

ARMED NEGROES STOP WHITE MEN

Ride into Cleveland Miss., and
Make Demonstration.

ONE OF PARTY IS KILLED.

Squad of Armed Men Patrolled the
Streets—Trouble Grew Out of Lynching
of Jesse Phillips.

Cleveland, Miss., July 21.—This morning at 1:30 o'clock a band of armed negroes, none of whom were known, rode into Cleveland, and, stopping a party of three white men on the main street, made threatening demonstrations.

Being called upon to give their names, they answered by bringing their rifles into play. One of the negroes was killed on the spot, and another was wounded and his body is being kept in the city until the trouble is over. It is supposed that more than three were hurt. They were armed with Winchester rifles and were well mounted.

SAN FRANCISCO TEAMSTERS.

Their Strike to be Made Final Issue
Between Employers and Employees.

San Francisco, Cal., July 22.—It has been decided to make the strike of the teamsters a final issue between employers and employees in San Francisco. The morning after a thousand drivers will go to their places of work as usual and will be discharged. This is according to the plan. By nightfall every driver will have his truck in the city and will be ready to go to work. The teamsters state that they will pass the matter up to their employers and that the final decision will be made by them.

A statement by a prominent drayman was to the effect that the Draymen's association had decided upon the stop out to be taken only after long deliberation and with many misgivings, as such a step meant momentary loss of business and a dubious condition of affairs, the outcome of which cannot be foreseen. At the headquarters of the Brotherhood of Teamsters the sentiment was that the matter had passed out of the hands of the employing draymen and that they had cast their lot with the other merchants in the town engaged to unions.

As a result to the number of men and the far reaching effect of the teamster tie-up, for the matter has not yet reached the proportions of a general strike. There are over 4,000 men engaged in the city who are connected with the various unions that constitute the Team Drivers' Executive Council. Then this morning the strike will be made final. The Federation, which embraces men that are more or less connected with or dependent upon the teaming business. This includes stevedores, salaried drivers, warehousemen, marine firemen, and engineers, and in affiliated branches perhaps 8,000 more. In the event of a strike being ordered all these men will be out of work. It is a matter of necessity, go out in sympathy.

There is likely to be some lively times at the water front. Non-union men will be driving. In that event the longshoremen will refuse to handle the merchandise brought to the various vessels by non-union drivers and the stevedores will either tie up or go away in ballast.

KIOWA-COMANCHE OPENING.

Fared Disorder and Distress Will
Follow it.

Fort Hill, O. T., July 21.—Disorder and distress will, it is feared, follow the opening of the Kiowa-Comanche reservation on August 6th. It is now estimated that fully 150,000 people will be registered for a chance to secure one of the 15,000 claims to be awarded by lottery when the registration booths close on July 26th.

Thousands of people now on the reservation, who are neither mechanics nor artisans, and who have little or no money, are anxious to get out of the reservation and into the open country. They are anxious to get out of the reservation and into the open country. They are anxious to get out of the reservation and into the open country.

JAPANESE ALARMED.

Because of Action Taken to Have
Them Excluded Like Chinese.

New York, July 22.—Some of the Japanese living in this city have been alarmed by the action recently taken by the labor unions of San Francisco, which ask that the Japanese be excluded as the Chinese are under the Gentry act. The San Francisco labor unions are said to have introduced a resolution to Congress. The Japanese are considering the wisdom of organizing to fight the plan and may start a counter petition.

The attention of Y. Ohki, who is in charge of the Japanese consulate, has been called to the matter. Referring to the San Francisco resolutions he said: "They want much, these workmen, that they will not get. Your Congress will not pass such a law. I am sure of it."

Congressmen and senators would vote to keep the Chinese out of the United States would desire against any law that included Japanese. Our government would surely resent such a resolution which would hurt the trade of the United States in the east.

"Japan does not want to send laborers to the United States or any other country," added another consulate official.

LADY FRANCIS HOPE, WEARING FAMOUS HOPE JEWELS.

The recent escapades of Captain Putnam Bradlee Strong with a woman said to be Lady Francis Hope have been more or less spectacular and sensational. Captain Strong is a son of the late Mayor Strong of New York. Lady Francis is an American actress, formerly May Yobe, who married Lord Hope several years ago and has been in the public eye ever since.

EPWORTH LEAGUE CONVENTION ENDS

Most Remarkable in Organization's
History.

San Francisco, July 21.—The Epworth League convention, which opened here last night, ended today. The convention was the most remarkable in the organization's history. It was held in the city of San Francisco, which is the headquarters of the league. The convention was held in the city of San Francisco, which is the headquarters of the league. The convention was held in the city of San Francisco, which is the headquarters of the league.

OLD STYLE LOVE FEASTS.

All Over San Francisco, in Churches
of Many Denominations, Meetings
Were Held.

San Francisco, July 21.—Bishop Isaac W. Joyce, president of the Epworth league, reviewed the fifth international convention as it closed today. The convention was held in the city of San Francisco, which is the headquarters of the league. The convention was held in the city of San Francisco, which is the headquarters of the league. The convention was held in the city of San Francisco, which is the headquarters of the league.

