

tween them in which Anderson threatened the publication of the documents, and that he had received a letter from Anderson after that time.

SAN FRANCISCO, 12.—A Winemucca dispatch says: The citizens held a meeting last night, subscribed money to arm and equip a mounted volunteer company, and go out on the northwestern stage road to scout and check the hostile Indians, who are reported numerous in the vicinity of Camp McDermot.

The up stage from Summit was captured by Indians yesterday, and McCutchen, the driver, was killed. The only passenger, named Hamilton, escaped on one of the leaders. The rest of the horses were taken and the stage gutted.

The escaped passenger gave the alarm along the road, and the settlers are all crowding into Camp McDermot.

The road is all stripped from here to Owyhee. The stage contained several boxes of arms and ammunition for parties in Idaho.

#### FOREIGN.

LONDON, 11.—The Russian army corps commenced advancing on Pites, Sunday, and has already reached Titus and Gaeste. It entered some villages occupied by Roumanian troops. The Roumanian government, fearing bloodshed, ordered their troops to retire in the direction of Pites and Tirgovesti. The Russian movement interrupts the communication of the Roumanian army with Bucharest. Government intends to ask an explanation of Russia, and if the answer is unsatisfactory it will address a solemn protest to the powers.

BERLIN, 11.—The leaders of the National Liberal Party are here for consultation to determine on the course of action. They believe Prince Bismarck had determined upon a dissolution of the reichstag even before Nobel's attempt to kill the Emperor, or he would at least have reconvened the reichstag and ascertained the disposition of that body.

The congress will be opened by Prince Bismarck, as president, by submitting his memorandum of the points or resume of the subjects to be treated directly by the plenipotentiaries. The business of the first sitting will be confined to a settlement of the question whether or not the congress shall invite Greece to participate in its transactions. A state banquet at the castle will begin the plenipotentiaries and their suites on Thursday or Friday evening. It is highly improbable that Roumania or Servia will be accorded direct access to the congress either with full or consultative powers. The original anticipation that the congress would complete its labors in a fortnight is thought likely to be realized. Commissioners will then be sent to Turkey to settle the details. The result of the congress, it is anticipated here, will not be unfavorable to Russia. She will probably get a portion of Bessarabia and Armenia, the latter including Kars and Ardahan certainly, and perhaps, also, Batoum, but not Bayazid. A report is current that the Bonaparte, Orleans and Bourbon interests are to be privately advocated during the congress by gentlemen deputed for the occasion, a hope being entertained by the monarchial parties in France that a conservative reaction will shortly set in at Berlin and that a monarchy may then have another chance at Paris.

LONDON, 12.—A dispatch from Accrington says: A meeting of overlookers, representing every mill except one, yesterday, unanimously favored submission to the master's terms, and decided to make every effort to terminate the strike.

The Duke of Cambridge has left London en route for Malta. A Vienna correspondent says: The various governments have agreed that the discussions in congress shall be secret, but a committee will immediately be appointed to select what portion of the deliberations it is desirable to publish.

Confidence, both in St. Petersburg and Berlin, in the successful issue of the congress is reported to be so deep as almost to exclude a doubt that Count Schouvaloff's policy is triumphant at St. Petersburg, and his antagonists are silenced, but the situation at Constantinople still continues a cause of uneasiness.

The weather continues unsettled and unseasonable.

There was a heavy fall of snow in Perthshire, Scotland, yesterday. M. Muir & Sons, grain merchants, of Glasgow, have failed. Liabilities \$800,000.

MONTREAL, 12.—The Orangemen of the city have resolved to celebrate the 12th of July by procession to church. The county and district masters have issued an address. They say they intend to comply strictly with the provisions of the late act, and go unarmed; play no party tunes in the streets, and will trust themselves to the protection which the duty of the civic and other authorities afford all law-abiding persons. If, however, they are made to know they are outlawed, any assistance they may receive from friends will not be refused. Speaking for the orange body, they gladly join in abolishing all public processions except one distinctly Canadian.

QUEBEC, 12.—The strikers have been plundering Renaud's flour store, in St. Paul's street, stopping the traffic on the street and forcing truckmen to assist them in carrying off their plunder. B battery and the police are now dispersing the mob.

Later.—The riot is on the increase. The strikers now number some thousands. B battery was forced to retreat, the riot act not having been read. Capt. Provost, an adjutant, and some others of the men are badly cut with stones. The mob have broken into Renaud's store and stolen therefrom nearly two thousand barrels of flour, compelling carters to take it away. The military are marching up and down St. Paul St. at 230, attempting to disperse the crowd, but without avail.

