WATCHES! WATCHES! WATCHES!

THE AMERICAN WATCH leads all others in points of Superiority, the chief of which is Simplicity of Construction and Low Price at which it is produced. These points recommend it above all others to the masses. Our grandfathers valued among their possessions a clumsy English or Swiss timepiece; and only those who could afford luxuries could own even that. Today a watch is a necessity to everyone, and if the right make of American watch is purchased of a dealer who is satisfied with a small profit, there are very few but who can possess a handsome, durable and accurate watch. On Monday, November 30, we will place on sale a line of standard American movements in high grade fully warranted cases that must command the attention of every prospective watch buyer, and we will state that the values offered here are only possible because of the quantity of watches handled by us, and because we are conducting our business on a basis of small profits and large sales.
