St. George, Washington Co., Aug. 5 .---Last Friday morning a young Austrian. George Pokovich, arrived at the Snow House from the north. He had been in America about two months only, and in America about two months only, and was on his way to join a brother who was working at the Dixie mine. With Mr. Carr, the superintendent of the Newhouse properties in this region, he left St. George late Friday evening to reach Dixie via Shem. When with-in about a mile of the smelter, they attempted to cross the Santa Clara creek during a heavy storm, and were caught by a flood which swept men, horses and vehicle away. Mr. Carr, in the inky darkness, was whirled against some brush which he seized and thereby the inky darkness, was whirled against some brush which he seized and thereby pulled himself out. He called loudly for the boy, but got no response, so he made his way to Shem. The word was sent out, and, when morning broks, searching parties went in search of the youth. The corpse, badly bruised and swollen, was found lodged in a dam above Santa Chara about 2 p. m. Satur-day, and the body was brought to St. George the same evening, where it was prepared for burial. By request of the dead boy's brother, the funeral services were conducted by the St. George East ward bishopric. The citizens manifest-ed their sympathy by the large at-tendance and the many beautiful floral tokens contributed. OPTION ON COAL LANDS. Hiller often in modern times. WHAT OUR INSTALL-OPTION ON COAL LANDS. Today Joseph Coyle was at the court-house on business. He displayed an op-tion which he has given to Messrs, Clark and Wells of the San Pedro by their agent on 800 acres of his cannel coal lands in this county. On the pub-lication of the special to the "News" a short time since the matter which had **MENT PLAN HAS DONE** location of the special to the "News" a short time since, the matter which had heretofore been kept quiet, was brought to public notice. Mr. Coyle was in the hills and agents of capitalists were out searching for him. At Leeds yesterday H. D. Mapes went up with Mr. Coyle on his way to St. George, and succeeded in getting a 9% day ontion on the coel FOR THE PUBLIC!! As evidence of the success of our monthly installment plan we point to hundreds of homes in Utah, Idaho, Nevada, Wyoming and Arizona in which are instruments bought from us. Unless our plan proved practical and easy many of these instruments would have been returned to us—but in-stances of that kind are very few. WE MAKE THE TERMS TO SUIT YOUR POCKET-BOOK. No matter how mederately well off you are—no matter how little you can afford to pay on an instrument each month—we can almost invariably arrange satisfactory terms. And when you couple to this the fact that we are in getting a 90-day option on the coal lands in the sum of \$80,000. Mr. Coyle regretted today that he had thed up his reground as rival parties were after the ground and he might have done better. The coal seems to exist in inexhaustible quantities. Mr. Coyle has opened up youns measuring 5 feet, 7 feet and 10 you can readily see that today is an opportunity of a life-time. When you come to us for a Piano, a Piano-Player, or Talk-ing Machine, you do not necessarily obligate yourself for large monthly payments, but for small sums you li never miss, and besides, buy the goods at half price. OIL EXCITEMENT UNABATED. The excitement over the oil boom is growing in intensity. Surface seepages of petroleum are being found all over the county to the west, north and south of St. George, and the whole county is being filed upon. Many properties are changing hands, and some big deals are on. Within a month or six weeks no less than six or seven oil rigs will be in operation in different sections of the county. county.

menced. The yield of wheat, cats, barley, etc., seemingly has hardly had an equal. Thousands of acres of wheat will go 60 bushels per acre. Whole tracts of 160 acres can be seen to wave without a single break as to height and quality. The writer has traveled largely over the United States, and is frank to say that he has never seen the equal of crops as now being harvested. One certainly must see to know anything about it. One man here will probably harvest 200,000 bushels of wheat alone. E. Z. Carbine has gone to St. Louis with a carload of cherries. He will realize perhaps from \$1,000 to \$1,200 per acre from his immense crop of cherries and which, by the way, are of exceedingly fine quality. The car of cherries apples and the like, and prosperity is everywhere manifest. The grain which has already been planted for the harvest of 1908 is now about from four to eight inches high, and is being fed off with cattle and hores. This feature is most nervariable. The grain already so promising will provide pasture for at least eight months and as a matter of fact will be pastured from now-all winter-until about May 1 of next year. The season so far has certainly been all that could be asked for. As a matter of fact, his is by far the best beet acon ever had since the establishment of the sugar factory. Bridgeport, and found her exceedingly entertaining. I shan't soon forget some of the youthful memories that she re-counted. Our talk turned to the sub-ject of children's quaint misunder-standing of Biblical metaphors and parables, and Mrs. Crosby told an amusing story on this head. She said that a little boy came home one day from school in a very bad humor. An-other boy, Jack Jones, had given him a thrashing, and he wanted revenge. "'Oh,' said his mother, 'don't think of revenge, Willie. Be kind to Jack. Heap coals of fire on his head. Then he will become your friend.' "Willie thought he would try this method. He did not see Jack Jones till the next day at recess. Just as he was buying a lemon pie for lunch, Jack appeared and said: "Look here, I licked you yesterday. but I didn't give you enough. Now I'm going to lick you again." "And he planted a hard blow on Wil-lie's little stomach. "Willie gasped and grunted, but in-stead of striking back, he extended his ble to Jones.
