such an association be called?"

This is a small matter and is not likely to create any difficulty among sensible people. We believe that when Tooele County does "take a notion" to organize such a society the good people of Pine Canyon will immediately fall into line, amalgamate and call their society the Pine Canyon branch of the County association. Let the County try it and see. Tooele County certainly should have an agricultural society.

RETURNED.—Professor John R. Park, principal of the Deseret University, reached this city last night, after an absence of about fourteen months. The professor left this city a year last September for the purpose of visiting the schools in the eastern States and in Europe, with the view of improving the common school system in Utah, and incorporating therein those methods proved by experience on both sides of the Atlantic to be the best. During his trip the Dr. visited the principal schools in Boston, Philadelphia, New York and St. Louis, and in several other places in Massachusetts, Pennsylvania, New York, Missouri, and Ohio. In Europe he travelled in Switzerland, Germany, Belgium, France and Italy, visiting several of the principal schools in all save the latter country. He also visited some of the principal schools in London, England, and Edinburgh and Glasgow, Scotland. During his trip he has gained a fund of information relative to the organization of school systems, and the methods of imparting instruction, which we have no doubt will, in the able hands of the Dr., be made subservient in promoting the educational interests of this Territory. The very many friends, including all the former pupils of Elder Parke, will be glad to hear of his safe arrival home, and to learn that he is in excellent health.

DENMARK.—The following extracts of a letter from Elder Kanute Peterson to Elder Jos. F. Smith, dated Copenhagen, Sept. 24, have been kindly placed at our service—

"During the quarter ending August 20 there has been 274 baptisms in this mission, which, considering that it is a day of gleaming, cannot be looked upon discouragingly; the time is again drawing nigh, when an additional missionary force will be placed in the field, to labor during the winter; 636 souls have left Scandinavia for Utah during the past summer, and we are now bending our efforts to fill up the vacancies caused by the emigration.

"The coming winter brings gloomy prospects for the poor people; the price of coal is 100 per cent in advance of last year; the price of provisions is also much higher than last season, as also merchandize, whereas wages stand unchanged.

"Sanpete county has sent us a little rising of \$1,200 to emigrate the poor, and Brigham City has forwarded about \$215; these amounts have been sent as means belonging to the Scandinavian P. E. Fund. We have received a trifle from a few other settlements, but besides these, quite a number of drafts have come in from private individuals, for relations or acquaintances here.

"Crops have been very good here this season, and hay uncommonly plenty.

"It pleases me to learn of the prosperity of the people in Zion."

ENGLAND.—We learn from the *Millennial Star*, Oct. 15th, of a district meeting held at Manchester, Sept. 29th, at which the following elders were present: President Albert Carrington, Elijah A. Box, and G. F. Gibbs; also from the Liverpool office—Elder John H. Burrows and Bro. Walter Reynolds. The following Branch Presidents were also present, Elders John Schofield, President of the Manchester, James Barton, President of the Stockport, T. Platt, President of the Burslem, and W. Boydell, President of the Halshaw-Moor Branches.

The branch presidents generally reported encouragingly of the condition and prospects of the portions of the work under their charge.

Brother Walter Reynolds, Elders John H. Burrows, George F. Gibbs and Elijah A. Box addressed the congregation at the morning meeting, and an interesting discourse was delivered in the evening by President Albert Carrington.

FROM WEDNESDAY'S DAILY, NOV. 6.

NOTICE.—Bishop E. D. Woolley, of the 13th Ward, desires us to announce that public meetings will be held in the Assembly Rooms of that Ward at ONE o'clock in the afternoon and SIX o'clock in the evening of every Sunday until further notice.

SALT LAKE CITY, Nov. 6, 1872.

Editor Deseret News:

Please say, through the columns of your paper, that the books sent for by the Ladies' Physiological Glass have arrived. Persons wishing to obtain them can do so by calling on Miss Mary E. Cook, at the Social Hall.

HATTIE C. MORRIS, Secy.

SMASHING WINDOWS.—Last night several soldiers threw rocks at the windows of a house in an alley adjoining Commercial Street, occupied by Susan Vance (colored). The windows and a stove were smashed. Susan had several men arrested as being concerned in the affair, but she was unable to prove that they were the parties who did the damage, and they were consequently discharged.

RECOVERING.—The many friends of Bishop Littlewood, of Newton, Cache Valley, are no doubt pleased to see him again in this city. The Bishop is one of the most respected citizens of Cache Valley. He has lately undergone a severe surgical operation under the hands of Dr. Anderson, and has been confined to his bed for several weeks, but from present appearances he bids fair to enjoy life and health for many years to come. The Bishop has our best wishes for his health and prosperity.

PROGRESSING.—At a late meeting of the tax payers of the 16th Ward, the assessment of a tax of two per cent. for the purpose of providing means to complete the new Ward school house was unanimously voted. If this tax is promptly paid, doubtless the building will be so far finished that it will be occupied during the winter. The walls of the building are now up to the level, the roof timbers are mostly in position, and shingling will soon be commenced. The roof is self-supporting. The work is being conducted under the immediate supervision of Bishop Kesler.

PRESIDENT SMITH AND COMPANY.—The following note, which has been courteously handed to us, will be of interest to our readers:

CHICAGO, Oct. 30, 1872.

President B. Young:

Dear Sir:—We arrived here last evening, all well, after a very hasty ride from Rock Island, going at times at the rate of one mile per minute. The train across the plains having lost time we did not arrive at Omaha till 6 p.m. in a rain storm. We immediately took the "Transfer Train," crossed the river, and in the regular train started on in a thunder storm—all without the least inconvenience, except a very slight sprinkling, for which we were well prepared. We gained a little lost time during the night, arrived at Rock Island before we breakfasted, and the remainder of lost time was made so that we arrived here on time.

Assisted by Bros. Snow and Dunford, the missionaries to Europe, including Mrs. Fielding, went on by last evening's train.

We have had no annoyance from dust, except at Cheyenne, where, just as we entered the town, a dust storm, that would well compete with the most boisterous in Salt Lake City, kept us all in car, with every ventilator closed. Of course we saw but little of Cheyenne.

I saw much to admire at Rock Island, but there, here and everywhere, the narrow streets and absence of sidewalk rivulets are very deteriorating.

The landscape scenery between this and Rock Island, interspersed as it is with towns and villages supported by a richly productive soil, is truly delightful, viewed as we were going at almost lightning speed.

Our present company consists of Bros. Snow, Call and Dunford, Sister Thompson and your humble correspondent.

We are well, sleep well, eat well, for we find our "Lunch Baskets" well supplied with eatables and the car fountains supply us with good water.

With deepest sentiments of gratitude, esteem and respect, Yours &c.,

ELIZA R. SNOW.

LONDON.—The *Times* this morning in an editorial on the result of the Presidential election in America, says the re-election of President Grant will be eminently satisfactory and will defeat the audacious intrigue to secure the control of the government of the United States. President Grant has not proved a perfect chief magistrate, he has been guilty of extreme carelessness, and it is to be hoped he will take a lesson from the developments of the past six months. His errors were errors of ignorance, but this defence will no longer hold good. The past must be effaced. The reform in the civil service urgently demands the appointment to office of persons qualified to administer their duties.
