William Menkemaier Declares Fanny Made Him Most Miserable.

WENT OUT WITH OTHER MEN.

Always Offered a Good Home, Says Husband, She Spurned His Offers And Deserted Him.

A peevish wife is "cross, bad tempered, dissatisfied and who uses cross, unbecoming and vile language," is too much for William F. Menkemaier, according to his bill of complaint filed with the clerk of the Third district court today in which he asks legal separation from his wife, Fanny. William complains of Fanny that, although he has provided a good home for her with all the necessities and comforts of life, according to his station, she has many times left home against his wishes, causing him much distress.

For more than a year she has refused to live within him, he says. Oftentimes she has left home in the evenings to go to places of amusement with other men, he complains, thus causing him to be made miserable and to bring up on him sorrow and mental distress. He believes she is now somewhere in Washington. They were married in South Dakota in 1888 and have two children, both minors.

### GOT DRUNK AND SHOOK HER.

Evelyn Linnemann declares that her husband, Louis Linnemann, got drunk one night last June and came to their home. Finding there his wife, he proceeded to administer to her a severe shaking, which, she says, caused her great distress. Since that time he has been so mean to her that married life is a thing to be no longer endured. She asks divorce in the complaint filed against him yesterday in the Third district court. They were married on Jan. 14 of this year.

### SWAN ESTATE ENTERS COURT.

Mrs. Grace Swan has asked the probate division of the Third district court to issue letters of administration in the estate of her deceased husband, Samuel Swan, who died in Riverton, Jan. 22, 1902.

### PIOCHE HAS RAILROAD.

Pioche is now connected with the outside world by rail. The branch from Caliente is now in serviceable shape into Pioche and within a day or so, passengers and freight service will be inaugurated. Side tracks are being laid in the yard site at Pioche and Nevada-Utah and other properties are building spurs of their own to get immediate connections and transportation facilities. A box car will be used as a depot until a suitable structure can be built and Agent Montgomery, formerly stationed at Panaca will have charge of the station. "Railroad day" will not be held until spring in all probability.

Linton, car service agent, all officers of the Union Pacific. For some time back after the 10th of October, the Omaha office will have complete charge. ### ATTORNEY AWARDED DAMAGES.

Alfred S. Johnson, an attorney of Providence, R. I., was awarded damages amounting to \$15,500 for injuries to his voice sustained in a railway accident at Kansas Falls, Kan., in September of 1904. The Union Pacific Railway company was the defendant in the action and it was upon one of the trains of the defendant company that the injured lawyer was riding when a wreck occurred. In the wreck, glass and splintered wood was flying about and a severe cut across the lawyer's throat was one of the effects. This cut so impaired his vocal apparatus that he has practically lost his speech. He sued for \$50,000.

Mrs. Johnson is traveling with her husband at the time of the wreck and she also sued the company. This action was, however, dismissed without prejudice upon motion of the plaintiff. It is understood that she will institute proceedings in Kansas.

### WANTS PAY FOR TYPEWRITER.

The Hammond Typewriter company has brought suit against Professors R. V. Chamberlain and Ira D. Cariff to recover the price of a typewriter, secured by a promissory note signed by the two men of letters. A peculiar circumstance is seen in the fact that these two professors are the parties to a suit now pending in the courts in which Prof. Cariff charges misrepresentation to Chamberlain, growing out of his employment at the university as an instructor.

### RAILROAD NEWS.

#### MORE WORK STOPPED.

(Special to the "News.") Cheyenne, Wyo., Nov. 6.—The Union Pacific Railroad company Friday evening threw 300 men out of employment by ordering a suspension of work on the Athol-Borle cut-off, which will provide a better grade by a shorter route between Denver and the main line at Borle. All grading camps along the line of the cut-off are to be abandoned at once and the 300 graders are to be released. When work on the cut-off will be resumed can not be foretold at this time. About two months of grading and track-laying remain to be done before the cut-off can be utilized.

#### ANOTHER RESORT IS PLANNED.

S. V. Trent and Associates Would Buy Tract for Sporting Club.

Salt Lake is to have another amusement resort if the plans of S. V. Trent and a number of associates materialize, and they believe they will. The resort in mind with the gentlemen behind the project includes the building of a sportsman's club house and other buildings and the laying out of numerous athletic grounds and fields. The "club" will include courting grounds, ball parks, tennis courts, cricket grounds and all sorts of facilities for sporting purposes. Much of the success of the undertaking will depend upon the action taken by the council in a proposal to come before it at its meeting.

**OF INTEREST TO UTAHNS.**  
News Received About W. E. Costello, Formerly With Short Line, Here

W. E. Costello, formerly assistant superintendent of the Oregon Short Line is now in Connecticut. The New London Telegraph has this to say about him: W. E. Costello, newly appointed superintendent of the southern division of the Central Vermont railway, with territory extending from this city to Brattleboro, Vt., reached New London last evening and took up the duties of the position at once. Mr. Costello came to New London in a special train from St. Albans. He was accompanied by General Manager Jones and other officials of the Central Vermont. The special train was made up of the combination engine No. Lawrence and private car Champlain.

