Referring to published allegations that this rejection was the fruition of a preconcerted "Hearst-Murphy deal," Mr. Hearst said with much vehemence: "I would rather be defeated 10 times over than see the people of this state denied their rights as American citizens to nominate by petition." All night long and to-day a steady stream of people left the reservation without having found any land that they believe worth taking up. It is still the public opinion that the reservation was opened under unfair conditions. People who abided by the law and waited for the signal assert that they had no chance against those who drove or walked over the boun-daries the night before. That considerable litigation will re-sult from overlapping and disputed claims is evidenced by the fact that a number of prospectors have retained lawyers to institute damage suits. There was considerable excitement at Hawthorne last night, when Ben Han-ley, a clerk in a store, found four men in the place. He opened fire with a revolver and struck one of the men in the cheek. Hanjey escaped.

He was probably one of a large gang of Mexicans employed here about four months ago. There are no clues to the murderer.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weaknessare invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been establ shed the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this

generous offer of assistance. If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn. Mass., for special advice. When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, 'I do not believe it will help me."

the appeals from the appellate divisich's orders in the New York City nomination cases. As a result of the decision these candidates will be placed

Temmany candidate in the Sevence of togressional district: Charles V. Farnes. Tammany candidate in the Minth congressional district: Henry M. Goldfogle, Tammany candidate in the

Firsteenth congressional district. Judge Otto Rosalsky's name will also go in the Independence league column, together with the names of three as-semblymen and senatorial candidates. Judge Gray real the decision, which was by the whole court as follows: "Six of the appeals before us are from orders of the appealate division. The sole question involved in these appeals is whether when certificates for independent nominations are re-quired to be filed in the same office, any one of such certificates shall be held invalid because it is made for the nomination of more than one candi-date, the electors making it being qual-ified to make a certificate for the nom-ination of all of the candidates mean-tioned therein. "We find spotning in the statute

tioned therein. "We find nothing in the statute which forbids nominating certificates of this character; nor does there seem to be any practical ground which would be fatal to this court and the appellate division, that the election law should be construed liber-ally to give effect to the will of the people. These views lead to a reversal of the order of the appellate division in these cases."

Oswego, N. Y., Oct. 30.—After an all-day tour of the lake counties, Charles F, Hughes, Republican candidate for governor, spoke here tonight to an au-dience that filled the Richardson the-ater. It was his tenth speech of the fay, and in it Mr. Hughes took occa-sion to review practically all of the many topics he has discussed from time to the since his campaign began. The day was one of rain, wind and snow, but the outdoor crowds which greeted Mr. Hughes at the towns where his train stopped were as large and demon-strative as any he has had on his up-strate trips. In all his speeches today he spoke of the prosperity enjoyed by the state and nation, and declared that the greatest enemy to such a happy condition is "reckless abuse of our business methods."

"We have today greater prosperity that we have ever enjoyed simply be-cause the American Intelligence has had a chance to work, and because all those who are in a position to embakk in new enterprises have known that they rely, in the event of a discussion of any question in regard to which peo-ple differ, on a decision of that ques-tion in the light of the American son-science and good sense. CURRENCY COMMISSION.

Work of Eliminating 180 Names From List of 200 Completed.

Mr. Hearst's voice began to fail him today for the first time in the cam-paign, and hoarseness marred all of the eight speeches which he delivered after leaving Auburn, where he spoke last night. He made his open-air speeches very brief and with apologies. Clarence J. Shearn told the crowds that Mr. Hearst had worn out his voice in Brooklyn "driving long nails into Mc-Carren's cofflin." Mr. Shearn, who made the longest open-air speech, attacked William E. Cory, president of the United States Steel corporation, alluding to his re-cent divorce and his listing among the "best people" whom Andrew Carnegie had declared to be opposed to Hearst's election. He said Mr. Hearst could well afford the opposition of such "best people." List of 200 Completed. New York, Oct. 31.—The nominating committee of the American Bankers' association finished yesterday the work of eliminating 180 names from the 200 submitted for membership on the cur-rency commission and forwarded the remaining 20 names to the members of the council. The committee refused to disclose the names of the 20. "All that I feel at liberty to say re-garding it," said J. D. Powers, of Louisville, vice president of the asso-ciation and a member of the nominat-ting committee. "Is that the men chosen will be able representatives of various sections of the country. There will be men from the south, the west, the northwest and, of course, the great eastern money centers." Every **Heart Beat**

Forces about 8 ounces of blood out of the heart, and sends it coursing through the veins to the remotest part of the body. This is the amount required by nature to nourish and sustain your body. Every ounce less than this means a shortage in nature's supply of building-up material. A weak heart cannot meet this demand, and consequently you suffer. If your heart skips a beat, or flutters, palpitates, pains you, or you have shortness of breath, you may be sure that the heart is

working imperfectly. Dr. Miles' Heart Cure will strengthen the heart muscles and nerves.
