he Philippines. New York, Sept. 30.-A suggestion which is neeting with favor is to change the name of the Philippine is-lands to the McKinley islands, says the Washingeon correspondent of the Tribune. It is intended to bring the proposition before the next Congress. A part of this cheme embraces the idea of bestowing upon the different islands and provincis the names of the most prominently identified with the acqui-sition and management of the islands. For instanci, the members of the American commission which negotiated the Paris traity would thus be hon-ored, as well as the names of Admiral Dewey. Gen Lawton, Gov. Taft, Gen. Otts. Chicago 1 O'Day.

Pittsburg Loses Two.

Cincinnati, O., Sept. 29.—Cincinnati defeated Pittsburg today in both games. Both games were very excitinnings. Up to the eighth inning it looked like the lobsters' game, for they were hav-ing a merry time with "Pop" Eyler, straightening out his cross fire curves almost at will. In the eighth, Elmer Meredith, the little southpaw, relieved Eyler and put a sudden stop to all the foolishness. The score stood six to six, and it seemed impossible for either team to make the winning ron. Evans In the ninth inning, with no one out, Pittsburg got a man on all the bases. Hahn was equal to the emerbases. Hahn was equal to the emer-gency, however, and struck out the next three men in succession. In the second game Cincinnati pitched Swormstead the first time, and he was hit safely three times. Attendance, 7,400.

St. Louis Takes Two.

St. Louis, Sept. 29.—Before a crowd of sixteen thousand people the local team today won both games from New York. Magee was slaughtered in the eighth inning of the first game and the result was never in doubt. "Dummy" Taylor and "Yank" Yerkes were about evenly matched in the second game of eight innings, which was shortened on account of darkness. Richards' home run tied the score. Two errors in the eighth lost the game for New York.

It is true that the spring continued until very late but through the abun-dance of rain our grain and all kinds of garden stuff was able to spread out and take root so that when the hot weather did come it was wonderful, as

he says, how it grew. Then he tells us cabbage are as large as a tea cup. Now I challenge your correspondent or any other man to show me one single cabbage head in all Magrath that was planted before the 1st of July and has not had your correspondent's or some other man's calves to eat them down that is not larger than his head, much less a teacup. Z. Jacobs, Fred Bluemell, P. Carter, J. B. Ririe and a dozen others have cab-bage heads by the hundreds and not a single one of them would go in a half bushel measure. He says the root crop in some places will not be worth digging in answer to that I will say I have lived for 25 years in the city Lehi where they raise roots to perfec-tion but have never seen potatoes, beets, carrots, turnips, etc., to exceed those that have been raised in Magrath this summer and can be seen by any person in any of the gardens that have been taken care of. And yet it would have been all true if he had left out the little word "not" in it. I have only the result of two iden's threshing. Bishop Harker threshed 2,500 bushels that was raised on fifty-five acres. Fred Bluemell on fifty-five acres. Fred Bluemell threshed 344 bushels on eleven acres. We have no grain that cannot be gath-