Col. Albert Jenks Drops Dead.

Los Angeles, Cal., July 22.—Col. Albert Jenks, a well known artist, dropped dead on the street in front of the residence of his friend, Mrs. C. B. Bruhn. Heart disease was the cause of death.

The latter and H. Langley, the writer and publisher, were walking with him at the time and were laughing and chatting when an unexplained jolt on his line Col. Jenks pitched forward and expired.

Col. Jenks was born in New York seventy-five years ago. Early in life he removed to Aurora, Ill., and embarked in the banking business. He also studied painting but at the outbreak of the civil war he entered the army. At the end of the war he had attained the rank of lieutenant colonel. He devoted himself to portrait painting after the war. Among the distinguished persons whose portraits he had painted were President Abraham Lincoln, Gen. Phil Sheridan and Gen. John A. Logan.

ELBERT GLENN MYSTERY.

It is Now in a Very Fair Way to be
Cleared up.

Parkersburg, W. Va., July 21.—The mystery known as "Elbert Glenn" seems now to be in a fair way to be cleared up. Today counsel for the defense received from Marietta a letter containing a photograph of Elbert Glenn taken in that city in 1896, with a sworn statement that the picture was taken there and that Elbert Glenn was a man. A comparison of the photograph shows the greatest difference in the two people and strengthens the statement made a few days ago that Elbert Glenn was not the man who was arrested and could be produced at any time.

The photograph shows a broad-shouldered, black-haired, black-eyed man with a long neck and large "Adams apple." His hair is coarse and hangs over his forehead on one side. He has a long nose and large ears, and does not resemble the defendant in the least. He wore a checked suit, white shirt and low down collar at the time.

CARTER'S LITTLE LIVER PILLS

SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Bile, Nausea, Drowsiness, Bad Taste in the Mouth, Coat on the Tongue, Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

Gov. Allen Visits President. Canton, O., July 21.—Gov. Charles H. Allen of Ohio reached Canton from Washington today, attended service with the President and spent the remainder of the day at the McKinley home until 10:40 o'clock tonight, when he left for the east.

His mission here today was to present

PORTO RICANS WANT SCHOOLS

Children Were Sorry When Summer
Vacation Came.

ERECTING MANY BUILDINGS.

When Autumn Term Opens, More
Than Thirty Will Have Been
Completed.

San Juan, Porto Rico, July 13.—(Correspondence of the Associated Press.)—Intense interest is manifested in school work in Porto Rico by teachers and scholars alike. In schools in the United States as a rule, the students look forward to the closing days of the spring term and had the first day of the long summer vacation with delight. In this, Porto Rican children are different from their northern cousins. Here the rising generation reluctantly left the school room on the last day of the term, and such a demand was made for all-summer schools that arrangements have been made for them in several towns.

Ground will be broken next week for a complete professional school to train teachers in Rio Piedras. Although the returned American teachers complain of the small salaries paid by the department of education, there are more applicants for teachers' certificates for the autumn term than the authorities can handle. The department felt that during the summer some opportunity should be given the teachers for professional improvement. That and a systematic canvass has been made and an announcement sent out that a summer normal school session of ten weeks will be held in this city, beginning July 15.

About 500 teachers and prospective teachers have signified their intention to attend this summer school. Its function is not to teach, but to train others to teach and a faculty has been selected with great care to carry out this idea. The fact that such a number should wish to attend these courses of instruction is most remarkable only practical demonstration of the utility and value of the system of education that is being established in this island.

It also indicates that the people at large appreciate the value of the new educational system which is being carried out under the direction of Commissioner Brombaugh.

By the time for the autumn term to open more than thirty new school houses will have been completed. But even then there will not be accommodations for half the children of school age. Extra buildings in all towns will have to be rented, as it is quite probable that the school attendance next year will be doubled.

TURN ART EXHIBITION.

American Committee Formed to
Promote Interest in It.

New York, July 22.—A United States general committee to promote interest in and to secure on exhibition for the international exhibition of modern decorative art, to be held in Turin, next year under the presidency of the Duke of Aosta, has been formed here and it extends an invitation to communicate with it to architects, artists and manufacturers who desire to exhibit their work.

The Italian managers of the exhibition are particularly desirous of encouraging artists from this country and in communications with their representatives they express great hope of American sympathy with their objects which are to revive aesthetic taste in house decoration and to encourage original actions in artistic form. The exhibition is not intended to be a reflection on other industrial exhibitions, and therefore neither reproductions of styles already known, nor simply industrial productions lacking an artistic stamp, will be admitted.

The exhibition will be held in the Valentin park, Turin, from April to November. Exhibitors will be admitted to Italy free of duty, and the general commission of the exhibition is arranging for reduced freight rates for exhibits.