The riot act has just been read, firing commenced, one man is reported killed and several wounded.

330 p. m.—Several rioters and spectators are wounded. Captain Short and the Provost are badly cut with stones, and some bullets are also believed to have taken effect in their arms and legs. Two or three of the mob have received sabre cuts from the cavalry.

Latest.—Everything is quiet. The rioters are dispersed, and B. Battery is guarding the Parliament House.

PARIS, 12.—The international copyright congress opened its session, yesterday. M. About presided instead of Victor Hugo, who will speak at the close of the session.

BERLIN, 12.—The non-compliance of Turkey with the reiterated demand of Russia, supported by Germany, for the immediate surrender of Shumla, which had already caused the congress to be convened two weeks later than originally intended, threatens to create fresh difficulties.

There is reason to believe that repressive measures against the socialists will be confined to what is absolutely required. It is stated that socialistic pamphlets are being circulated in Brussels.

To-day's bulletin reports that the Emperor enjoyed an undisturbed and refreshing sleep throughout the night, and this morning sat up. The swelling of his arm has decreased.

ST. PETERSBURG, 12.—To-day's bulletin reports the condition of the Empress as follows: Fever and inflammation is subsiding, but the patient's rest is disturbed and she does not gain strength. Public prayers are offered in the churches in all parts of Russia for the recovery of the Empress.

#### DIED.

At Smithfield, Cache County, Utah, September 14, 1877, MARTHA DULOP, wife of John Gardner, aged 65 years, 10 months and 5 days.

At his residence at Annabell, Sevier County, U. T., on the third day of June, A. D. 1878, of consumption—after a long and severe illness—ISAIAH HUNTSMAN, son of James and Mary Johnston Huntsman. He was born near Belleville, Richland County, Ohio, September 14th, 1828. In company with his father's family passed through all the trials, tribulations, and final expulsions of the saints in and from Missouri and Illinois. And on the call for men by the United States government, enlisted in the Mormon Battalion, July 18th, 1846; experienced the untold hardships of that unparalleled campaign across the continent, with that party of brave men, to Lower California, where he was discharged on July 10th, 1847, returning via Salt Lake Valley, to Winter Quarters in the winter of 1848, where he remained until the spring of 1857, when he crossed the

plains to Utah, and has resided in different parts of this Territory up to the time of his death.

He died as he had lived, firm in the faith of the New and Everlasting Covenant. He leaves a large family to mourn his loss, being the father of nine sons and eleven daughters. Before his death he expressed a desire to be laid beside his father in the Fillmore grave yard, therefore his remains were brought here and deposited as requested, on the morning of the 6th inst.—[COM.]

## GANG & SULKY PLOWS.

IMPROVEMENTS are constantly being made in all kinds of labor saving machines, and more especially in farm implements, and farmers are learning that the saving of time and labor can best be accomplished by using the best implement-manufactured. In this connection we wish to speak more particularly of the

## GANG & SULKY PLOW

made by Avery & Sons of Louisville, Ky., which we have recently examined at the sales-rooms of

### J. W. LOWELL & CO.,

of this city. About 60 of these plows have been sold by them in the last few weeks, probably a larger number than has ever before been sold in this Territory since its first settlement. Farmers are getting tired of being jerked and twitched around all day by following the old style of plows, and find that by using the

## AVERY GANG OR SULKY PLOW,

which is a beauty to look at, as neatly built as a carriage and about as comfortable to ride on, they can do their plowing with comfort, and even a child can handle it and do a man's work. We do not wonder that scarcely any other style of GANG OR SULKY PLOWS are sold in this market, for the Avery is unquestionably the BEST manufactured, as hundred of the leading farmers of Utah will testify.

We give below a letter from Mr. John Rouse, of Goshen, known as one of the oldest settlers and leading farmers of this Territory, who has tested the AVERY PLOW and knows its merits.

GOSHEN, Utah,

Feb. 19, 1878.

J. W. Lowell & Co.,

Gentlemen.—A twelve year old son of mine plowed 60 acres last fall with the Avery Gang and Sulky Plow, eight acres of which were plowed 12 inches deep and laid level and better than any other plowing I have seen since I left England; and I consider myself a judge of such work. My boy can handle the plow with ease. As for the draft, three horses can handle it readily in breaking with this sulky plow, and the same team is sufficient for the 12 inch gang plow in old land. I am well pleased with the plow, and do not know where it can be improved.

Yours respectfully,  
JOHN ROUSE.
