of the troubles in the far ent, and the minister has steadily evident to give sim-information so to the aronicon and the prospects. Still there are few more ov-well funct to talk about China as bis. A great poor of his lith has been spent in Pokin. He contest of user the orbited families in China, and he has long rat-under the shadow of the dearon thrams. He is such to be a special favorite of the employer, and his inframes with both the Tariar and the Chinase of Li Hung Chicals He is a strong friends of J. Hung Chica, He is a strong that it was included and it may be that it was included to contain teception which the great of every gree me during my case on China and it may be that if was introduce to confinit encoperious which this press (ex-roy gaves me during my star in Child list year, that Moniter Yang Yu em-anithed to give me his views on the present situation and the future of Asis through me, to the American people It ticks teams time to prepare for the li-triview. The questions had to be all mitted to his excellency beforehand, an appenda duriney letter which I receive presensing morning from his priva-spectary gave on the amountement that his excellency would receive in its due to excellency would receive in its due to excellency would receive in its due to the second of the second that his excellency would receive in its due to the second of the second of the second of questions.

## AT THE LEGAT

It was just is o'clock when I to an the residence of justice Has be hills about Washington and it The fills about Washington and a at the log state manuan when themes the Chinese legation. I magnificent building, common view of the shuber by of Arlingt at the silvery sheet of the Priver, which, lives aitver built southern horizon as you stand aspect the legation and look or tigs. I present the department, in southern horizon as you stand aspect the legation and look or tigs. I present the department of the man of the touried states. The of a diptomatic builting in Wash precident burgers of a diplomatic building in Washington n practically integra furthery. To make some come is in our result for makes, and they in many respects, a rest subject to American laws. To large which four over their building project them, and when you entier the project them, and when you entier the results of them in a foreign cost

By serroundings in the Chiness lega-on, however, were out to different form those of American houses. The ouse is further with only one of the ouse is further with a solar and the trans-ad with American solar and terms and nets, and the walls of the partice are use with mainferent area of covers. The el blue num this the furninge in a fun-sional Assertion type. The day of "his read toy had" on me to memory the second to the day memory. This has a second to the second assertion when two bits using Collimation and the two bits and asserting on English. The memory the second further, between the back of the second to the two merces are second to the two two two memory to the second to the two two two memory to the two two two two two two two two speak English parties