The United States committee just formed includes Gen. L. P. Di Consola, director of the Metropolitan Museum of Art; William E. Dodge, D. O. Mills, F. W. Pakenstock, Whitelaw Reid, Vice Consul Pratt, Coronado Zellerbach, John Carrere, the architect; J. Carroll Beckwith, Morris K. Jesup, Howard Russell Butler, president of the Fine Arts society; and special commissioners for Illinois, Pennsylvania and Missouri. The secretary is Dr. L. Rovera of the Italian chamber of commerce here.

THE ROER WAR.

Mrs. Kruger's Death May Have Effect to Shorten it.

New York, July 22.—A dispatch to the Tribune from London says:

The death of Mrs. Kruger may have some influence in shortening "the war." Mr. Kruger himself has been reported to be exceedingly dependent upon the military operations, and the correspondence between Reitz and Steyn has justifiably discouraged him. His domestic bereavement may cause him to lose heart for continuing a hopeless struggle. His Dutch physicians have been warning him for some time against the consequences of excitement, since his heart action is abnormally weak.

The story is brought by influential South Africans that Gen. Botha was strongly disposed to surrender, but did not consider himself at liberty to do so against the judgment of Mr. Kruger. Gen. Botha has a family to provide for, and is without resources. South Africans assert that he is dependent upon allowances which Mr. Kruger has agreed to make for him if he continues the struggle so long as possible.

There is no practical method of verifying these explanations, but this account comes from South Africans who ought to know what they are talking about.

The newspapers refer in tones of sympathy to the death of Mrs. Kruger. It is expected that the British army in South Africa will pay to her the death honors which her former position would have demanded.

NEWS FROM NOME.

Two Sutherland Brothers and Jackson Probably Murdered.

Port Townsend, Wash., July 21.—The steamship Oregon arrived at quarantine from Nome last night and remained in the stream awaiting inspection until this morning. She brought the largest number of passengers of any steamer arriving from Nome this season.

The Oregon sailed from Nome July 18th. She reports that for several days previous to her sailing a fearful surf was sweeping the beach at Nome, which endangered both life and property in making landings.

A party consisting of ex-Gov. Ogilvie of Yukon territory, Dr. Herbert Hatch, surgeon U. S. A., stationed at St.

A GREAT MAN'S IDEA.

GENIUS, as Ruskin defines it, is simply a superior power of seeing. Have you the genius to see how important an element in the success of your house-keeping is the use of Ivory Soap? Judged by the work it does Ivory is the cheapest soap in America to-day. It is harmless. Embroideries, laces and delicate stuffs should be washed only with Ivory Soap.

Michael, and Mrs. E. S. Walker, wife of Capt. Walker, while being landed from the steamer St. Paul in the steam launch Evelyn, barely escaped drowning. All were more or less bruised, but none seriously injured.

News comes from Unami island that the two Sutherland brothers and a man named Jackson were probably murdered. The three men were landed there last fall by the schooner Thomas F. Bayard. She returned from this season, and found a collapsed tent. Inside were a coat and vest, both of which were pierced with knife-cuts. One of the Sutherlands was known to have \$1,000 when he landed on the island. No other trace of the men or bodies was found.

James Elwell, Thomas Donohue and another man, name unknown, were caught in a storm on July 6th, and their small boat capsized, all being drowned. The bodies of Elwell and Donohue were picked up near Penny river. Elwell leaves a mother and two sisters at Cloverdale, Cal., and a sister at Dawson. The party arrived at Nome July 4th from Dawson.

Nome is again crowded with thugs and thieves, and the papers state that a big crowd composing that element which was sent out last fall on a government transport have returned, and that they are plying their trade with renewed vigor. As many as a dozen to fifteen arrests are made daily, and the authorities are considering another deportation scheme for that class.

Victims of Veniza Yacht Accident. New York, July 21.—The bodies of the Misses Ida, Elizabeth and Annette Colburn, the daughters of Arthur T. Colburn of Philadelphia, who were

drowned with their father when the two-masted yawl Veniza sank in Long Island sound last Thursday, are now at the establishment of a Brooklyn undertaker awaiting orders from Philadelphia for final disposition. The bodies were found in the cabin of the Veniza, which was raised yesterday, and the vessel with the two dead, was brought to Brooklyn today.

So far the bodies of only the two daughters have been found, leaving those of Mr. Colburn, Capt. Flint and a sailor, known as Frank, still to be located. The bodies of the two young women were in a fair state of preservation.

REMINDED OF GOLDEN RULE.

Chinese Consul-General Draws Epworth League's Attention to It.

San Francisco, July 21.—Chinese Consul-General Ho Yow has addressed to the Epworth league convention a typewritten statement of five pages, answering arguments of the labor council favoring Chinese exclusion. "We think," says Ho Yow, "by raising the bar against the Chinese and permitting them to come into this country, commerce, as well as labor, will be greatly benefited thereby."

Five arguments of the labor council relative to wages and vice and other topics are all responded to in detail, by placing a wall between China and the United States," says Ho Yow, "the trade of the two countries must necessarily suffer. The demand in China for your products will in time be equivalent to about one-half of your total export trade to the world."

The statement closes with reminding the leaguers of the golden rule.
