

THE GRAND CENTRAL

An Immense Body of Rich Ore In This Property.

SOME TWENTY FEET IN THICKNESS.

Operations Throughout the Tintic District—Affairs At Mount Nabo—Miscellaneous Items.

Special Correspondence to the News.

January 27, 1897.—At present there is much activity at the Grand Central mine, and several men are at work recovering for the new ore. Some of the claims of the new property visited the mine a few days ago, and we learn that they are well satisfied with the good showing of the vein which the Grand Central now has beyond a doubt.

According to present reports concerning the vein it is a very large one and of immense proportions. And if the vein was given the credit it is entitled to, it is a very rich one, such as the case.

There is still considerable talk around Mammoth and the whole of the Tintic district, about the Grand Central vein, and it is only a matter of a little time until the vein will be seen of the rich property in Utah. One addition mining man was heard to remark that the Grand Central would be far ahead of the great Mammoth mine, and would rival the famous Centennial. In time, the company now working there, twenty tons of rich looking ore up from the mine, but will not attempt to make any considerable amount of ore, as the vein has been completely, which will probably be by the end of this month. The great ore body is some twenty feet in thickness and is contained on the 700-foot level at a distance of four hundred and ninety feet in a southerly direction, and as far as can be estimated the vein is one thousand feet from the surface.

There is no doubt but that in a little while the Tintic railway will be constructed a spur from the Mammoth mine to the Grand Central, as the distance is quite short between the two great mining properties.

STRIKE AT THE ANKAREDE.

According to information just received the Ankarede Mining company is in good luck. For the past few months the Ankarede, situated between the Centennial and the Opeksa property, has been working and a shaft some sixty feet deep has been sunk. The Ankarede is owned by Messrs. Ogilvie and Yundt, and is now being worked by the Ankarede Mining company. The shaft is down some twenty feet, and is being timbered all the way. It is expected that the Ankarede will have a fairly good showing of ore. The Ankarede is situated on the Opeksa mine, and is being worked by the Ankarede Mining company. The Ankarede is owned by Messrs. Ogilvie and Yundt, and is now being worked by the Ankarede Mining company. The shaft is down some twenty feet, and is being timbered all the way. It is expected that the Ankarede will have a fairly good showing of ore.

THE OPEKS COMPANY.

The Opeks company are working three shafts of men and the property is looking very bright. As would reasonably be expected, it is anticipated that the Opeks company will have a fairly good showing of ore. The Opeks is situated on the Opeksa mine, and is being worked by the Opeks Mining company. The Opeks is owned by Messrs. Ogilvie and Yundt, and is now being worked by the Opeks Mining company. The shaft is down some twenty feet, and is being timbered all the way. It is expected that the Opeks will have a fairly good showing of ore.

HARD HAULING.

The teamsters hauling ore from the Blue Consolidated and Utah mines have been considered some pretty hard work. The last few days, the men have been hauling ore from the Blue Consolidated and Utah mines. The teamsters are making some fairly good progress, and the teams are being kept in good condition. The teamsters are making some fairly good progress, and the teams are being kept in good condition.

A GOLD PAY ROLL.

The Mammoth Mining company came to the front yesterday with a good sized pay roll amounting to about eighteen thousand dollars. The company will be much better off during the week.

MANY IDEAS MISSED.

Several miners have arrived in camp from the Mammoth mine, and they say that there are a number of ideas missed. The miners are making some fairly good progress, and the teams are being kept in good condition. The miners are making some fairly good progress, and the teams are being kept in good condition.

THAT WAS TENSE.

Mr. Chas. Beckman arrived in camp last night from the West Tintic mining district. The gentleman reports that some serious prospects are being made. Mr. Beckman is working some good mining property known as the Copper King, located a short distance from the West Tintic mine. The Copper King is being worked by Mr. Beckman and his associates. The Copper King is a very rich property, and it is expected that it will have a very good showing of ore.

and by springing out some good ships with guns in the front.

THE MOUNTAIN FRONT.

The Mammoth Mining company is making good progress in the recovery of ore from the Mammoth mine. The company is making some fairly good progress, and the teams are being kept in good condition. The company is making some fairly good progress, and the teams are being kept in good condition.

APPEARS AT MOUNT NABO.

From information just received the Mount Nabo mining district is making good progress in the recovery of ore from the Mount Nabo mine. The company is making some fairly good progress, and the teams are being kept in good condition. The company is making some fairly good progress, and the teams are being kept in good condition.

THE WORK EXCHANGE.

A heavy drift was made on the Tintic mine, and it is expected that it will have a very good showing of ore. The Tintic mine is owned by Messrs. Ogilvie and Yundt, and is now being worked by the Tintic Mining company. The Tintic mine is situated on the Tintic mine, and is being worked by the Tintic Mining company. The Tintic mine is owned by Messrs. Ogilvie and Yundt, and is now being worked by the Tintic Mining company.