Mr. Costello was shown over the East New London yard and roundhouse and taken to Long wharf. He was escorted to the Norwich line wharf and given an opportunity to see the New Haven road's marine department at work. He then went to the offices of the road in the Union station to familiarize himself with the situation. The party remained in the private car over night. It is expected that the new superintendent will appear at the office this morning and take direct charge of the operation of the division.

The Tidewater has 80 miles the best of it in distance and used the Santa Fe tracks for considerable distance. From Tonopah the line will proceed to Goldfield.

Little Dorothy Bailey and Adelaide Woodruff were dressed in Japanese costumes and received the guests at the door. Covers were laid for about a dozen.

**SAN FRANCISCO FINANCES.**  
San Francisco, Nov. 6.—The financial situation in this city is reported as very satisfactory by leading bankers. Although this is a legal holiday, consid-

erable business is being transacted and no sign of weakness is apparent anywhere. Clearing House certificates are being freely used and are greatly facilitating the transactions. The outlook is declared to be very encouraging.

## CURRENCY MATTERS.

St. Joseph, Mo., Nov. 6.—The following telegram in which the St. Joseph Business Men's League, Kansas City Commercial club league, St. Louis Business Men's league and Chicago Association of Commerce, was sent to the president and Messrs. Taft and Wilson today:

"Believing that prompt legislative measures should be adopted to prevent a repetition of the present financial situation, we, the undersigned, respectfully and earnestly urge that currency legislative matters be considered at the coming session of congress."

Telegrams were sent to commercial organizations in fifty other cities urging them to take similar action.

Chicago, Nov. 6.—Mrs. Evelyn Romadke of Milwaukee, who yesterday pleaded guilty to three charges of burglary and two of larceny, today changed it to not guilty. ## PRINT WORKS RECEIVER.

North Adams, Mass., Nov. 6.—Henry H. Warner was appointed receiver of the Arnold print works today. The embarrassment is caused by inability of the company to renew loans.

## PROVIDING FUNDS TO MOVE GRAIN CROP.

St. Paul, Nov. 6.—Mr. E. H. Bailey, president of the First National bank, who announced last night that as a result of a conference between bankers of St. Paul, Minneapolis and Duluth and J. J. Hill, a plan had been evolved which would provide funds for the movement of the grain crops of the northwest, said to the Associated Press today that he had little to add to that statement.

"The result is what is more important, not only to the people of the northwest, but to the east as well," he said. "The people of the northwest can rest assured that the combined efforts of the financial men here will set the ball in motion that will provide genuine relief that no other measure would. It is not necessary to go into details. Results are what we want. A large fund has been raised for that purpose and it is hoped that by putting this movement under way it will result in a

stream of money from Europe in payment for the shipments.

"Provision for the shipments from U. S. terminals," Mr. Bailey explained, "will promote the shipment of grain from the local warehouses, and in this way the entire crop will be moved and laid down in eastern markets. This will make the flow of gold from Europe already in motion continue, a large share of it will find its way into banks in this section of the country and any remaining stringency will be relieved."

## BURLINGTON MEETING.

No Hint of Content or Unpleasant Action for Today's Gathering.

Chicago, Nov. 6.—The annual meeting of the Chicago, Burlington & Quincy Railroad company will be held today. Besides the election of directors, the chief business to be transacted is the consolidation of 19 subsidiary lines now being operated by the company in Nebraska, Kansas, Colorado and Wyoming.

So far as was apparent last night, there would be no contest of any nature. There are 11 members of the board of directors, each holding office for one year.

The subsidiary lines which are to be absorbed have a trackage of about 2,500 miles.

## SILVER DOLLARS SCARCE.

In San Francisco Clearing House Certificates Cause a Shortage.

San Francisco, Nov. 6.—One of the effects of the circulation of clearing house certificates here has been to cause a shortage in silver dollars and fractional coin. This contingency was foreseen by the clearing house committee at the time the certificates were issued in \$5 denominations, and already measures have been taken to meet the emergency. By Thursday morning \$1 and \$2 certificates will be placed in circulation, to the total amount of \$1,000,000, an equal sum in larger denominations being retained.

It is expected that this will prevent the hoarding of silver dollars and it is possible that fractional certificates will be issued to prevent the hoarding of fractional coin in denominations of 10 cents, 25 cents and 50 cents.

## APPLE CROP SHORT.

New York, Nov. 6.—The apple crop of the United States for 1907, as estimated by the American Agriculturalist in its report to appear on Nov. 9, is about 25,000,000 barrels, materially short of last year. What is of great importance is the shortage in such commercial orchard sections as western New York, nearly all of Michigan and the entire California. There is some hope, however, that the shortage may be set down as an absolute failure in Kansas, Missouri and Nebraska.

New York state has a good many apples, but they will be needed, and for that matter the total is only about one-fourth to one-third of full yield. Pennsylvania has fairly abundant totals. New England has rather more apples than last year, due solely to the fact that Maine has a good crop.
